Tuesday, January 7th. The week opens on Change with an alarming spurt in gold and complete collapse in stocks. This state of affairs caused no surprise in the outside market, as it was surmised that the yellow-fever case admitted to exist would be readily availed of by the bulls to advance the rate, whilst stocks, with every fresh advance of the premium, shew increased prostration. Thus, the opening of the premium at 233.50 and closing at 234.40 was a foregone conclusion. peedily the decline will be as rapid as the advance. In all, something short of a milion dollars changed hands, 395,000 being for cash, opening at 233.50, spurting up to 234.70, and closing 30 cents lower. Small amounts were marked to Saturday and end of month at an average rate of 234, and at 233 for end of February. Only one lot of National Bank Shares changed hands at 200. and a solitary lot of Catalinas at 52. These, with 200 Flores Constructors sold at 80, comprised the whole business in shares. In Cedulas the business done was also most meagre, and rates shewed a falling off, the M and N declining to 65, the O to 64 and 63.50, and the P to 63. This

e frightened out of their lives by the arest of the Bolsa brokers and the fall in National Bank Shares. We call attention to a letter from a banker there which we received per Duca de Galliera mails. Letters from Paris to 12th inst. from ighly influential parties state that French Bankers and others cousider it most extraordinary that the premium on gold should teep so high and yet the country continue progress so rapidly. The Italian mail steamer Regina Margherita left yesterday; she took 600 thirdclass passengers, all of whom have money in both pockets; these are perhaps the best imigration agents the Plate could have in

Three hundred and fifty-four entries for this year's crisis, or rather let us say for this year's races. No wonder we have the market as it is, when the races absorb so much money and occupy so many people.

Mr. Baring paid La Plata a visit yesterday, and inspected the fine docks, moles, ablic buildings, etc. He was accompanied y a select party of friends. The wool market continues active, and strong demand for good wools. Mr. Casey sold hity thousand kilos of Arrecifes wool and twenty thousand South wool in Plaza The Magdalena sails to morrow. Notwithstanding that the Sociedad Territorial La Plata offers to sell properties and receive payment in its shares at par, we note no rise in that stock, which is really most remarkable. According to latest returns from th. Santa-Fe colonies, the crops this year argus follows: 334,700 squares of wheat at an average of ten fanegas per square, giving 3,347,000 fanegas, worth 33,470,000 mm; square, giving 730,164 fanegas, worth 10,222,306 mqn: giving thus a grand total for wheat and flax of 43,692,306 dollars. The maize and alfalfa crops embrace res-

pectively 91,000 and 41,000 hectares respec-

Telegrams received in the Mount announce the departure of the s.s. Secolo from Genoa with 1200 immigrants for the Banda Oriental, the largest reinforcement ever received in that country. Two sailing-vessels bound for the Plate, with cargoes of coal and kerosene, have been lost on the Spanish coast. The sale is reported effected of 200 squares in Merlo, part with frontage on the Rio de les Couchas, at 1300 dollars the square. The buyer, Dr. Benito villanueva, intends to erect a sumptuous manion on the land and form a large park with gardens, pleasure grounds etc. The price shews that as yet there is no very great falling off in value of real estate. A sick establishment at the corner of Victoria and Piedras was gone to the wall, having been declared bankrupt on Saturday by Dr. Soneyra. The assets are estimated at 80,000 dollars in merchandize. The great fire which began on Sunday night in a "corralon" or timber yard in Calle Corrientes, between Anchorena and Bermejo, was only got under yesterday at a late hour, after the most terrible exertions on the part of the fire-brigade, police and military. The conflagration was distinctly visible at San Martin and San Isidro, and the flames were so lurid that it was thought in the former town that the 'licoreria'' in Las Catalinas was afire. Mr. Bosio, the owner of the lumber-yard, succeeded in saving only his books, though his losses, estimated at \$200,000, are covered Viigit a and Kinively by insurances in La Italia, Italo-Argentina and Italia Reaseguradora Companies.
