Although there is not a shadow reason for such disagreeable conjectu the doubts that have so suddenly arisen sho the great susceptibility of the market and the very uncertain state of affairs on 'Change, where everything appears to hang on this loan The sweeping majority with which the loan bill was passed in the Senate leaves no room to doubt the success of the bill in Congress. By far the most important feature of the situation is the improved tone of the exchange market and the rising movement that is felt in rates. The market to-day looked firm at 46\frac{7}{5}d, and brokers opine that we are on the eve of a steady rise. The dawn of the busy season is beginning to be felt at last, and the small operations that are daily increasing in number and in importance in the produce markets will soon lift the exchange rate to 47d and higher. If the Banks begin drawing, the

Money continues abundant, but applications at the State Banks are increasing rapidly, owing to the demands of the busy season. As

the State Banks, from one reason or another, Switzerland ...... are not flush of paper money, it is expected that the market will rule tight towards the end of this month. As an instance of the great depression of trade in France, we hear of one failure where the creditors remain with 21 millions francs of voolen goods unsaleable.
