HAVAS' AGENCY

Paris 13th.

Mr Naquet's Divorce Bill is again before the Chambers. It was referred to Committee after a short debate.

CATTLE BRANDING.

MR CARVALHO'S SYSTEM.

In referring again to a matter so vitally important for the estancieros of the province, it is necessary to recall the fact that the present antiquated system requires no less than 80 or more books which are kept in the 'Oficina de Marcas' and which contain over 60,000 brands or marks belonging to the province of Buenos Aires alone. All these marks have been registered from the commencement, and new ones are registered, without any fixed plan or the slightest method, and the inextricable confusion that necessarily arises renders it utterly impossible for any estanciero to rely on such a public department as the so-called 'Oficina de Marcas.' Every man who owns a cow cries out for some reform, but up to the present in vain. The recent most objectionable Law compelling estancieros to 'renew' their 'marcas' is obviously a device to 'raise the wind,' and nothing more, but it has fairly raised the d——l amongst the estancieros, who have every right to demand something in return for this pull at their pockets; and what they do demand is, that, if the Government persist in enforcing this new Law, it will at least adopt some rational system of marking, and registering the brands, and not perpetuate the old one, which would have been good enough in the time of the Patriarchs, but is worse than useless (except for taxing purposes) now.

It is impossible that things can go on much longer as they are now in the Marking Office, and if the estancieros have to pay 500 m|c for new 'boletos', they are most certainly entitled to some benefit in return, all the more so as faith has not been kept with them, their 'boletos' having been issued as 'permanente,' and now they are asked to pay again, and we feel an inward apprehension that the tax will soon be made a yearly one. A properly constituted 'Marks Office' would put an end to innumerable abuses that weigh heavily on the estancieros under the present worse than absurd system, which leaves too many doors open for scandalous malpractices, doors that are nearly worn off their hinges by daily use. It will be worse than useless to order a new registration of cattle marks if it is to be done on the existing system, which is simply 'confusion worse confounded,' and the longer it is persevered in the worse the muddle will be.

Within the past ten years several new systems for branding cattle and registering the brands have been proposed, but were all so complicated that they were let drop almost as soon as proposed. The late Mr. Qurino suggested a system that was by far the best of those proposed, and obtained some consideration, but Mr. Huergo, who is so competent to judge in this matter, has recently shown in some lucid articles in the *Nacion* that Mr. Quirno's system, though excellent in theory, would be found deficient when put in practice.

The system which Mr Carvalho has invented and proposed to Government is, in our humble opinion, by far the best and most practicable as yet suggested. It has none of the defects of the present one or the numerous others proposed as a reform, and we feel certain that its adoption would be of immense benefit to the pastorial interests of the country. Like all useful inventions, it is simplicity itself. We will try to give some idea of it:

The ten cardinal numbers, 1 to 9 and 0, are represented by simple signs, combined in such a manner than none of them can by any possibility be run into another to produce a forged mark. The basis and distinctive feature of Mr. Carvalho's marks is an arrow that forms the key by which the order of the signs and the numbers they represent are as easily read as A.B.C. The signs on the left side of the arrow represent 'thousands,' and the same signs on the right side represent units. Sign 3 when on the right side means 3, when on the left it means 3.000. Number 2,005 is made by an arrow with sign 2 on the left side and sign 5 on the right. Number 4139 is produced by an arrow with sign 4 on the left (4,000) and signs 1.3.9. on the right in their natural order, commencing from the arrow's point to its base. An arrow with the signs for 9 and 8 on the left and 4 and 7 on the right would represent 98,047.

It can be seen that there is no limit to the numeration, and that any numbers whatever can be represented easily by the ten signs, but it is pretty clear that more than five of them can hardly be required, as these can be made to represent 99,999, and, without overloading the mark with signs, with six of them we arrive at 1,000,000. Nothing simpler has ever been invented. Some will, perhaps, say that the thief who steals a cow and a hide can easily disfigure the mark, and alter the number it represents by adding an additional sign on either side of the arrow; but Mr Carvalho had this in his mind and has baffled the cattle-stealers in the most complete, ingenious and simple manner possible to conceive. At the base of the arrow there is a diminutive 'countermark,' or sign, which tells the total number of signs or figures in the number which the mark represents. Thus, an arrow with two signs has the sign 2 at the bottom; an arrow with 3 signs the sign 3, and so on. If a mark with 4 signs has sign 3 at foot, it will easily be seen that it has been tampered with.

It can be seen that none of the separate signs can be changed into another, nor can the sign at the bottom be meddled with without the fraud being apparent on the instant. Mr. C's marks have another great advantage; they do not burn the hide too much, being of 'poco fuego;' they represent the same thing, no matter in what position they are placed, and their size can be easily reduced to less than the 15 centimetres on each side which the new Law prescribes. Mr. Carvalho recommends for all his marks the uniform width of 9 centimetres, that is 4½ on each side of the arrow, including the thickness of the latter, which is from 3 to 4 millimetres. As for the length of the arrow, it will only reach 15 centimetres when the mark has three signs on either side; with 2 signs the length will be only 11½ centimetres, and with one sign, 9, equal to the width. Modifications, within the measure allowed by the Law, can easily be made without affecting the system in the least.

