Beg to announce to the Public that they have lately introduced into this country with great success the Celebrated Two and Three Furrow Ploughs

Messrs. HOWARD ENGLAND These WROUGHT IRON PLOUGHS have fitted breasts and shares of

steel, have been extensively used in the Province and are destined to supersede the light and flimsy wood implements made by the Americans. The two Furrow Plough is drawn by a pair of bullocks, thus doing double the work of a single plough and still with only one man.

These "Multiple" Ploughs are now almost universally employed in Australia and South Africa, and in recommending these implements Messrs. Forrester & Co feel confident that they are well adapted to the requirements of the Plate.

In order to presure these Ploughs orders should be sent in at once, or disappoint ment may be incurred.

Dysentery, Cholera Fever, Ague, Coughs, Colds, &c. Dr J. Collis Browne's Chlorodyne

(Ex Army Medical Staff) IS THE ORIGINAL AND ONLY GENUINE. CAUTION-Vice-Chancellor Sir W. P. Wood stated that Dr J. Collis

Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately marne, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr Browne's—See Times, July 12th 1864.

The Public, therefore, are cautioned against using any other than Dr J. Collis Browne's Chlorodyne.

This invaluable from by produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthms. The House will be open every night during the Masked Balls, asthma.

acts like a charming Diarrhoea, and is the only specific in Cholera
and Dysentery.

cffectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms. CHLORODINE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toubache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London—"Dear Sir, we embrace this opportunity of congratulating you upon the CHLORODYNE, has easned for itself, not only in Hindostan, but all over the East As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-lo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances ad infinitum of the extraordinary efficacy of DR. COLLIS BROWNE'S CHORODYNE in Diarrhoea, and Dysentery, Spasms, Cramps, Neuralgia, the Vomitting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."

CAUTION—None genuine without the words 'Dr J Collis Browne or the Government Stamp. Overwhelming medical testimony accompanies each bottle.
