PRICE OF GOLD TO-DAY. First Ring...... 242.50 Second Ring..... 242.00 Wednesday, April 23rd.

The course of speculation to-day was mooth in the extreme. The official contradiction of the rumour spread last night that the Provincial Railways were not sold put a new aspect on affairs, and gold kept very steady, opening for cash at 242, fluctuating between 241 and 245, and leaving off weak at 242.50. The total of sales in gold was by no means of the mammoth order, but even for dates there were found sellers offering, which kept rates down. The fears also of large failures following on the other hand, there is no doubt that some unwary bears have been caught in, and this might lead to partial disaster. Stocks continue to improve, inasmuch as ably in advance of those lately quoted, though perhaps somewhat lower than the ciation going on. A glance at the table of operations will shew the satisfactory imrovement in the state of the market.

A large portion of this gold has been already sold on 'Change, and helped to put the quotation down.