We venture to say that nothing better than Mr. Carvalho's system of Marks can possibly be produced, and, should the Provincial Government enforce the recent Renovation Law, it should certainly adopt the reform devised by this highly intelligent gentleman. It will give the estancieros something for the fresh plunge into their pockets which the Legislature has made.

As a Parthian 'arrow' on this subject, we may say that we thoroughly agree with the Rural Society in thinking that the parts of the animal named for branding in the new Law are not up to the 'mark' and should be altered.

LATEST FROM EUROPE.

Lisbon, Nov. 13th.

The Irish Bishops continue their unanimous opposition to the "No Rent" doctrines of the Land League. Bishop Dorlanin, reply to an address presented to him in Belfast, declared that he was completely in accords with the Archbishops of Dublin and Cashel in their opinion of the attempt to make the people of Ireland adopt such doctrines: he added that resistance was only justifiable when it was in accordance with honesty and morality.

Mr Patrick Egan has issued (from Paris) another 'No Rent' appeal to the people, stating that they can count on pecuniary assistance from America, and that the fight must go on.

No further Cabinet Councils will be held in Downing Street for the present, unless something unforeseen should occur in Ireland or elsewhere.

Prince Bismarck was expected in Berlin to confer with the Emperor on the new political situation created by the result of the recent elections. The semi official press say that the Chancellor will abandon his economical projects for a time, as he could not possibly pass them with the present constitution of the Chambers. There is no question of the Prince's resignation.

The famous Clemenceau interpellation in the French Chambers ended in favour of the Government with 345 to 168 votes.

Things are rapidly settling down in Tunis, and the French Generals hope to reestablish order completely very soon, as several of the strongest tribes have submitted, and the others are preparing to do so.

Pernambuco, Dec. 12th.

Douro, of Royal Mail line, brings dates from Southampton to 27th ultimo.

On the previous day there was a most lively debate in the House of Commons, and of great importance from the declarations made in refe rence to the Suez Canal. Sir Evelyn Ashley, President of the Board of Trade, who took part in the debate, said on behalf of the Government, that England, in securing possession of the Suez Canal, had no intention of closing it to the vessels of other nations, but solely to guarantee effectually that it should always remain open for her own ships. He declared that, as the French Government takes the same view of the matter, Her Majesty's Government will act conjointly with that of France in everything referring to the Canal, but will allow no other power to have anything to do with the matter.

The *Standard's* correspondent in St. Petersburg reports a fresh conspiracy against the Ozar's life, but all the papers have had a visit from 'the man in black' and a warning to keep silent on the topic.

2nd. Articles that pay in proportion to their volume, 4 centavos per month for every 100 cubic decimetres.

3rd. Liquors unbottled and not occupying full capacity of vessel. 8 centavos fuertes per 100 litres per month.

4th. Articles that pay according to value shall do so as follows:—

Packages, the value of which does not exceed $20, shall pay 40 centavos per hundred; from $30 to $50, 30 centavos; from $50 to $100, 20 centavos; from $100 up only 50 centavos.

5th. Powder and explosive articles 20 centavos per month per 100 kilograms.

Art. 2. Fractions of weight, volume or measure, shall be payable as entire.

Art. 3. The Executive shall determine the articles that shall pay per weight, volume, measure, or value.

Art. 4. The 'eslingaje' shall be equivalent to two months' 'almacenaje' for merchandize in deposits, and to three-fourths of the deposit in case of direct despatch. Salt, coal, stone, Paris chalk, stone, flags and others analagous shall pay 60 centavos per cent. of 'eslingaje' on their value.

Art. 6. Articles exempted from import duties by laws, such as contracts, shall pay 'eslingaje' dues in direct despatch, if they do not enter the Customs deposits, and dues of 'almacenaje' and 'eslingaje' of deposit should they enter into same,

Art. 6. Hereby six months' exemption of 'almacenaje' dues is allowed to the merchandize leaving in transit the fiscal deposits and other Custom Houses of the Republic for abroad.

Art. 7. Let this be communicated to the Executive.

WINDSOR COLLEGE

The Annual distribution of prizes at Windsor College, 791 Calle Defensa, took place on Monday p.m. in the presence of parents and friends of the pupils and of the College.

The reception Hall, where the exercises were held, was handsomely decorated with floral designs by the pupils of the College.

The programme (which we give below) was an excellent one, and the opening address by Miss Conroy was in very good taste and nicely delivered, each exercise being well entitled to the applause it received. The whole showed cultivation and refinement, and the modest and orderly bearing of the young ladies was marked and very charming to those who were fortunate enough to be present.

Father Fidelis O.P, presided over the exercises and was assisted in the distribution of prizes and premiums by Dr Grace, of Holy Cross College, at the close of which remarks were made of a very complimentary and deserved character by Fathers Fidelis, Clement and Dr Grace, in which all took occasion to congratulate the efficient and talented Directress, Mrs M Macken, upon the high degree of perfection the College had attained under her careful direction, of the excellence of the day's exercises and of the pleasure they derived in being present.

The College term begins January 15th, 1882.

EDITOR'S TABLE.

Everybody looked sleepy yesterday, the incessant roaring of Jupiter Tonans having kept the whole population awake for the best part of the night. The first enquiry on all sides was 'Has the Exhibition been demolished again?' We are most happy to say that it stood the test well, although at one time during the night the force of the wind was greater than during the gale that tumbled it last month. This shows that Mr Blot, the builder, has been warned by experience and wont allow it to be blotted out again, if he can help it.

