Dysentery, Cholera Fever, Ague

Coughs, Colds, &c. DE Dr J. Collis Browne's Chlorodyne **BUENOS AIRES** (Ex Army Medical Staff) Al Pacifico IS THE ORIGINAL AND ONLY GENUINE CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the de-En combinacion con el tren del ferro-carril

fendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's-See Times, July 12th 1864. The Public, therefore, are cautioned against using any other than Dr J. Collis Browne's Chlorodyne. REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action

of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive. CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered. CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually cheeks and arrests too often fatal diseases Diphtheria Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhoæ, and is the only specific in Cholera

and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms. CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout Cancer
Toothache, Meningites, &c.
From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan-From Symes & Co., Pharmaceutical Chemist, McCheal Hall, Simia, Jan5th 1880. To J. T. Davernport, Esq., 22, Great Russell Street, Bloomsbury,
London—'Dear Sir, we embrace this opportunity of congrahulating you upon the
wide-spread reputation this justly-esteemed medicine, DR COLLIS BROWNE'S
CHLORODYNE has earned for itself, not only in Hindostan, but all over the East.
As a remedy of general utility, we much question whether a better is imported
into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to \$27, are now relegated to
the native bazaars, and, judging from their sale, we fancy their sojourn there
will be but evanescent. We could multiply instances ad infinitum of the extraordinary efficacy of DR COLLIS BROWNES CHAINDONNE in Duarrhoea, and Dysendinary efficacy of DR. GOLLIS BROWNE S CHLORODYNE in Diarrhoea, and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

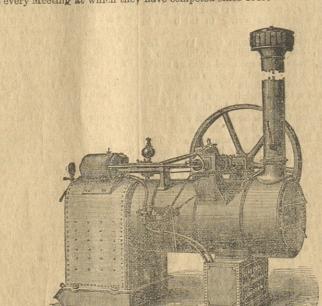

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."

CAUTION—None genuine without the words 'Dr J. Collis Browne or the Government, Stamp. Overwhelming medical testimony accompanies each

cont on three streets, in close proximity to ON 'CHANGE. the Banks, the Bolsa, the port, the Government House, etc, it failed to get a single bid. One of the best informed real-estate brokers in this market told us this afternoon that some 46 o/o prem. Cedulas A
Cedulas F
Cedulas G of the leading capitalists of this city were present at the auction, but not one of them had the enterprise to bid for a property, that may be considered cheap at 180,000 \$/n, say 150 \$/n per square metre. The upset price at the succion was only 120,000 \$/n, say 100 \$/n. The speculative boom of the gold clique be gan to fizzle to-day to an alarming extent, and a stand-from-under feeling eized outthe auction was only 120,000 \$/n, say 100 \$/n
per square metre. A splendid chance was arent in the falling quotations marked on black board. The gold clique have, no

roughly successful one, well backed and conducted in an able manner. The opinion on 'Change at the present is that the bulls are liquidating, and hence the fall in the present is that the bulls are liquidating, and hence the fall in the present is that the bulls are liquidating, and hence the fall in the present is that the bulls are liquidating, and hence the fall in the present is that the bulls are liquidating. ion, that they would only pick up the mangled

limbs of the bears in a tremendous "krach." Furthermore, they have abundant reason to question their power to control the market this mouth, in wiew of the immense interes's at stake that would call upon every available element to defeat the rise and put down the premium. Some operators are of opinion that the bulls are selling to produce a fall and to buy back for the end of next month. This may be possible, but it certainly is not probable, as everything points to a very strong bearish eaction next month. The December settlement promises to be a colossal operation. Banks. This is not improbable, as the Gov- variation

ernment received favorable news from London yesterday with regard to the negotiation of the loan. Many operators, unwilling to give credence to the news that the bulls had turned round, attributed the fall in the market o this gold from the Bank and to the cablegram from London, and they argued that if the bulls were to turn round the fall in the emium would be greater. The greatest excitement prevailed in the brokers' parlor all morning. Over three hundred thousand gold dollars were thrown ca-h on the ring, and the wonder was that the market did not fall lower. Rates opened at 47 o/o, rose to 47\frac{1}{2}, and closed weak at 46. It

is remarkable that the sales for cash for the last three days exceed a million dollars, nearly all in connection with heavy exchange transactions. It is also well to bear in mind that the market has fallen comparatively little, in spite of this unusual supply of cash gold. The fall has been at the rate of 1 point every Nearly \$600,000 were sold for the end of the month; rates opened at $45\frac{1}{2}$, fell to $44\frac{1}{2}$, rose again to the opening rate, but closed at 44.20, weak. Operations for the end of December embraced \$360,000; the market opened at 43½, closed at 43. Over a million lollars changed hands during official hours. The market opened with a slight shade of re-

istance, but gave way soon under the bearish pressure and closed weak all along the line. To judge by the aspect of affairs to-day, the market is on the edge of a very stiff incline and a fall looks immigent. The loan news is the direct cause of the turn in the speculation, but there is the danger of overspeculating on the influence of the negotiation. The exchange market rules dull. Rates shew no alteration. The money market continues easy. although large amounts of paper are being remitted to sheepfarmers. Gold is easier, owing to the heavy supply of late.

All the telephones in town were under high pressure this morning, owing to the great activity in the wool markets. The San Guil-lermo wool in the South Plaza has not been old yet. Two fine parcels of wool from Mr Brown's estancia in Lujan were much ad-ired in the Once this morning and fetched

high prices. Mr. E. Casey sold the following 15 0 @ Lujan, Mr. J. Brown, 93 1000 do, 89 1000 Tatay, 90 900 Pergamino, 81 800 Chacabuco, 79

Nevertheless, we see the wool clip here inaugurated with prices that are far above those quoted in Europe, and it is passing strange that we should with sa again this year the same ordeal and course of events as last season. Good wools have reached very high prices this week; in the South Plaza, buyers paid \$110. 115, 120, 122 and yesterday, the extraordinary price of \$128 or per arroba. Thus, in the teeth of all he unfurnments. favorable news from Europe, in spite of the wave of depression that affects the article, we see the enter rising "artistas" jump into operations in the Once and in the Constitucion at prices that stagger the barraquero and others who cannot plunge in with the reduced limits they hold in their pockets. It might be premature to venture any remarks on the week's h gh prices, as unexpected and ulterior events may crown such operations with success, but viewed in the light of late advices from London, Havre and Antwerp, and of late tele-grams announcing a further fall at the auctions, it strikes one that the French buy rs are launching into the adventurous policy of 1884-a policy, the effects of which we have ber 19th are as follows:witnessed and are witnessing in the snag-up ton to the Assistant United States Treasurer

Middling wools have all the appearance of a bills has precipitated the long-lingering silver drug in the market and are in very little de-mend; not to mention inferior kinds which are completely neglected. In the last kinds, operations were effected this week at \$65, 62, 60, 58 and 55 m per arroba; and these prices have only been topped, owing to the hom in ave only been topped owing to the boom in the coined metal has been piled up in advance (or excess) of demand. This is the second lot from the Barrancas The first lot was sold a fortnight ago at 108 m/C per the banks to take any more silver, and an answ.r has been made that that is because the banks are opposed to the ext usion of the coinamounts of exchange this week in gold. The Provincial Bank took fair amounts also. This sudden appearance of strong takers has necessarily temp rarily weak-ned rates and has had the immediate effect of throwing gold on 'Change and putting down the premium to a creat ar any any angle of the same and the public to take silver dollars in place of as much of the 55,000,000 dollars of one and two-dollar bils as he can get hold of and retain.
