The holidays produced a great glut, and since then little business has been done owing to the violent os-It is announced from La Plata that the Provincial Government has laid a project efore the Chambers to liquidate the lands expropriated by the Government to enlarge the various camp towns. The sum of these expropriations mounts up to over 12 million dollars mostly represented by pagares outstanding, and as this means a serious menace to the Government's credit, given its notorious lack of resources and the great fall in the value of land, it is proposed to liquidate the business as soon as possible. The terms of the project are not yet known but it is understood that they will comprise the sale of the lands. Mr. E. Dr. J. Collis Brownes

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered. CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cho-

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Cout, Cancer, Toothache, Meningitis, &c. From Symes & Co., Pharmaceutical Chemists, Medical Hell, Simla, Januar 5 1880. To J. T. Davenprt, Esq., 33, Great Russel Street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the wide-

spread reputation this justly esteemed medecine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question wether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their socious there will be but excepted. journ there will be but evanessent. we could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browness Chlorodyna in Diarrhoea and Dysentery, Sapasma, Crampas, Neuralgia, the Vomitng of Pregnancy, and as a general sedative that have occurred under our personal observation during many years. In Choleraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Coffis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of the profession and the public, as we are of opinion that the substitution of the profession and the public, as we are of opinion that the substitution of the profession and the public, as we are of opinion that the substitution of the profession and the public, as we are of opinion that the substitution of the profession and the public, as we are of opinion that the substitution of the profession and the public, as we are of opinion that the substitution of the profession and the public is a deliberate profession and the public as we are of opinion that the substitution of the profession and the public as we are of opinion that the substitution of the profession and the public as we are of opinion that the substitution of the profession and the public as we are of opinion that the substitution of the profession and the public as we are of opinion that the substitution of the profession and the public as we are of opinion that the substitution of the profession and the public as we are of opinion that the substitution of the profession and the public as we are of opinion that the substitution of the profession and the public as we are of opinion that the substitution of the profession and the public as we are of opinion that the substitution of the profession and the public as we are of opinion that the substitution of the public as we are of opinion that the substitution of the public as we are of opinion that the substitution of the public as we are of opinion that the public as we are of opinion that the substitution of the public as we are of opinion that tion of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike.