The new Mediterranean steamer Navarre brings dates from Marseilles to16th ult. The *Nacional's* telegram from Montevideo says that the alliance of Germany, Austria and Italy is a fact, although the whole Austrian press refuse to hear of giving back Trieste to the latter Power. Great probability of peace in Algiers. British troops evacuating Transvaal. Splendid ovations to Princess Isabel and husband at Pernambuco and Bahia.

The *Nacion* beats us all in the telegram line now. It had the Douro's news, by wire from Pernambuco, yesterday morning. We give it in another column. The declaration that England will allow no power but France to have anything to do with the Suez Canal is highly important. The late Lord Beaconsfield's little 'spec' in the shares of the Canal was certainly a splendid hit, pecuniarily and politically.

Another sensational bit of news was published by the *Tribuna Nacional* yesterday, viz, that Pierola and Garcia y Garcia have left Peru for Europe, at the instigation of our distinguished countryman Admiral Lynch, Chilian Commander in Chief. Although we hesitate about sending this bit of intelligence to the 'fondedero de rigor,' we unhesitatingly condemn it to one day's observation in quarantine. In any case it is not of great importance. 'Clearing' for Europe at a moment's notice is, however, so frequent amongst Peruvian notabilities, that the intelligence may possibly be correct.

No Thales's mails yesterday, owing to 'no steamer to-night' being the 'mot d'ordre' at the Mount on Tuesday. When is this intolerable nusance to be remedied?

'Lino' is now becoming as frequent a heading in the columns of our native colleagues as 'High Life' or 'Una Carta de Victor Hugo (What a lot of letters that old poet writes!) Everybody is now off his head about flax. The Chivilcoy growers were fairly stunned by the figures given by Mr. Matthew Forrester some days ago in reference to the profits of Flax growing, but we believe Mr. F. is perfectly correct. Of course a smart fall in price would upset his figures. The Provincial Government has ordered the translation into good Spanish of M. Remouard's famous treatise on Flax Culture, and 1,500 copies will be given to the Jueces de Paz of the province for gratuitous distribution amongst the farmers. Governor Roach and his Finance Minister have hit the nail on the head. We had again dozens of visitors yesterday to see the Bernal flax. There will yet be larger fortunes made in flax here than those which have been made in wool.

The famous Telephone Post decree hangs fire. Mr Julius Arraga has proposed a new system for carrying the wires. As far as we can understand it, it is the arch proposed by Captain Manton, or something uncommonly like it, and the Captain's patent must not be infringed.

The *Revista Medica* says that it cannot conscientiously affirm that the health of the city is bad. We're delighted to hear it, colleague. If you could, you would, no doubt.

Three young officers of the Cabo de Hornos are under arrest in connection with the corned beef 'esclandre.' It will end with this probably, and a verdict of 'nobody to blame.'

A morning colleague having asserted that Captain Moyano, the eminent explorer, was anxious to obtain permission from Government to hunt 'wild sheep' in Patagonia, that gallant officer writes to say that the story is of the wild-goose order.

A very readable article from *Harper* on 'Journalistic London' will be found in our Supplement. It is about time for the Fourth Estate to have its turn.

Another musical treat is at hand, a concert by the German Singing Academy, on Monday next, in the old Coliseum. The programme is splendid, including Haydn's 'Creation,' a Sonata of Beethoven's and a Rondo of Mozart's. Tickets are on sale at Mr Ernst Nolte's No 115 Calle Cangallo.

The 'Escuela Agronomica' at Mendoza has managed to turn out six young gentlemen who claim to be 'au fait' in the manufacture of Burgundy and Claret. Excellent news in such thirsty weather. The young fellows are to be placed at the head of some vineyards which are about to be started there.

Any person requiring a prime rifle will see one advertized for raffle in our 'aviso' column.

A soldier of the 7th of the Line fell insensible yesterday in Calle Buen Orden, from the effects of a sunstroke.

During the storm yesterday morning the lightning struck a cock of hay in a quinta at Flores and it was burned to ashes, in spite of the heavy rain.

'Buenos Aires by Night,' in yesterdays *Libertad* is very pleasant reading. Another half turn 'Round the Clock', however, would reveal queer things.

Those who may be thinking of spending Christmas in Montevideo would perhaps do as well to remain 'chez eux.' Small pox, scarlatina and cholerina are all prevalent down there. From cholerina to cholera is but a step.

The heat in Entre Rios is as bad or worse than here. We perceive that our esteemed colleague the *Actualidad* had the same mishap as ourselves—the rollers of its printing press melted by the heat.

Number 1289 won the 100,000 pats in yesterday's Lottery at Montevideo.

We had a visit yesterday from 2 Municipal Bondholders who looked in the last stage of impecunious mouldiness, while their pockets bulged with the unpaid coupons on their fatal investment. They came to protest in the most solemn manner against the unfair distribution of the gold medals struck to commemorate the federalization of the city. While Ministers and Municipalities and all classes of officials get a medal each, the unfortunate Bondholders do not get even half a one, whereas their right in equity to two, three or even half a dozen each could hardly be disputed, seeing the length of time that has elapsed since they received any interest. A few of the medals to each Bondholder would always have been something out of the fire. We cannot help thinking that our visitors' views on this matter were substantially correct.

