River Plate Testimony "We have bought the "X L" Sheep Dip (Nicotine) in large quantities, and have no hesitation in saying that of all Sheep Dips Nicotine has proved the most necessary and effective for ours. It has saved our Sheep and increased our Wool far beyond any other Dip. Indeed, we have not failed to use it for years and da ce not be without it." A pure and re-liable Extract (such as the "X L" brand) appears to be just what is wanted." "Nicotine is undoubtedly the best Shee Dip for Scab. We have used it freely and regularly for several years, and with great success. The "X L" brand is better mixed and more uniform in strength than any other that we have either seen or used.

Australian Testimony. From a Farm with 80,000 Sheep. Fifteen Years' Experience. "Nothing surpasses To-bacco Extract. We grow our own Tobacco to get it pure, and to be certain of having it at hand when we want it. But a reliable Extract (such as the "X L" brand) would be a saving of much trouble, anxiety, and expense."

(Ex Army Medical Staff) IS THE ORIGINAL AND ONLY GENUINE. CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis
Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regrets ted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's—See Times, July 12th 1864.

The Public, therefore, are cautioned against using any other than Dr. J. Collis Browne's Chlorodyne.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of optum. Old and young may take it all hours and times when requisite. The usands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.

CHLORODYNE is admitted by the profession to be the most wonderful and valiable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma. asthma.

CHLORODYNE effectually cheeks and arrests too often fatal diseases Diphtheria Fever, Crup. Ague.
CHLORODYNE acts like a charming Diarrheea, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually outs short all attacks of Epilepsy, Hysteria, Palpita-CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Paphatton and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer Toothache, Meningites, &c.

From Symes & Co., Pharmacoutical Chemist, Medical Hall, Simla, Jan-5th 1880. To J. T. Davernpott, Esq., 22, Great Russell Street, Bloomsbury, London—"Dear Sir, we embrace this opportunity of congrabulating you upon the wide-spread reputation this justly-esteemed medicine, DR COLLIS BROWNE'S CHLORODYNE's has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Angle-Indian borne. The other brands, we are happy to say, are now relegated to lo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances ad infinitum of the extraordinary efficacy of DR. COLLIS BROWNE S CHLORODYNE in Diarrhoca, and Dysentery. Spans, Cramps, Neuralgia, the Ventiling of Programs and Dysentery. tery, Spasms, Gramps, Neuralgia, the Vomitting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Chelera, 1832, are recognized of the immense value of this remedy.
