NEW LAND MEASURE.

We give hereunder the translation f a most important Provincial land easure presented to the Legislature of he Province in La Plata, a species of new departure by the Provincial Government in the land business, which tions. years ago would be impossible, but o-day may be practicable, owing to the high price of lands bought in fee simple and the increasing pressure of opulation on our camps, a pressure ever before felt in this country. Almost every day there are parties in our office looking for good, cheap, and conveniently situated lands; lands where man with slender capital can make comfortable, decent start, but it reires so much money now to buy even league of outside land that we suppose the Government of Buenos Ayres acts most properly in throwing open

such thousands on our shores, the renainder of its unsold lands in the secauction and sell these lands on the own sentiments on leaving an office he usual extended terms of payment, every league would find a buyer, and at ad- is so deservedly respected. nuch its success, owing to the still vast tracts of new lands held by private pomatic experience, secured for him a parties, who are only too anxious to rent them on the most reasonable terms. There are thousands and thousands of square leagues of National territory bought and sold in this market, and at high prices, for which no tenants can be found even at a most nominal rent, and, unless the Government offers to

ments, the auction may prove a failure. We note the Government charges the ed are soft grass lands and suitable for sheep, why then, of course, there is no doubt as to the competition, although many very experienced parties consider that the sheep business here and elsewhere has seen its day, but if the lands are hard grass camps, and which we believe they are, then we may state that there are thousands of leagues offering to rent in the market, and without any charge to the tenant

half yearly in advance. Rich, good, black soil camps, whether hard grass but hard grass camps, to pay a rent, must be cultivated, and the whole sys- presentative of the great American lope 36, Rolando 56, Coronel 1021, tem of sheepfarming, cattle farming, and even agriculture must be changed to meet the sweeping alteration the

DEPUTY UALVO'S SPEECH ON BANKS.

"I shall briefly explain my views of national salute on last 25th of May the question. In my opinion this law was fired off with Argentine powder is not precise and leaves a wide margin made at the young powder factory of for abuses. This article, in its present the Government at Rio Cuarto, along-form, does not mean anything in particular; the only conclusion we are bound This celebrated powder factory has to draw on its perusal is that by a fucaused more trouble and expense than ture agreement of the Government even the Mint; but at last it is in 'curso legal' will be extended to as working order, and a sample of some many banks of emission as the Govern-500 lbs was sent down to the Govern- ment wishes to create. As I have alment to shew the Congress men, who ready remarked in previous sessions have now been called on to vote the there are four kinds of banks, differing expenditure of the establishment for in system, in emission, in circulation, the ensuing year. The factory costs in resources, in credit, in theory, in the country in salaries, etc. \$93,708 m/n practice, in solvency, and in bank transper annum to keep up, whilst for raw actions, consequently a law that says materials or staples the outlay is but such an such a measure shall be taken \$500 m/n, which hardly corresponds with all future banks means absolutely with the expenditure of the staff, and nothing. It is nothing more nor less Lainez's statement—the place has a ideas, mistaken I believe, that predomyet to grow. Nevertheless, as nearly | The National Bank, for example, is pla-

see no reason why this country should | condition differs widely from that of the form an exception; and in process of Tucuman Bank. The difference needs time we believe the factory will supply no explanation. The Provincial Bank the whole country with powder. Mean- of Buenos Ayres also differs from the while, should any of our readers wish Santa Fé, the Cordoba, the Mendoza, and to know what the 21 cannon-shots on Tucuman Banks. And the law which the 25th of May cost the country, here's grants "curso legal" to those Banks on the ground that they possess the same conditions as those already authorized, does not determine these conditions. This is a serious mistake, the consequences of which the Chamber will not foresee. We have voted this law without considering the specie reserves, the amount of issue, the deposits, the credit, the resources, the guarantees of these banks. We have taken nothing into consideration, and we have blindly passed a most important law!

These Mr. President, are my views of the question; and as I wish to justify my vote, I, who believe that in accordance with our present laws, each Province may have 40 banks; who support the American banking system with its fixed rates; desire that clear, comprehensive and strict measures be taken with our banks, in order that they may show us their unmistakable object. because otherwise bank anarchy whould be the inevitable result

These, Mr. President, are the principal considerations which lead me to vote for the suppression of this article.

ARGENTINE SALT

We publish hereunder a rather important concession law, just passed at La Plata by the Provincial Legislature. Wonders will never cease in this country. Here we have a gentleman about to make artificial salt on the Bahia Blanca shores, when within a few leagues are the far-famed Salinas Inglesas, which, since the early part of the present century have remained idle. Capt. Hansen, however, will soon wake up the South as he is about

Argentine Bank against Messrs Unzué for the Potrero estancia is the talk of the market.

Messrs Unzué have filed their reply to the derock in the middle of the channel at the Salto de Apipé; she stuck on the rock which entered

depression of trade in France was all gammon.

Their presence is the signal for renewed activity in produce: the best welcome was the several estancias, in spite of the early stage of larget, the Government relationship.

Mortgage Bank of this city. These bonds are those of a provincial loan of \$2.100,000 m/n, launched to secure funds to enable employees plosion took place on the 16th June, when such was taken up by the Provincial Bank at loan was taken up by Mortgage Bank of this city. These bonds are The soap bubble of the loan has burst over so much discussion in the press, in the market New wools are now coming in more freely, but the market looks as black as night. One lot soo ar. new wool, no offer, sent to deposit; 4 other lots from 3 to 600 ar. each also unsold will be deposited.