The latest harvest reports from Rosario are to the effect that the wheat is magnificent in all the colonies, but labour is very scarce.

Our reporter in the Provincial Senate informs us that Senator Ortiz de Rosas's speech on Tuesday against the monstrous increase in the Patentes this year was worthy of the House of Commons, splendid from all points of view, but chiefly from his logical reasoning and perfect knowledge of the subject. Senator Ibarra's speech was also very good.

'Funcion de Moda' to-night at the Politeama.

The period for applying for space in the Continental Exhibition has been extended to 31st inst. People are now beginning to believe that the Show will open on February 15th after all.

The *Prensa* agrees with us that the awful state of the Riachuelo will bring on an epidemic this year, if some decisive measures be not at once adopted, It was the self same nuisance that gave the Yellow Fever its awful impulse eleven years ago. We in Buenos Aires are far worse than the Bourbons; We forget everything and learn nothing from experience or anything else, and when the danger comes we skeddadle.

It affords us much pleasure to announce that Dr. Don Carlos Casares, President of the Provincial Bank, is rapidly recovering from his late illness.

Now that the key of the Cabildo clock has been delivered by the Department of Engineers to the President of the Municipalty, there will be no excuse for the hands being so often behind as they were before.

The plans for a new hospital for men have been presented to the Municipality for approval.

Dr. Faustino Jorge, President of the Westren Railway, will return here in January after an absence of six months in Europe.

The contractor of the port works of Santa Fe has come to grief, he having being declared a bankrupt.

The second exhibition of Flowers and Fruits will be held at 101 Re-conquista to-night. We have no doubt that these shows will be much patronized by all the English speaking community, as in no part of the globe are these sweet productions of nature more highly cultivated and prized than in England.

A colleague says that the magnanimous conduct of all shipping agents connected with this port, in offering to grant free passages to all engineers coming with machinery to the Continental Exhibition, is 'digno de aplauso.'

Mr Ernest Mendez has applied for a patent for what he styles an inexhaustible inkbottle. This news cheers us very much, and we earnestly pray that Mr Mendez will now devote his time to making some other kinds of liquids inexhaustible, as the very oppresive heat is the cause of excessive drought in many quarters.

A shop in Moron was set on fire by a kerosene lamp falling on the counter. The fire was extinguished with great difficulty.

Washington seems to be a rather dangerous post for bachelor diplomatists who desire to have white plumes on their 'coche funebre.' The *Court Journal* says:—"The approaching marriage of Mr. Victor Drummond, now Charge d'Affaires at Washington, to Miss Lamson, of New York city, recalls the fact that from the first British Minister accredited to America, Mr. Hammond, to the present time, English diplomatists have again and again carried home American wives. Sir Charles Murray, Mr. Plunkett, Mr. L'Estrange, Mr. Howard and Mr. Denis are of the number."

The departure of Governor Rocha on a lengthened tour through the Province has been fixed for to-morrow. We much regret that we have not an ice machine to offer His Excellency; it would, we think, be very useful for such a trip at this time of year.

Dr del Viso, it is expected, will go as far as Tucuman, for the purpose of inspecting the works of the prolongation of the railway line from that town to Jujuy.

The particulars given by Havas in reference to the destruction of the Ringstrausse Theatre in Vienna put all our High Life friends into distressingly low spirits yesterday. As sure as eggs are eggs, something similar will happen here some night if our Municipality do not take warning from this appalling catastrophe in the Austrian capital. It is the most frightful disaster since that in the Cathedral at Santiago de Chile.

The Municipality of Moron has applied to the Provincial Government for funds to construct a prison in that town.

A lad named Mollero was accidentally drowned in the Riachuelo a few days ago, in spite of all the efforts of his companions to save him.

The Entreriano Government has addressed a note to the National authorities, requesting to have immigrants sent to the province, promising to provide land for them.

Not a single patacon offered for cash to-day in the gold market, and all the time sales answer saladero necessities. It is expected that the saladeristas will do a very large business next January, and the present gold business is limited to the demands of the faena. The sales of the day amounted to 116,000 pats at 25.05. In cash some sales were attempted at 25.02, but in vain.

Cedulas gave way slightly to-day, and the par quotation of yesterday was not maintained. One party bought 90,000 pats, a species of transfer from National Bank Shares. To-day the new 200 pats scrip of Series E were sold; they are a fine red color; 1,000 of this new Series were bought up.

The National Bank Share market ruled much the same as yesterday. Several holders let go, making very handsome profits, thus slightly weakening the market, one broker moved off 400 shares. The Italian king and an Italian broker bought cash freely. The Italians are getting in the stock again very quickly. Some consider the present weakness in the market as a 'ruse' of the Ausonians to buy in cheap.

In Roads and Bridges the old quotation is maintained and 2,000 were sold at 103.

The great news of the day was the announcement made by Mr J Samson that machinery had arrived for Tucuman to make barrels of Tucuman cidar. The great difficulties of the sugar and wine producers consisted in a lamentable want of barrels and bottles. The new machinery will turn out 8,000 barrels per week, capable of containing each 3 ar. of sugar. Not long ago in the wine line the producers in San Juan and La Rioja had to turn off their surplus wine into the streets, owing to the superabundance of the inspiring juice. Now, reckoning on 8,000 barrels a week we may look forward to a changed feature in the provinces. Such instances as these only go to show how this country is progressing; the next step in the right direction will be the manufacture of bottles in the Interior.

