Wedekind Fehr & ()o. Rivadavia 767 Dr. J. Collis Browne's CHLORODYNE.

THE ORIGINAL AND ONLY GENUINE Advice to Invalids.-If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and and anguish, to calm and assuage the weary achings f protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most

wonderful and valuable remedy ever discovered. CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, CHLORODYNE acts like a charm in Diarrhova, and is the only specific in Cho-CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpi-CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer,

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5 1880. To J. T. Daveaport, Esq., 33, Great Russel Street, Bloomsbury, London Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As dyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Auglo-Indian home. The other crauds, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their so-journ there will be but evanescent. We could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Br. when a Chlorodyne in Diarrhoea and Dysentery, Spasms, Cramrs, Neuralgia, the Vomiting of Pregnancy, and as a control sedative that have occurred under our personal observation during Dysentery, Spasms, Cramps, Neuraigia, the vomiting of Fregnancy, and as a general sedative that have occurred under our personal observation during many years. In Choleraic Diarrhoea, an even in the more terrible forms of Cholera itself, we have witnessed its apprisingly controlling power. We have never used any other form of this maicine than Collis Browne's from a control of duty we have never used any other form of this modicine than Collis Browne's from a firm Conviction that it is decidedly the best and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a seliberate Breach of Faith on the part of the Chemist to prescribe and collistent alike. We are, Sir, faither than Collis Browne, The Excellency the Viceroy's Chemists.

Caution.—Vice-Chancellor Sir W. Page We was, undoubtedly, the Inventor of Chlorodin Freeman was deliberately untrue, which he regretted to say, had been sworn to the collistent to

to,—See "The Times," July 13, 1864. Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4s. 6 . and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Cl. rodyne" on the Government stamp. Overwhelming medical testimony accompanate each bottle.

tion day, this may be held to account for the decline in rates, which, after all, is a mere bagatelle when compared with the boom that has pervaded all stocks at different periods during the month. It was only natural to expect that the liquidation would find some stocks overbought, and this isseemingly what has occurred, though enerally expected. The business of the ring was very heavy. National Bank Shares opened at 266.50, fell away to 264.50, and closed at 265.50 sellers for end of month, whilst for end of July the rate opened at 265.50, declined to 263.50, and closed at 264.50. Constructors, which shewed pronunced symptoms of weakness at one moment, finally closed firm at 132 for cash and 133 for end of month, which, however, is still sensibly lower than previous quotations. Catalinas Shares were briskly dealt in for end of July, opening at 185, advancing to 188, and closing weak at 184. Thr rumour spread to-day with regard to this stock is that the board purpose turning the shares into a gold stock, and thus pave the way for a London quotation; in other words, a pursuance of the policy adopted by the La Plata Mole Company. This latter Company's shares suffered a severe decline to-day, dropping from 164 to 157 for end of month. Pobladora Shares fell of large dimensions and decked out in
