FRIDAY, APRIL 8, 1864. BORRERIES AND OTTO ACES

San Francisco never was in such a state as this city is at present. There is no part of the uncivilized world this state of things would be tolarsted, and the necessity for --or some kind of summary justice is becoming every day more apparent, as the authorities by a culpable neglect only foster this lawless condition. Thirty five murders and robberies, in the fortnight of March, perpetrated within a league of the town, show the supremacy of the highwayman's knife in spite of our boasted republican institutions. "Igualdad ante la ley" means that every man runs an equal risk of being assessmated, the law regarding the robber and victim as equally useful members of society. The organ of Possident Mitre throws all the blame on the Provincial Government, buttoour mind both Covernments are to blame: it is end state of things if the supreme magistrete cannot take measures to prevent this city and its suburbs being converted into a den of thioves. It is an infamous slander, invented by the author of Monte Cristo, that the outskirts of Rome and Campagna di Roma ere infe ted by out threats. The writer of these lines has frequently parts of the Sabine and Alban hills, by day and night, and one testify to the security of the high roads. On the Contrary it is in-minent danger to leave F. What matters it to the public who are Departites, or which of our rulers understand international law, if there he no police? We don't want to found jurisconnits.

Next week we expect the list of out-rages will exceed two dozen, and it behaves the public to call a meeting, or patition Generalization to any as do those cursed electrism, and take one that the number of voters be not diminished; a Arbuguh a surveite friend of ours eminish that the six this vess streams of arrested voted at the last elections.
