ON 'CHANGE. Saturday, October 16th 1892. A mighty ebb was witnessed in the old speculation this morning and the wave swept the market from under the feet of the few bulls left staggering at he ring. The turn in the tide is no onger questioned, and the only danger now is that the fall may be too violent nd shake the foundations of business. What with the reforms promised by the ew Government and the disappearance f the revolutionary bug-bear the gold narket is now tottering under its own reight and the whole market is helping upset the idol of the last two or three years. The occupation of gold bulls is one, and the bears are now starting gain on the campaign that was checkin 1890 by the resignation of Don Pano Uriburu, Minister of Finance, and e July Revolution, and subsequently y the Baring collapse, and unfortunate nancial policy of Minister Lopez. verything favors the fall in gold today, and the lonly cloud on the horizon is the Moratoribus of our London friends which expires at the end of next year!; this is the serious question ahead; eantime, the bears have months before them to kick the gold ball about,

The market closed heavy, although many bought back at the last moment o secure the small margins made since One of the prominent features in the old speculation is the steadiness of the fall, perfectly free from all panicky features yet bearing down prices with irresistible force. There were fears at first that the fall would be violent and upset the whole market; the contrary is taking place, and the cause we may trace to the fact that for months past there has been no bullish speculation and that, in spite of revolutionary alarms, the market at large has been preparing for the change that is now king place in the gold market.

Patriotic Bonds continued very steady ill morning at 73.40 to 73.20 for cash and 74 for the end of November. Internal Bonds were very active and firm at 67 for cash and end of the month.
