ON 'CHANGE,

EXCHANGE RATES-England ..... 147d. France ..... 1.57 fcs. Germany............ 1.27 marks Gold equivalent........ 318.00

Friday, January 2nd. There was very little change in the market to day, but as that little was on im-provement's side, there was a better feeling generally reflected in a steady exchange rate, arise in stocks and a fall in gold. The latter opened in the morning on the curbstone at 320, fell gradually to 317, and then stiffening slightly to 318, closed with sellers at this rate. Exchange was done at 1.55 56 francs on Paris and 1.57 Antwerp, but business was ra her sack, an l brokers do not expect any revival un Monday. As for stocks, although all reflected improvement, the rise in rates was most noticeable in the sovereign stock and Cedulas, the latter causing much surprise, as it was reported that the quarterly coupon was being paid with 20 ojo off, which is a realisation of the holders' apprehensions. Some parties said, however, that the rise in rates was a "ruse de guerre" to calm discontent, and it may well be that there is something in this. The M, N and O series opened in the morning at 51.70 to 51.80, and closed at the second hour at 54 to 54.50, whilst the P series rose from 54 to 56, closing at 55.50. National Bank shares rose from 104 to 106.50, Constructors from 9.80 to 10.20, and Catalinas from 18.60 to 19. Some Agricola y Comercial shares changed hands at 18 and Sud-Americano shares at 47. As to the loan, nothing further was known about it, and although everybody seems to consider the business finished and closed, de finite telegrams in this sense have not been received here as yet, which, to say the least, seems strange if the loan is done. It is very possible and probable that the main conditions are agreed upon, but there must be still some points open or

eceived telegrams. The following is a summary of operations effected this afternoon during the National Bank Shares-For cash 719 at 105-104-105 January 3rd 100 at 104.50

Amongst the numerous insurance com panies prepared to make the deposit sti-pulated by Dr. Lopez and continue busi-ness as usual is the Queen Insurance Company, Calle Maipu, of which Mr. Crispin is agent. In the Nacion article on banks there is a great oversight, if not error, which many poke of to-day on 'Change. After the

attle of Pavon the Provincial Bank was not the sole bank in this market. The Mana Bank was in high credit and position in the market then under the able direction of Mr. William Leslie, the then manager. The Mana Bank made a loan of 4 millions m/c to the National Government when at the time there were only 3 gold ounces in the Treasury.

Mr. Martin, manager in Rosarie Messrs. Bate Stokes and Co., who has arrived back from England, was welcomed n 'Change. He reports Belfast thriving. Mr. Kops, the well known German broker, was also welcomed. Samples of a lot of 100,000 kilos of mag-

ificent Entre Riano wool were exhibited at Messrs. Kelsey and Co's. offices in Calle Reconquista. The wool is perhaps the finest, cleanest and best that has as et come to this market. As the general meeting of the shareolders of the Nat. Bank will soon be held and as we learn that none of the proposed hree new Directors will accept office, it would be wise on the part of the shareholders to propose as new Director Don Salvador Gomez, who is not only one of the largest shareholders, but under whose prudent and indefatigable direction in former years, the National Bank grew into the greatest prosperity. Everyone says that Mr. A. Nevares, the fashionable discount broker, has won the Sansinena Castle and Park. Mr. Nevares is at present sojourning with his family at the Tigre Hotel, and will be in town in the

Respecting the London loan business, people who ought to know all about it say that it is finished. We have no telegrams, but understand that the 30 million Pellegrini loan of 1886 and the railway loan of 1881 will both be eliminated. It was stated this afternoon on 'Change that the Provincial Bank was paying the Cedula coupons less 20 per cent, and that many holders refuse to accept such payent, and will sue the bank. egards the gold conversion, we believe it is in "nubibus;" one private bank that holds 16,000,000 Cedulas for its customers has not received a single order as yet to We note in the London papers of Dec.

the extension of works last year by the Old Gas Company affords capitalists a rare opportunity for the investment of their surplus dollars. Year in year out no com-pany in the country has advanced so stea-dily, nor paid such brilliant dividends as this most kingly enterprise, which really seems superior to all the troubles and trials of life, and there can be no question or doubt, but that the entire 10,000 shares now offered to the public would be snatched up by the actual shareholders were it

Wolseley Sheep Shearing Machine Company, limited.

Cabaña del Rincon, Propiedad del Señor Don Tomas Bell, Estacion Pereira, 18th Sept. 1890. Messrs, Agar Cross & Co.

Dear Sirs. I have great pleasure in reporting favourably of your "Wolseley Sheep Shearing The arrivals this morning were 69 wag. Machine." Up to date we have shorn upwards of 300 Lincoln Rams and Borregas, and find it quite up to our expectations. It is simple and easily handled, and in no way complicated or difficult to understand or work, and so far it has never been out of order. and 3 min. Fine, 7.00-8.90; Lincoln, 8.00-10.00; Bor- It shears the sheep beautifully: it does them quicker and considerably better than it is possible to get them done by hand, and saves the poor animal a great amount of abuse.

I have timed our Amateur Shearer here, and find he can shear upwards of eight in the hour. Consequently, I consider the Wolseley Machine one of the best sapital inverted, giving a bond to that Hides, per 10 k.:—Cowhides, Camp, patents I have yet sen, in proof of which I intend having some more put up at an 6 to 20 mm dozen.

Solution of the company in return agreeing to 5.40 5.50; Matadero do, 5.50-5.60; Calf early date.

Yours very truly, WILLIAM RIDDICK,

J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered. CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cho-CHLORODYNE effectually cuts short all attacks of Epilopey, Hysteria, Palpi-CHLORODYNE is the only palliative in Neuralgia, Rheumavism, Cout, Cancer, Toothache, Meningitis, &c.

> From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Januar 5 18-0. To J, T. Davenprt, Esq., 33, Great Russel Street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medecine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question wether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native dazaars, and, judging from their sale, we fancy their sojourn there will be but evanessent, we could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Dollis Brownes Chlorodyne in Diarrhoea and Dysentery, Sapasms, Crampas Negralgia the Vomiting of Preparence and of the extraordinary efficacy of Dr. Dollis Browne.s Chlorodyne in Diarrhoen and Dysentery, Sapasms, Crampas, Neuralgia, the Vomitng of Pregnancy, and as a general sedative that have occuraed under our personal observation during many years, In Choleraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we over the profession and the publisher we are affected to the profession and the publisher we are affected. owe to the profession and the public, as we are of opinion that the substitu-tion of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faith-fully yours, Symes and Co., Members of he Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists Caution,—Vice-Chancellor Sir W. Page Wood stated that Dr J Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defedant Freeman was deliberately untrue, which he regretted to say, had been sworn to,—See The Times," July 13, 1864.
