Mr. Schmidt of San Nicolas was welcomed on Change: he has just paid a visit to the Venado Tuerto camps and reports them in unrivalled condition; plenty of grass and water, cattle and sheep doing better than on the best camps inside in the Province of Buenos Aires. Small flocks of sheep, he says, average 40 o/o. increase. He visited the Isla Verde estancia, 8 square leagues wire-fenced, belonging to Terrasona & Co., and on this estancia they are ploughing up 500 squares of land to put under alfalfa. Some land near Melincue has just been sold for 16,000 Nat. Dollars per league, which is considered cheap for land up there. The Casado Railway will be extended, and all the lands about there are steadily rising in value.

Another important sale of land on the route of the Transandine or Clark Railway is reported. The land was bought last year by a Hamburg merchant for a million Dollars had is now resold for 1½ millon had been afternours there was a slight weakness in the market and is 5,000 National Dollars per league.

Exchange rules downward, and in the opinion of the brokers there is some speculation going on in the exchange market. The private banks have put their rates down to 46¾, which is a sharp drop caused by the instant of the continues well sustained in all stocks. Large operations were effected yesterday in Unified stock, and owing to the increased demands of to-day rates went up ½ 0/0. During afterhours there was a slight weakness in the market and the stock fell ½. The chief feature of the speculation is that nearly all operations are effected for cash or at very short dates. The main springs of the speculation are supposed to be in B. Aires, as large orders for purchases have been received from your city. There is no news from London, but the general surmise is that if any change takes place it must be for the better, owing to the prosperous state of the country. Deuda Amortizable.

private banks have put their rates down to 46¼, which is a sharp drop caused by the increased demand for bills, owing to the Provand Nat. Banks not drawing as freely as supposed. A leading German house drew today for 3 million francs at 4.96-98, and it is supposed in the market that the bills were for the Nat. Government.

Advices from Rio report exchange rather better there and the rate firmer.

The branch of the Provincial Bank at Patagones was opened to-day, and we note that now the diligence from Bahia Blanca to Patagones runs four times a month. The South is fast coming to the front.

Salminse is that it any change takes place it must be for the better, owing to the prosperous state of the country. Deuda Amortizable, which ruled so dull yesterday and the day before, closed at 28½ for the end of the month and 28¾ for cash; there is more demand for this stock, and operations to-day amounted to half-a-million at ½ o/o rise in the rate for the end of the month. Progress Oriental Shares rose ¾ o/o and closed very firm; Playa Shares have experienced a similar rise. Tramway Shares continue in steady demand. The money market rules easy, and there is a plethora of money on the Bolsa. Discounts are quoted at 7½ and under, and will soon be on a par with B. Aires rates. Money is advanced on stocks

White, Tedin, Villanueva, Fisher, Beniche, Gorlier, Knight and Robinson; the object of the meeting was to arrive at a mutual arrangement for the unification of reciprocal freights and the classification of merchandise. After discussing all the points it was resolved to establish a uniform kilometrical tariff establishing ten classes, the minimum to be one cent and the maximum six cents, 1,000 kilos to the ton, no fraction of less than ten kilos to be admitted. The very great importance of this meeting will be well understood by the railway men and the merchants up the country, and it reflects great credit on Mr. White his bringing the railway men together and thereby establishing a uniform tariff.

HEIDSIECK & CO., REIMS.

IS THE ORIGINAL AND ONLY GENUINE. CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's—See Times, July 12th 1864.

The Public, therefore, are cautioned against using any other than Dr J. Collis Browne's Chlorodyne.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually cheeks and arrests too often fatal diseases Diphtheria Fever, Crup. Ague.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer Toothache, Meningites, &c.

From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan5th 1880. To J. T. Davernport, Esq., 22, Great Russell Street, Bloomsbury,
London—"Dear Sir, we embrace this opportunity of congrabulating you upon the
wide-spread reputation this justly-esteemed medicine, DR COLLIS BROWNE'S

CHLORODYNE has earned for itself, not only in Hindostan, but all over the East.

CHLORODYNE has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances ad infinitum of the extraordinary efficacy of DR. COLLIS BROWNES CHLORODYNE in Durrhoea, and Dysentery, Spasms, Cranps, Neuralgia, the Vomitting of Pregnancy, and as a general sedative, that have occurred ander our personal observation during many years. In Choleratic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."
