THE TRUE-FIT TRUSS Possess the following manifest advantages, and are highly recommended by all who use them:

They are most comfortable and easy to wear. They are totally imperceptible when on. They have no cumbrous fastenings, and retain their position in any posture.

They are very durable and will last for years. They may be used in the bath, being impervious to moisture, and are always clean.

RECENT TESTIMONIAL. "Barnes, June 1890 J. M. MASTER MARINER, Writes-'I have had one of the True-fit Truss Company's Trusses in use for 3 1 2 years in all climates, and while swimming in salt water, and have much plea-

sure in testifying to its efficiency in every way." The True-fit Truss "Is the most effective we have ever noticed."-LANCET, Oct. 3, 1887 The True-fit Tru-s "And is calculated to come into general use."-BRITISH MEDICAL

Tuesday, April 15th. Uriburu for ever !! The reaction in the gold market this morning was simply tree mendous. President Juarez could not have hit upon a more popular man for his Department of Hacienda than Francisco Uriburu, who is in touch with the marke knows all the bankers, and known ne of our private banks sold gold heavilin large lots and at receding prices. The effect of this nomination could not be more pronounced; confidence is restored, an his is the true explanation of the cha attitude of the market since yesterd Whatever measure he adopts to help nout of the crisis will be the result of good advice from those most intimately connected with the market, and although he will always have a strong political opposition

to contend with, still, we can promise him the support of the market, which means The market has evidently formed a very avourable es imate of the new Finance Minister, when on the bare news of his ints, or say seven per cent. Such a fail as this is flattering indeed in promise, a Mr. Uriburu is so well known here as a weight of his name and reputation alone as produced a most marked effect on Change. A native of Salta, he was conpicuous during Dr. Rocha's governorship of the Province as Finance Minister, and later on as President of the Pr Bank, in both of which posts he displayed tive ability. Mr. Uriburu also formed part f the Sarmiento Administration, so it oraised for its conscientious regard for the Europe, having thus added to his ma tured experience the necessary requisite for solution of the financial and economic problems of the day. His nomination to the difficult port of Finance Minister ha been heartily welcomed; it only now re mains to be seen if his views and poli will meet with the same measure of pub

sympathy and support. The start of business at the first hou was marked by a thundering drop in gold. Overnight the quotation had closed with buyers at 312, and to the general astonishment the first transaction noted to day was at 300. Cheered on by such a brillian start, the bears, rowing with the tide, banged away the precious metal at a ferocious pace, and at collapsing rates, so that at the close of the hour nearly three-quarters of a million had changed hands, whilst the ate had sunk as low as 288 and closed at 290 r Saturday the movement was also mos sk and the tendency of prices the same out for the other dates little or nothi was done, which shews that there is at much distrust in the market. Stocks ra lied vigorously all round, National Ba Shares shooting up to 115 for cash and 1 for end of month, whilst Catalinas ar even Constructors, in spite of their mor malady, looked more hopeful. shared in the general appreciation, D a advancing to 52 and L to 57. The following is a summary of operations effected this afternoon during the

The Government is said to be out of funds and will have to appeal to the Chambers for aid. Mr. Casey has refused an offer of \$4000 gold made to him by Dr. Ramirez for his splendid mare Pilimuque, as he intends keeping her for

There were fewer people in the Provincial Bank to-day, and the pressure on the bank seems to be over. The meeting of o nil fer want of a quorum; the meeting is postponed for ten days. Letters received from Genoa to-day by the G. B. Lavarello report money much easier there and less alarm about River

cienda will take. It is generally said that he will, in order to relieve the tightness of the money market, favour an emission, and that when Congress meets some great measures will be proposed.

The remarks in the Sud America this evening on "curso forzoso" were very much commented on by brokers and others, as it would seem from the tone of our colleague that the measure is discussed in the Government Houte and even considered

that the camps there are looking well, sheep picking up, cattle plague decreas-ing and every hope of a dry winter to clear off the surplus grass. The marking of calves shows a very satisfactory increase in the herds, and novilles for invernada are selling as high as 13 dollars, though at the Tablada only 14 and 15 dollars are paid, which seems strange. Mr. William Woodhouse, resident engineer of the Buenos Aires and Pacific Railway Company, left to-day in the Royal Mail packet Elbe on a six months' vacation

A Banda Oriental estanciero writes us

The London Standard, under date 20th ult. brings the following: —"Argentine stocks were sent down by another leap fall was in Central Argentine Stock, which was eight lower, at 138." The fall in gold continued at the second hour, and a royal battle was waged between bulls and bears for the supremacy. Open-