Two lots of wool from Arrecifes were sold in the South Plaza to-day at 70\$ m/c and subscriber informs us that ladies that, and severe a higher are now coming in more freely, in the South Plaza to-day at 70\$ m/c and subscriber informs us that ladies that, and severe a higher are now selling at \$40 market was talking of the interviews between MinisterPellegrini and the President of the Provincial Bank, and speculative and severe a higher are now selling at \$40 market began to advance in leaps. Since then, we have seen the leading bears with a few flowers, are now selling at \$40 market began to advance in leaps. Since then, we have seen the leading bears with a few flowers, are now selling at \$40 market began to advance in leaps. ON 'CHANGE October 26th, 1885 Cedulas E

brisk speculation for that date, and the ma- income-tax charges of the year. The current of affairs points to a stiff fall

next month. Operations are passed from this month to the 30th prox. at 2 points and higher—a very stiff difference. It remains to

of further shipments of gold from the R. Plate are removed. Specie, meantime, is coming in pretty fast. The Maskelyne has arrived with fifty thousand sovereigns and she will be soo followed by the Tycho Brahe with another There is an impression in speculative quarters that the loan will be done next month and that the Syndicate will begin remitting gold peculation on 'Change. Although there is a much improved feeling in the situation of the market and of the country in general, owing to the advent of the

busy produce season, importers as a rule com-plain of dull times. With the exception of a few articles, principally eatables and drink-ables, imports are shrinking, and there are vident signs of retrenchment all along the Exports are going forward very slowly. The | 44-40, 38 and 33 slow growth of this season compares unfavorably with the great spurt that always attended the dawn of the wool clip in previous years.

Maize Produce men do not even expect activity next month, owing to the complete snag-up of the present. Buyers are holding back, and appear not to be quite sure if they are in or out of the market; sellers do not wish to let go at the present unprecedented low prices and they are in a fix, as they are convinced that gold will fall in November and December, and there are no hopes of any sudden revival in the wool

In a previous issue we stated that the Australasian wool clip is expected to show a falling-off this year, calculating that the clip ould be 80,000 bales under last year's figures. Although no accurate estimate can be made of the wool clip of this province, all the plaza men are convinced that the Argentine clip will not be as large as last year's. Some opine that there will no increase, but others

18 bord 1,850 lb. 183 doz. argue that the clip will be under 300,000 bales. To judge by the immense quantities of sheepskins coming in from the camp, the mortality in the flocks this season must have been exceedingly heavy.

There were about twenty thousand arrobes of wool in the Once market this morning. There was more life about the market; buyers appeared more numerous and in better spi-

rits than usual. Mr. Casey sold-

700 " reserved
550 ar from Mr Hearne's estancia in
Chivilcoy at 94, good quality. Sheepskins and
hides showed no change. There were two or three new buyers in the station this morning

The supply of cash gold at the ring was a decided lull in the speculation.

Cedulas ruled duller than usual. A few thousand E changed hands for the 27th at 81, and F at 80½ for cash, and 80½ for to morrow.

Operations in Series G were small, embracing 14,000 for cash and 10,000 for the 30th at 85½.

The above auctioneers sold also the following 14,000 for cash and 10,000 for the 30th at 85½.

14,000 for cash and 10,000 for the 30th at 85½. Nothing was reported in National Bank stock. Five ocean steamers are expected up from Montevideo to-morrow. At this rate, freights cannot be expected to rise much. The growth of tonnage beats every other Platine inflation.

The Italian steamer Napoli has arrived at Montevideo with 500 emigrants and 500 tons of cargo. The Lamport & Holt steamer Maskelyne, Chevalier Hairby arrived at Montevideo yesterday with 43 passengers first-class, and 1,700 tons of cargo. The Ilios arrived with her mails this afternoon. The Italian steamer Umberto has also arrived with a steamer Umberto has also arrived with a first content of the steamer of the steamer

The steamer Neko arrived also and a lew more are expected to-day, A vessel with salt from Cadiz, and three barques with Cardiff coal have also arrived. The wonder is how the steamers going at By F Bulnes—

"Stock of dry hides, 130 to 140,000.

"Havanna, Oct. 24th

however, was searce, and some sales were reported of 46.30. About two hundred thousand dollars were sold for the 30th at 45.50 to 45.80, the market closing with sellers at 45.70.

One hundred thousand dollars were sold for The Marketyne brought the following pasthe end of November at 43½ to 43.80, rates closing with buyers at 43½. Seventy thousand Cedulas G were sold at 85 and 85½.

**End of November at 43½ to 43.80, rates sengers:—

For B. Ayres—First-Class—

Mr James Rodger Exchange ruled pretty brisk all day, The bills passed this morning at 47d, were principally Insurance paper. Brokers think that the rate will jump to 48d.

We take the following from the Times of 1st inst, arrived by the Maskelyne: An interim dividend on the 'A' shares of the River Plate Trust Loan and Agency Company (Limited) for the half-year ending June 30th last at the rate of 6 per cent per annum will be paid on the 30th inst.

The River Plate Telephone and Electric
Light Company notify that coupons due on the
1st of Oct next will be paid, less income-tax, on and after that date at the Atlantic Bank Limited), Bartholomew lane, E C. "We regret to announce the death on the 26th inst., of Mr Charles Walter Morrice, of the firm of Messrs J C and C W Morice, who was a member of the Stock Exchange for 38

Latest advices from Tucuman report all the

mills now stopped, and that results prove that the yield of sugar was much over-estimated when put down at 2,000,000 arrobes, and that

157 017 n3 | 1,250,000 is nearer the figure. The cane has

not given so good a grade this year, owing t the unfavorable, wet season experienced, and thus the smaller product. The rains have commenced much earlier this year and this is considered a good sign for next season's 'co-secha.'Santiago has not produced what was anticipated. It is surmised that Tucuman has sold short and may have to import sugar later on to supply local requirements.