The sales at the ring were—
For Dec. 31st 305,000 25.05

Exchange is firm at 50¼. There are few takers and many drawers. We hear that one of the private banks has put its rate at 50d.

The following are the exchange rates of the new English Bank:—
On London, 50d.
On Paris, 5.28
On Antwerp, 5.29
On Germany, 4.28

Chevalier Oldham left Montevideo last night to repair the cable between Sta. Catalina and Rio Grande. We hope he will soon succeed in doing so, as merchants prefer sending their cablegrams direct. As it is, the telegrams go over land, incurring delays.

We know of a sale of Treasury Bills; one large holder sold out 180,000 at 114. The sale is very low, when we consider that the last London telegrams quote same at from 118 to 120.

It is estimated that the lino harvest this year will be worth 100,000,000 pats.

Freights rule firm at 35 francs. The Archimedes leaves to-morrow with the following cargo:—

1,993 bales
1,200 salted hides
1,366 dry hides
1,600 packages of minerals
180,000 pats in silver.

European telegrams from Havre confirm the wool news in to-day's *Nacion*. The limits passed are cabled to be 5.25 for good Havre classification. In the Once there is much indifference in the market, as the limits of the "artistas" have been curtailed. The arrivals continue very heavy, and the consignatorios shake their heads as the wools accumulate in the deposits. Since Monday we may say that there has been a fall of 5m/c in prices, and good "pasto fuerte" wools are placed with difficulty at 85 m/c per arroba. The consignatorios and buyers clamor against the abominable state of the Once deposits; there is no getting at one's wool stall. The organization is pronounced wretched, and nothing could be done this morning in the "galpones". Surely the men in the Western Railway should attend to such general and repeated complaints. We hear that the question led to high words in the Once Station this morning, and it seems as if more of same were required to open the eyes of the Board as to the dissatisfaction in the Plaza.

Although the late arrivals of wools in the Once have not consisted of very good qualities, those from 25 de Mayo and 9 de Julio of late have been exciting attention. These wools are clean, light and excellent; their yield is expected to surpass that of others.

At afterhours a sharp reaction took place in Nat. Bank Shares and prices gave gradually way from 118¼ to 118, 117½, and finally stopped at 117. The market slightly recovered afterwards and closed buyers at 117⅛ for cash and end of the month, but no sellers.

In the beginning of next week the Legislature will take up the bill presented by the Executive on Mortgage Bank. The bill is expected to pass.

Chevalier Scott, commander of the Ocean King, was welcomed on 'Change, his steamer loads for Antwerp. The captain was knighted by the Italian Government for some important transport services and saving the life of Garibaldi. The Ocean King is a fast steamer and will be loaded by Messrs W, Samson and Co.

The storm last night was one of the heaviest and longest in this year, and many ships in the harbor dragged their anchors and collided. Happily there has been no loss of human life. Several lighters were smashed.

Mr Kruls is forming a company out of the present thriving ostrich farm in Moron, owned by Mr Beaumont. The company to consist of 750 shares of $1. 100 each, 320 of which are taken up by the owner of the farm at present. Mr Beaumont will continue manager, and we augur to the new concern the very best results under this gentleman's management of the birds. As it is, the farm, we know, has given over 17½ o/o on the capital, without including the additional value by the increase of birds.

In wheat the market is weak, and prices show a fall on former quotations.

The destruction of the Ring House Theatre in Vienna was much discussed. We hear that it could not have been the Opera House as the theatre opens on all sides in case of danger, and the stage can be submerged at a moment's notice. Whatever may have been the theatre, the loss of life is appalling and is another warning to habitues of Colon and the Opera.

The Sales at afterhours were—

Without operation.
National Bank Shares—
For Dec. 15th at 117½
For Dec. 31st 600 shares 118½-118-117½

A sale of 10,000 novillo hides, 68 lbs., at 49 reales gold is reported; also from the Casa Blanca 10,000 novillo hides of same weight at 50 rls. gold.

The saladero business up the rivers is effecting a drain of gold from this market. Although the operations of the faena are not much, there is a steady demand for sovereigns at ½ o/o premium, and for Condors at the same rate. No doubt many sales are effected unknown to the public, as they are kept under reserve.

The wool telegrams from Europe during the last few days all breath the same tenor, depreciating prices in this market. As far as our knowledge goes, the same has always occurred in this market, and prices have permanently ruled somewhat higher than in the European markets. The moving off of the wool has nevertheless been very brisk, and all the steamers in port leave with heavy cargoes. The artistas have carried off much wool for French and Belgian account. Yesterday some flatness was remarkable in both the Once and the South, and prices ruled dull, owing to the very heavy arrivals; yet sheepfarmers understand their interests, and are unwilling to keep their wools on hand, after the experiences of last season. Wools at the present rates leave the farmer handsome profit, and their immediate sale is a necessity, as gold will more or less henceforward maintain the present level.

