Friday, April 18th. The Bolsa opened this morning under he depressing influences of the protest of bills in Europe remitted in March, and for a large amount. In the interest of the market it would be better to publish the name of the drawer, still our ever active colleague La Prensa gave enough to alarm the whole market, and the worst feature is that new light is now thrown on certain exchange transactions which will seriously affect this market, although we agree with our colleague that the credit of the nation will not suffer abroad. Like lightning, the news spread through the market this morning, and everyone in the Bolsa hall spoke of the business. In one sense it has most seriously affected the market, since it has Under the Patronage of the National Government and with opened the eyes of all to the magnitude of the present crisis, and the utter impotence

of any Minister or Government to com-

pletely control it.

The mails from Europe per Sorata were elivered to day, and, although nearly a month old, are of great interest. We find none of the London papers a statement y Mr. Sanford respecting National Bank hares, that he has sold several large lots n the London market; also a fat contraiction that any gold is being shipped, or about to be shipped, to the Plate; also a report in the City that President Juarez tends to resign, and that Dr. Pellegrini, hrough ill-health, refuses to accept office, and that General Roca will ag in resume the reins of power. The Daily News startles the London public by stating that extravagance in Buenos Aires has reached uch a pass that they are shipping over in Faris satin sheets and bedclothes for Buenos Aires Nabobs. Mr. Samson's leter in the Nacion on the losses sustained by ng in the channel leading to the new Dock No. 1 has also caused much notice in the London papers; whilst a tremendous letter from a shirsholder against the manager of he Platense Steam Company shews the discontent in England and Scotland at the management. The failure of Artola Hermanos, on petition of the London and Brazilian Bank, has also caused much notice in the market.

The manifesto of the "Union Civica" was read by all on 'Change. It has not produced a very good effect, as many think we are fast marching on to rather stirring Business at the first hour embraced the ale of over eight hundred thousand dollars, of which the bulk was for eash and tonorrow. The rate, to the general surprise, pened at 260, or say nine points under the

ounded rumour that Mr. Uriburu had delined the Finance portfolio; for some time he quotations kept oscillating between the pening rate and 265, but as many who had sold during the week began to buy back, the quotation soon began to mount steadily, touching 270 and closing at 268. For to-morrow much the same course was followed, whilst for end of month the rate

place yesterday, when the report was read and adopted. The net profits for the half year amounted to \$114,890.85, equal to 72 po for the half-year, and passing over a balance of \$18,174.02 to the new account. The directors, who are renowned for their great prudence, recommend that owing to the crisis it is advisable to pass over to the London Hesiery Store. reserve fund the entire profits, which fund stood at \$487,286, and is now 538,417 mm gold. The directors state that for some time back the bank has had no funds in he market of Buenos Aires; the amounts which they did hold in Buenos Aires were withdrawn so far back as last September and October. Mr. J. D. Jackson, president of the bank, signs the report, which was approved at the meeting. Nothing can be Henry Heath's Prize Medal Exhibition Hats which is so ably managed by Mr. Ingouville, and which is the oldest bank in

Montevideo. Advices from the produce markets reort wheat prices falling, due to the decline the gold premium and high freights, which keep exporters from operating with freedom. In fact, the fall may be put down at a round dollar the 100 kilos, as from 8 to 9 mm is now offered for what fetched 10 to 11 mm a few days ago. In the other cereals a fall is also reported, but only heat is much dealt in at present. The Provincial Government has annulled the "transfer of a "centro agricola" concession made to Mr. R. Buhigas by Mr J. oquet. Without wishing to particularize in the slightest the case in point, it is the general opinion that the Covernment should refuse point blank to allow any transference whatsoever, as although some may be legitimate in intent, the license if uncontrolled would make a bye word of the law and be the cover for the most scandalous robbery of public money. The parties

Cables are pouring in from London daily announcing the great satisfaction experienced in financial circles at Mr. Uriouru's nomination as Finance Minister. Most of the leading London bankers connected with the Plate have telegraphed their congratulations, expressing also a conviction that matters will new take a turn

who apply for concessions would thus count the cost before applying, and be prepared to fulfil the obligations, of the con-

closing rate yesterday, proving conclusively that the advance of the premium at the previous ring had been due to the un-

opened at 265, fluctuated between 262 and 271, and left off at 269 firm. The advance was thus general and pronounced, but as a reaction was considered inevitable after the late tremendous fall, the rise in prices took few by surprise. In stocks, the main fea-ture was a brisk movement in Cedulas, par-ticularly Provincial series, prices showing a fall of about 3 ojo all round. Nat iona Bank Shares held their own fairly, opening at 135, falling to 130 and closing at 134. Catalinas were also fairly firm, but Cone structors dropped back again to 24 and closed weak and neglected. None of the
