Gold Premium. FIRST RING...... 189.50%
SECOND RING...... 189.00%
Something went wrong to-day. Gold suddenly advanced to 190% premium in the morning and an uncomfortable feeling was rampant in the market. Some argued that gold was short for the monthly settlement; some opined that infidence in the National Government; thers believed that the Chilian question is still in a very critical condition; others shook their heads and spread the report that we were all on the top of a volcano. Good news there was none, for the gloom was increased by cables from Europe announcing a talling ten-dency in prices of wool, wheat, and maize. Pessimism ruled supreme and gold went up like a rocket.

About a million dollars gold changed nands at the first ring in a rising market quarter of a million was sold for cash the premium opened at 187%, rose to 190%, and closed at 1892% firm Operations for the end of the month exceeded four bundred thousand dollars; the premium opened at 186%, rose steadily and closed at 189%. Operations for end of January were above the average; three hundred thousand dollars were sold at 185% to 188%, closing at 187.50%. The market closed hard. The news from Corrientes that ten thousand men are preparing to settle local political squabbles on a battle-field produced a disastrous impression on Change. Every steamer leaving for the northern river ports takes a cargo of deadly weapons; meantime, the National Government is either unwilling or unable to prevent the terrible bloodshed that must soon lensue. At the rate affairs are marching in Corrientes the whole province will be soon under arms. The indifference of the National Government is not criminal; it is merely con-

Middling and inferior qualities were
dull and neglected in spite of the rise in the gold premium. Northern wools with much "carretilla" fell in price owing to the daily heavy arrivals of that quality and the reduction in the limits of the foreign buyers. Cross-Lincoln qualities from the South reached 9 to 10\$. Special fine mestiza Rambouillet from the Western soft grass lands fetched 7.20 to 7.50\$. Special fine Northern wools were quoted at 7 to 7.20\$: in these quotations, bellies are excluded from all parcels. The Tornquist colony has a splendid wheat ket :crop this year, also the French colony in Pigue and the Russian colony in Curumalan.
