Thus the total trade of January through this Custom House amounted to 11,820,000 m/ ports from and exports to France, who oc-cupies the first rank in the list of countries second with 1,805,00e m/n; Germany third with 1,700,000 m/n; England fourth with ,600,000 m/n. France stands far and away According to official figures—not yet quite From the Plaza Once we have the follow-

Imports 76,019,214 m/n Exports 60,082,230 136,101,444 m/n Comparing these figures with those of the previous year, 1882, we see-Imports. Exports.

1882.... \$61,246,179 \$60,389,056 1863.... 76,019,214 60,082;230 Thus imports of 1883 shew an increase of millions over 1882, and exports are more or less stationary in the comparison. The slight falling off in exports of 1883 as compared with 1882 is purely nominal, as export figures of several small Custom Houses up rivers have 5,500 reg. and inf., 88, 85, 60, M Duggan not yet been received to complete the account of the year. Thus all the econe 1,200 @ good and reg., 87, 76, 73, 70, poured out on the supposed falling off of exround; the stationary condition of exports is nevertheless worthy of consideration, and the following comparative figures of our principal staples of export in this regard will be read with much interest. Thus the export of hides, sheepskins, tallow and maize shew a falling off as compared with the previous or preceding years. In the export of hides and sheepskins, for instance, we see that the figures stand as follows for the last eight years :-Number of hides. sheepskins.

> 77 2,489,000 27,849,000 27,849,000 25,089,000 2,791,000 22,340,000 22,353,000 83.... 1,934,000 26,527,000
> The export of hides has fallen off considerably whilst that of sheepskins shews an increase as compared with 1881 and 1882, and a decrease as compared with 1880; hides have of wool, meantime, shews a steady advance, whilst that of tallow is decreasing:
>
> Wool. Tallow. Kilos.

1876.... 89,276,000 37,463,000 1877.... 97,344,000 1878.... 81,894,000 1879.... 92,112,000 15,454,000 1880.. 1881.. ... 97,518,000 1882.... 111,000,000 18,434,000 1883.... 118,404,000 15,815,000 1882. The above figures are sufficient refutation of all the arguments produced. The export of wool increased 17,400,000 kilos in 1883, instead of showing a falling off of 17,000,000 kilos, as argued by the financial wiseacre. The export of tallow has fallen from 39,400,000 kilos in 1876 to 16,000,000 in 1883—a falling off quite as remarkable as that in hides, and collateral to some extent. On another occasion we will seize the opportunity another occasion we will seize the opportunity of producing the figures of the export of cereals, which, if we except maize, shew an extraordinary development in a year form. traordinary development in a very few years.
As fast as hides and tallow are falling off cereals are filling up the void, and before long this country will become a considerable grain exporter.

1878..... 486,000 1881 1,496,000 The arrivals and departures at the Boca yesterday were of little importance; 14 coasting vessels with produce entered and 16 craft with general cargoes for river ports sailed. Captain José Borzoné of the goleta Nueva have been burned down to the water's edge.
