Some interesting incidents are going from mouth to mouth in this regard, but they are of such a nature that we cannot publish them in these columns. That merchants and others should use harsh lanuage in their cursory remarks on the leaps f the gold premium, is not to be wondered at but the bulk of payments on Saturday was effected at 51 0/0 premium, when gold actually stood at 56 0/0. The moral effect of the corner is disastrous and will, no doubt, increase the

Capitalists and others will metallize more than ever by investing in lands and house In the midst of the excitement of the gold eculation, that once all-absorbing topic, the oan, has dropped out of notice, although it is the pivot of this month's bearish speculation. In fact, the loan is no longer the bugbear of the speculation; its effect has been discounted so often and with such disastrous effects, that few expect it to produce much imession on the market this month. On Saurday, telegrams were anxiously expected rom London, but nothing transpired. Impor-

Gold ruled so scarce to-day that operators could sell at 49 for cash and buy back for the end of the month at 46 and 46½. To judge by this state of affairs, the bears are determined to continue their hazardous operation for the end of the month. Even if the loan is done in At Barracas al Sud— London this month, it is more than probable that the bears will be obliged to pass their operation to December at very stiff differences, owing to the great scarcity of gold and the ease with which any clique, disposing