Several Curamalan high life friends were welcomed on Change; they state that in some parts of the camp the grass is so high as to impede the horses galloping; the sight of the Sierras from the distance is quite picturesque and reminds one somewhat of the "Schwarzewald" seen from Rastatt, or the Affenthaler valley; the slopes of the Sierra are excellent for cattle, whilst the low camps are unrivalled for sheep. The future of this Curumalan territory is simply dazzling; what with the Bahia Blanca extension railway, and the gradual and steady growth of this province, we may look to this Curamalan enterprise as one of the most successful and promising in the annals of our land speculation.

The San Blas party must have had an uneasy time of it last night; but they always were to have slept in Commander Spare's estancia house, a few leagues from Patagones; all the country thereabouts is thickly settled with natives and several foreigners near the coast. A private letter from a friend states that the Villarino passengers had an enjoyable stay in Bahia Blanca, where the restaurants, if not on a par with those of the Once deposits; there is no getting at one's wool stall. The organization is pronounced wretched, and nothing could be done this morning in the "galpones". Surely the men in the Western Railway should attend to such general and repeated complaints. We hear that the question led to high words in the Once Station this morning, and it seems as if more of same were required to open the eyes of the Board as to the dissatisfaction in the Plaza.

A sale of 10,000 novillo hides, 68 lbs., at 49 reales gold is reported; also from the Casa Blanca 10,000 novillo hides of same weight at 50 rls. gold.

The saladero business up the rivers is effecting a drain of gold from this market. Although the operations of the faena are not much, there is a steady demand for sovereigns at ½ o/o premium, and for Condors at the same rate. No doubt many sales are effected unknown to the public, as they are kept under reserve.

The wool telegrams from Europe during the last few days all breath the same tenor, depreciating prices in this market. As far as our knowledge goes, the same has always occurred in this market, and prices have permanently ruled somewhat higher than in the European markets. The moving off of the wool has nevertheless been very brisk, and all the steamers in port leave with heavy cargoes. The artistas have carried off much wool for French and Belgian account. Yesterday some flatness was remarkable in both the Once and the South, and prices ruled dull, owing to the very heavy arrivals; yet sheepfarmers understand their interests, and are unwilling to keep their wools on hand, after the experiences of last season. Wools at the present rates leave the farmer handsome profit, and their immediate sale is a necessity, as gold will more or less henceforward maintain the present level.

Several Curamalan high life friends were welcomed on Change; they state that in some parts of the camp the grass is so high as to impede the horses galloping; the sight of the Sierras from the distance is quite picturesque and reminds one somewhat of the "Schwarzewald" seen from Rastatt, or the Affenthaler valley; the slopes of the Sierra are excellent for cattle, whilst the low camps are unrivalled for sheep. The future of this Curumalan territory is simply dazzling; what with the Bahia Blanca extension railway, and the gradual and steady growth of this province, we may look to this Curamalan enterprise as one of the most successful and promising in the annals of our land speculation.

The San Blas party must have had an uneasy time of it last night; but they always were to have slept in Commander Spare's estancia house, a few leagues from Patagones; all the country thereabouts is thickly settled with natives and several foreigners near the coast. A private letter from a friend states that the Villarino passengers had an enjoyable stay in Bahia Blanca, where the restaurants, if not on a par with those of the Once deposits; there is no getting at one's wool stall. The organization is pronounced wretched, and nothing could be done this morning in the "galpones". Surely the men in the Western Railway should attend to such general and repeated complaints. We hear that the question led to high words in the Once Station this morning, and it seems as if more of same were required to open the eyes of the Board as to the dissatisfaction in the Plaza.

Although the late arrivals of wools in the Once have not consisted of very good qualities, those from 25 de Mayo and 9 de Julio of late have been exciting attention. These wools are clean, light and excellent; their yield is expected to surpass that of others.

At afterhours a sharp reaction took place in Nat. Bank Shares and prices gave gradually way from 118¼ to 118, 117½, and finally stopped at 117. The market slightly recovered afterwards and closed buyers at 117⅛ for cash and end of the month, but no sellers.

In the beginning of next week the Legislature will take up the bill presented by the Executive on Mortgage Bank. The bill is expected to pass.

Chevalier Scott, commander of the Ocean King, was welcomed on 'Change, his steamer loads for Antwerp. The captain was knighted by the Italian Government for some important transport services and saving the life of Garibaldi. The Ocean King is a fast steamer and will be loaded by Messrs W, Samson and Co.

The storm last night was one of the heaviest and longest in this year, and many ships in the harbor dragged their anchors and collided. Happily there has been no loss of human life. Several lighters were smashed.

Mr Kruls is forming a company out of the present thriving ostrich farm in Moron, owned by Mr Beaumont. The company to consist of 750 shares of $1. 100 each, 320 of which are taken up by the owner of the farm at present. Mr Beaumont will continue manager, and we augur to the new concern the very best results under this gentleman's management of the birds. As it is, the farm, we know, has given over 17½ o/o on the capital, without including the additional value by the increase of birds.

In wheat the market is weak, and prices show a fall on former quotations.

The destruction of the Ring House Theatre in Vienna was much discussed. We hear that it could not have been the Opera House as the theatre opens on all sides in case of danger, and the stage can be submerged at a moment's notice. Whatever may have been the theatre, the loss of life is appalling and is another warning to habitues of Colon and the Opera.

