THE DIPPING SEASON.

recent exchange:-"Speaking of Dips themselve", perhaps the most significant feature in their "History is the way that the Old fashioned have been superseded by the more "Modern and Scientific proparations. As Tobacco gave place to the various "Fluids" and these again to the "Powders" so we find to-day these latter retiring before the "new Paste Dips. Of the many recent experiments we have witnessed in England and "the Colonies, the most successful were with an Arsenical Paste, manufactured by "Tomlinson and Hayward, of Lincoln, a firm that has always been noted for keeping abreast of the times."

"Tomlinson and Hayward, of Lincoln, a firm that has always been noted for keeping abreast of the times."

"The advantages of the Paste over the "Powders" are many:—
"It does not make the worl dry and harsh, but leaves it soft and silky, giving a "healthy sweet smell to the sheep. Being, so to speak, already mixed, it is easier to "prepare there, being no waste nor loose "Powders," to fly about.

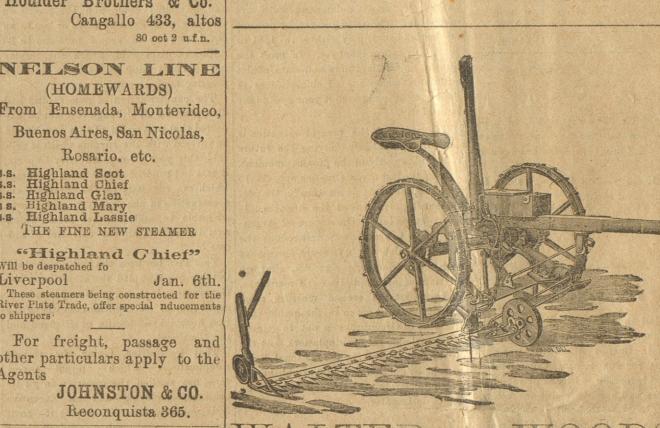

"As it is prepared with Carbonic it is lighter than the "Powders" and does not "so readily settle to the bottom, and for the same reason it is not injurious to the "hands. It goes in less space and is a more concentrated form than the "Powders." thus effecting an economy in transport and labour. It costs less, and will mix with "any kind of water. In a word, it is the "Powders," cleared of their many inherent "defects, with their curative properties and good qualities preserved and increased."

"Until the manufacturers make some better discovery"

ON 'CHANGE, EXCHANGE RATES-England 14½d.

Wednesday, January 14th. The excellent effect produced to-day by ne news of a reduction to 1 o/o of the tax on the banks' deposits caused a rapid fall in gold and rise in stocks at the first hour, but as later in the day there was an alarm of a revolution in Entre-Rios, a reaction ensued at the second hour, which unfortu-Under the above heading, the following appears in a nately left outstanding very little of the improvement of the morning. Thus gold stood at 325 at one o'clock and at 330 at system of simplifying the situation that it is to be hoped the present alarm will prove groundless. Telegrams, however, received from Parana this evening announce a very critical state of affairs: it would appear that all the departments on

For cash P 121,000 at 54-54.50 20 The Senate Financial Committee was nterviewed yesserday by the private bank managers and it was rumoured that it had been fairly convinced by facts and figures that the general opinion entertained in Government circles about the working of these banks as given expression to by Dr. Lopez was completely erroneous. It seems that after the interview the committee visited Dr. Lopez in the Finance Office, and on their return, after further deliberation, determined to recommend the reduction of the two per cent tax on deposits to one per cent, which would be a step in the right direction, though the matter will never be set really straight until Congress sees the great mistake of any tax on deposits at all An evening colleague announces that the Minister offered the bankers to forego the tax altogether in lieu of a loan to the National Bank, and that the directors have cabled to Europe for instructions. It was known, however, this evening for a certainty that both the Finance Minister and the Senate Committee maintain the two per cent tax on deposits. Among the figures presented by the bankers to the committee is a table of the deposits and cash on hand, while going to show the sound position of these admirably managed institutions, will dissipate

following are the figures:—

London Bank—Deposits in paper fifty millions and cash twenty-five millions; gold deposits three and a half millions, Carabassa Bank—Deposits in paper forty millions and cash eighteen millions; gold deposits and cash eight hundred thou-Banco de Italia paper deposits 27 mi lions, cash 9 to 10 millions; gold deposits 500,000 cash 350,000. English Bank paper deposits 10 millions, ash 3 millions; gold deposits and cash

750,000.

many false ideas in their regard. The

Banco de Comercio paper deposits 4 millions and cash 2 millions. It seems that the Committee will deiver its report to-morrow in the Senate, the only other modifications being to fix the tax on export of live stock at 4 per cent, raise to 9 cents per litre the tax on alcohol manufactured in the country, raise the tax on matches to one cent and also increase the tax on imported matches, and nally determine in the Custom's Law that the Government must each year put aside 5 millions to be burne The assembly of Cedula holders at the National Theatre to-day threatened to prove somewhat eventful, as no sooner had was interrupted by the information that the police had received instructions to break up the meeting. The announcement created the wildest confusion. Shouts of "Down with the police" were accompanied by a helter-skelter rush to the doors, and At greatly reduced prices all that remains of Boys' Striped free fight seemed bright. Eventually, however, as there were no police to be seen, all those who remained resumed their seats at the request of the committee, and it soon got abroad that the police were labouring under a mistake in hindering the meeting, as the order was given under the impression that the meeting was to have been held in a public square. As soon as matters had settled down, the Chairman informed the meeting that the Committee entertained good hopes of being able to effect comprom'se or arrangement with the Provincial Government whereby their rights would be respected without the fatigue and bother of a legal struggle, and asked for the Authorities of the Confederated Holders to enter into this arrangement. This was granted on the express condition that whatever resolution was arrived at was subject to the approval of the Confederation. The "Acta" was then signed and the meeting rose. The crisis has brought another giant down and although it had been known for some days past that the house of Clark &

Co., the rallway king, was in difficulties; it was with deep regret that the confirmation of the news was received to-day from Lonlon. This great railway firm has worked in Mexico, Venezuela and Peru, but principally in the Argentine Republic, where its name will remain for ever linked with the Pacific concession. At the present moment over 300 kilometres of the Corrientes line have been finished, leaving 600 still undone, whilst no less than £400,000 is required to finish the Transandine on he Argentine side. It is to be hoped that the difficulties will be only temporary as the firm holds very valuable properties and

Estacion Pereira, 18th Sept. 1890. Messrs, Agar Cross & Co.

I have great pleasure in reporting favourably of your "Wolseley Sheep Shearing Machine." Up to date we have shorn upwards of 300 Lincoln Rams and Borregas, and find it quite up to our expectations. It is simple and easily handled, and in no way complicated or difficult to understand or work, and so far it has never been out of order. as of produce, containing 604 bales of It shears the sheep beautifully: it does them quicker and considerably better than it is possible to get them done by hand, and saves the poor animal a great amount of abuse. I have timed our Amateur Shearer here, and find he can shear upwards of

eight in the hour. Consequently, I consider the Wolseley Machine one of the best an, 437 bags of flour and various wag. patents I have yet seen, in proof of which I intend having some more put up at an
