ON 'CHANGE. Saturday, December 11th 1892. Gold Premium

SECOND RING..... 183.00% This being the weekly settlement, the demand for cash gold was strong, in fact stronger than expected, and the precious metal ran short, the premium advancing above last night's closing rate. The shrewd ones argued that the Government was buying gold, which helped to impart some firmness to the speculation. Over half a million dollars changed hands for cash at the first ring; the premium opened at 180%, fell to 179.50%, rose to 182.50%, and closed at 182% in a very steady market. Three hundred thousand dollars were sold for the end of the month; the premium opened at 180%, fell to 179%, rose to 82%, and closed at 181%—one point in backwardation. A small business was done for the end of January at 178% to 180% premium, closing at 175%, two points beneath the closing rate for the end of the month. Operations during the first ring amounted to 12 million do lars; the market ruled very steady and firm all morning; fair amounts changed hands for next Saturday and the 15th nst; the settlement on the latter date romises to be of some importance. Patriotic Bonds fluctuated between 73.70 and 73.80. Internal Bonds were very dull at 68. Municipal Consols were neglected at 68.50. La Plata Cedulas improved to 28.30 and 28.40, but the Bonos of the Bank fell to 18.80% of their face value. The cheques of the Provincial Bank were quoted at 38% discount and those of the National Bank at 13% discount.

Exchange continued weak this morning; the rate was quoted at 471d. on London and 4.99 fcs. on Paris; the situation is anything but firm. Discounts were no longer quite so easy and brokers reported a tightening tendency.

The following is a summary of the business effected at the first ring to-\$ 529,700 gold cash at 280-279-50-280
