Postes, 1-Postes and Estacones HERCULES MOWER AND FERN CUTTER

his machine has been specially designed for the Colonies and other new countries, for cutting strong thistles, fer and light scrub on rough land, and has been most successful in Autralasia and South America. It has very high wheels and is of great strength combined with lightness in draught. The cutting apparatus consists of 2 sets of knives, one set fixed to the Bar in place of the Fingers, and the other driven by the Crank plate and connecting Rod in the usual way.

The unanimous verdict of all who have worked this machine is that it is the "Most useful and economical implement on the estancia."

Periodicals. We beg respectfully to inform our numerous friends and the public in general, that we are

now preparing our list of subscribers for the coming year.

A series of sixteen years experience has placed such facilities at our command, that we are enabled to guarantee punctuality and despatch of quite a superior character.

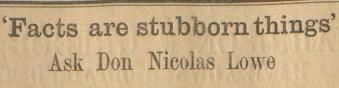

We shall be greatly obliged by receiving orders for all European and American periodicals as early as poss The Illustrated and Scientific papers are always supplied in

London City Editions, printed on heavy-toned paper, without any extra charge for same. We only furnish the cheaper paper editions (printed for circulation abroad) when specially ordered. Catalogues of English, Scottish, Irish and American Newspapers, and other periodicals, with any desired information, will be forwarded to any address, for which early application is desirable.

The week has opened with a break in the old market, 1.436,885 sold up to half past one ock; where all the gold came from is th stion. The cash sales alone amounted to 105,685, opening at 148, dropping to 147,20, and closing at 147,40. For the end of the month 665,000, opening at 147.50, dropping to 147, and closing at 147.30, and falling again to 147.20, after the close of the ring. Dec. 31st a very heavy business done, sales 640,000, opening at 145.30 and closing at The fall in the gold market, it is whispered, corresponds with advices from London and Paris, as there seems to be no question about the loan business and the advance when the papers arrive People who want to buy gold stand back to let the market fall to its true level, which many say is about 130. It would seem that our friend, who last week told up 140 would be the liquidating price for the end of the month, foresaw the change that was coming over the market. Exchange was done at 3.45 in paper for

The Provincial Bank stopped discounting today, which is to be regretted, as we are now in the busy season when business discounts are required. All the private banks are doing a brisk discount business at $6\frac{3}{4}$ to 7, and renewals There is great complaint in the market about the small bills paid out by the National Bank; one private bank collected some 200,000 in checks to-day, and the pyramid of notes astonished even the bank clerks them-selves. Respecting the issue of "conformes" or "vales" in paper, as at present used in gold, there seems to be a hitch which Dr. Pacheco could easily remove, and we call the Minister's attention to the matter, as it would be a good kind known for several years past Cedulas ruled rather firmer for Series G, coming into the street as large buyers. The Tamar's mails were delivered early. Most of the letters speak of the extraordinary depression in all branches of trade, and express a hope that after the elections business will improve. It would seem from the remarks of the Times and other London papers that it was generally known there that the London bankers had arranged at last with the Argentine Government for the new loan.

The Times of October 23rd says that Argentine Government for the new loan.