The Sales at afterhours were—

BASE DE VENTA:
$80,000 por legua
El Viernes 23 de Diciembre a las 3 de la tarde

Procederemos a vender los campos arriba mencionados situados al sud de Cordoba, conocidos por las 'Averias' e inmediatos a los campos de 'La Carlota' y situados al sud de ella.

El campo que ofrecemos en venta ha sido mejorado y amojonado con mojones de hierro y madera y es segun opinion, de primera calidad su proximidad a la provincia de Buenos Aires se nota facilmente, con la revisacion de los planos que se enseñaran a los interesados, a quien se les dara igualmente un plano general de las fracciones a vender.

Recordaremos a los que en ellos pueden interesarse que el Ferro-Carril Andino [Concesion Clark] es ya un hecho, segun consta de los telegramas europeos publicados en todos los diarios, para dos leguas mas o menos de estas magnificas tierras, toda ella vegetal.

Muchisimas lagunas se encuentran en esta inmensa zona de fertilisimo campo, e inmensurables cañadones le cruzan en todas direcciones, el agua se halla a 2½ varas.

La red de Ferro-Carriles, que ligara las provincias Argentinas se ve ya como un hecho y segun informes, uno de estos Ferro-Carriles debera partir de la estacion Villa Maria del Ferro-Carril Argentino y se unira a la concesion Clark y este al Ferro Carril del Oeste.

Si los compradores unifican estos datos de pregreso a la bondad de estos campos ellos veran cuan infima es la base fijada, mayormente si se tiene en cuenta la venta efectuada por el Gobierno de la Nacion de los campos situados en el limite Norte de la Provincia de Cordoba hace apenas unos dias, y cuyos precios variaron desde 1,000 a 3,000 $f. legua.

La situacion pues de las tierras que ofrecemos en venta, y para la cual llamamos la atencion de nuestros amigos es de un porvenir inmediato y positivo relativamente a los anteriores.

JOURNALISTIC LONDON

Although it has its headquarters in and around Fleet-street, it is hard to say where journalistic London begins and ends. Time was when the 'writer for the Press' did not consider that his calling made it necessary for him to mix in society, to belong to the best clubs, and have an establishment of his own where the greatest in the land should not be ashamed to visit him, but should gladly grace his board and interchange family courtesies at his wife's receptions. The Potts of Dickens would be as hard to find in the country to-day as the Shandon of Thackeray in London. As Bohemia has laid aside its long pipe and 'two of gin', its sawdust floors and pewter pots, so has journalistic London advanced from the tavern corner, the spunging house and the gutter, to take a foremost place in the best society of the time, combining with literary London to make an intellectual aristocracy that bids fair to hold in general estimation a standing equal to that of hereditary rank and fortune. Liberal Premiers and Liberal Cabinets are credited with showing a more genuine respect for journalism than their Conservative opponents, though both have long since ceased to keep the London editor where Lord Chesterfield detained Dr. Johnson, a patient and despised waiter on greatness among the lackeys in the hall. Now and then a London journalist unconsciously reveals the old state of things when he scoffs at some successful rival who has ventured to refer familiarly to a distinguished person just as Mr. Lawson was attacked for speaking in some past controversy of the Premier as his 'Friend Mr Gladstone.' Remembering the proverb that hawks do not eat hawks, journalists should not disparage the social distinction of their class. A great journal like the *Daily Telegraph* wields as powerful an influence as Mr. Gladstone, and to suggest that the director of such a power has not sufficent standing to meet Mr Gladstone on equal terms, especially at a time when the *Telegraph* was supporting the Gladstone policy, is to discount the general status of the journalist, and depreciates the very power which the Press claims for itself as the Fourth Estate of the realm. Besides, who does not remember Lord Palmerston's famous rebuke to Mr. Disraeli when the caustic leader of the Opposition suggested in a Parliamentary debate, that there were London editors who were politically influenced by their reception in 'the gilded saloons' of the wives of ministers?

The sneer was aimed at Mr Delane, who was constantly invited to Lady Palmerston's parties. The House of Commons did not see this more quickly than Lord Palmerston did. The fine old Englishman at once denounced the slight attempted to be put upon the integrity of journalism, and amidst the cheers of the Commons he paid a splendid tribute to the character of Mr Delane, the editor of the *Times*, concluding by saying that it was a source of pride and gratification to possess the personal friendship and enjoy the society of a man of Mr. Delane's high honour and varied acquirements. In Press circles the late Lord Beaconsfield is credited with other personal slights of journalists; and this is strange, seeing how intimately his career was at one time bound up with literature and the Press. He was the "Runnymede" of the *Times*, and he must have contributed many a brilliant article to the papers in his early days. But when he was one of the gilded youth of London, Pressmen were 'poor devils' to be sneered at and contemned; and in his later days the brilliant statesman and satirist was not able to shake off the social traditions, axioms, and customs of the time when he was a beau of the first water and the centre of a fashionable set that wiped its feet on journals and journalists How bitterly some of the newspapers and, 'newspaper writers' (as Burke called them when he said 'They are for the greatest part either unknown or in contempt') have avenged their dead and gone brethren the future historian of the fourth estate may illustrate by extracts from the present press files for the information of a future generation. At the same time the public men of the present day have had 'big stand-up fights' with the newspaper—notably the encounter between Mr Cowden and Mr Delane, when Cobden spoiled his opening letter by the pettyfogging and hackneyed pretence that he was not in the habit of reading the *Times*, but that his attention had been called to it; notably when Mr John Bright jibed at the Beaconsfield Ministry for allowing themselves to be influenced by the warlike tendencies of a section of their supporters, and by the raving lunacy of *The P. M. Gazette* and, if the house would pardon the alliteration, the delirium tremens of *The Daily Telegraph*."

