DISTRICTS OF MERCEDSS

The two partides we have chosen for to day's review are among the chief head-quarters of Irish shoop-farmers. Mercedes is set down in page 4 of the Contribucion report, as including 52 square leagues in extent (of which 14 are Government lands) at a valuation of 600,000 dals, per league; the Com missioner however shows that he estiunte is grossly in error, as in Moron and Aerecifes, but this time instead of a deficit we find the partido decidouly gaining ground, its actual extent being 114 leagues. The tax gatherers have done a splendid business in 1863, increasing the revenue by 103 per cent. for whereas in 1862 Mercedes paid only 83,058 dols, the levy last year amounts partido, for where land is of little v-lue there are immense tracts in the possession of single individuals. The 72 so leagues are divided into 90 estanel
