 The downward tendency of the share market has become more pronounced, and the stock ost to-day much of the firmness which seemed

to underlie the weakness of operations effected yesterday. The bulls entertain hopes of a rise, speculating on the fact that those who sold during the month will enter the market to buy back. A move was already felt in this direction yesterday, as was evidenced by the large purchases for the end of February. The market, nevertheless, presents a very undecided appearance and speculation has lost all the firmness which characterized former months. It looks as if the foundations had given way and the market were tired. Operations during official hours this morning ruled exceedingly dull. Many parties have sold out since the beginning of the month and are unwilling. to underlie the weakness of operations effected

Dr J. Collis Browne's Chlorodyne (Ex Army Medical Stair) IS THE ORIGINAL AND ONLY GENUINE. CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regret ted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr Browne's—Sec Times, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr J. Collis Browne's Chlorodyne. Fhis invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvelious good effects and wonderful cures, while medical men extol its virtues most extensively.

Esq., 33, Great Russell Street, Bloomsbury, London—"Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly esteemed medicine, DR COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Angthe native bazsars, and, judging from their sale, we faney their sojourn there will be but evanescent. We could multiply instances ad infinitum of the extraordirary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhoea, and Dysontery, Spasses, Cramps, Neuralgia, the Vomitting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. other form of this medicine than Collie Browne's, from a firm conviction that it is other form of this medicine than Collie Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viveroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."