As these papers can make no pretence to a systematic history of journalism, the writer proposes to himself rather to give prominence to new and authorised facts in connection with the great journals of the time than to set out the ordinary and oft-repeated histories which have become familiar. In selecting his subjects he lays aside the customary marshalling of dates of priority, and does not consider it necessary to parade the precedence which has been given to journals according to age, circulation or position. He is anxious that it shall be considered he is merely chatting with the readers about a great subject, while neither he nor they have any more time at the moment to spare than is necessary for a gossip, which he hopes will, however, be both pleasant and instructive.—*Harper's New Monthly.*

THE BRITISH MINISTER TO THE UNITED STATES.

The Hon. Sackville West, the new British Minister to the United States, arrived at Washington on Nov. 5th. At the reception given to him by the British Societies at St. George's-hall, Philadelphia, on the previous day, Mr. Blaine delivered a speech, in which he declared that he could echo both heartily and cheerfully every word that had been said with reference to the sympathy and fraternity existing between the two countries. He added that he came to the banquet especially to pay tribute to the great Sovereign whom Mr. West represented. 'In loyalty to that lady and admiration for that gracious Sovereign,' proceeded Mr. Blaine, 'this nation is not to be outdone even by the people of England.' In conclusion, the Secretary of State proposed a toast to the Queen, which was responded to with cheers. Mr. West, in reply, reiterated that he would endeavour to foster friendly feelings between the two countries. Other speeches were made which were characterised by expressions of the heartiest sympathy and fraternal feelings towards Great Britain and affectionate allusions to Queen Victoria.

THE IMPRISONMENT OF BRITISH SEAMEN AT BUENOS AIRES.

Our Plymouth Correspondent telegraphs last night:—The letters that passed between Mr Bridgett, the acting British consul at Buenos Ayres and the authorities there in reference to the imprisonment of British seamen belonging to the Plymouth barque Pride of Devon, have been received. In a communication, dated, Sept. 21, Mr Bridgett points out that the crew were on board their own vessel, and although she had sunk no one had a right to enter without the consent of the master or the mate. Referring to the prison in which the men were put, the letter says that they had to sleep on the damp ground without mattresses or covering of any kind, and one of them had suffered so much that he was then an inmate of the British Hospital. The reply to this letter was a curt reminder that previous to the receipt of the Consul's note the sailors had been liberated, and that it was unnecessary to refer further to the subject. The Vice Consul, in reply, said this answer was eminently unsatisfactory, and proceeded thus, 'I do not allow that the fact of the shipwrecked crew of the barque Pride of Devon being now at liberty concludes this disgraceful affair. In no civilised country would unfortunate sailors have been treated as they have been in this instance, and I energetically protest against the treatment, more particularly as regards the mate, Thomas Gunn, who affirms that he was chained in irons to the mast of the guardship in the most inhuman manner for a period of thirty-four consecutive hours, which is a shameful and unjustifiable proceeding.' The letter terminated by the Consul calling for the punishment of the authors of the abuses. The subject is being warmly discussed in Plymouth shipping circles.—*Daily News.*

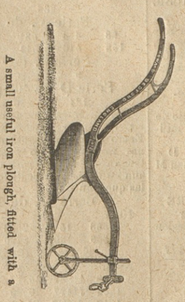
HOWARD'S CELEBRATED PLOUGHS

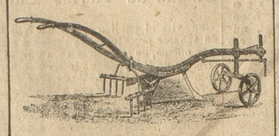
Howard's Small Ridging Plough



A small useful iron plough, fitted with a double mould board or earthing up body, and much used by Zanias and vegetable growers.

Weight ¾ cwt.

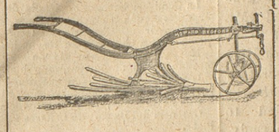
Howard's Water-Furrow Plough



This is a modification of J. & F. Howard's Ridging Plough. It is used for making the water furrows for surface drainage on arable land; the peculiarity of its working is that the earth thrown up on each side of the furrow by the mould boards, is moved away from the edges of the furrow and is harrowed down level with the field, a level surface is thus left for the Reaping Machine, and drainage is facilitated.

With steel breasts, weight 1¼ cwt.

Howard's Potato Ploughs.



With a pair of horses, this implement will raise three to four acres of potatoes in a day; it leaves fewer in the ground than hand digging, and the roots are raised with less bruising or scratching of the skins than by any other method. These Ploughs have stood the test of many years experience, and the demand grows larger annually.

D, fitted as above, weight 1½ cwt.
D D, fitted as above, weight 1¾ cwt.
S B, fitted as above, weight 1½ cwt.
B P, fitted as above, weight 2 cwt.

The above Machines kept in Stock by the Principal Hardware Merchants.

Dysentery, Cholera, Fever, Ague, Coughs, Colds, &c.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of Opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescribe and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
