NEW ADVERTISEMENTS.

In a ccuntry where the rearing of infants is attended with somewhat exceptional difficulties and risk owing partly to climatic reasons, and partly to the difficulty of getting medical assistance in the 'camp,' an apology is hardly needed for publishing a small hand-book on the subject for the use of mothers. In Dr. Pennel's book on Infant Feeding an attempt has been made to explain in simple terms the reasons on which the various rules and recommendations are TO MOTHERS.

the various rules and recommendations are based, in order that a mother in modifying her child's diet from time to time as required, may be guided by common sense and not by the hundred and one conflicting counsels, with which she will be assailed. RARE OPPORTUNITY—Firs

OUR old friend Jacobsen always manages to be in the very height of the fashion somehow. When everybody wishes away to the Sea Side, what must he do by get some two thousand volumes of the Sea Side library imported from New York, and the fair young visitors at Mar del Plata can now be seen meandering along the Sea Side library in her hand. This is as it should be. Some very high class works have been reprinted, or rather printed, in this Edition, but the matter has now been settled with the authors, and we can read this cheap edition with a clean conscience. Mr. Jacobsen will hold a level, selling the volumes.

The volcanic peaks assume the most fantastic forms imaginable. The question of transport is a very difficult matter in such a country There are neither roads nor bridges in any part of it. To invade Shoa from the North with any chance of success with European regulars, would require about 80,000 picked men, to keep their communications open, and throw forward a fighting column sufficiently strong to cope with the forces which would be brought against them. Even then, there would

The expenses of such a campaign would probably run into about ten millions sterling, something like ten times the sum which has been voted for it. On the other hand, an important action lost just now would mean that all the natives around for hundreds of miles would rise in arms, and Cassala be placed in a state of siege-One cablegram says that 5000 Abyssinians are encamped at Chedarif. This can only refer to the town of Kadarij in the Soudan, near the Abyssinian hills, and within striking distance of Cassala. If correct, this means that the Abyssinians and Sou" danese are acting in concert.

It is quite possible however that peace may be made on satisfactory conditions. As predicted by the writer some time ago, both Russia and France are in favour of the Abyssinians. The English are more to blame, in breaking faith with the Abvssinians, than the Italians in attempting to conquer the country.

A humorous and, at the same time, very matter-of-fact correspondent in Mar del Plata says that in spite of the many hotels started there, the crowd is so enormous that accommodation is not to be had, so that what the place wants is hotels ad libitum, and all will do a roaring business. The number of passages taken for the Argentine Brighton during the 1894-95 season was 6,485, which gives some idea of the amount of money let loose there while it lasts. And it is not only the hotels; the private residences also are groaning under the strain of sixin-a-bed, like Nicholas Nickleby at Dotteboys Hall-houses that were made by a conscientious architect to cover four or five having to do duty for thirty or forty. However, all this will soon change. Hotels will never be far off where there is a generous business abegging, though we have known many a hotel waiting hungrily for business.

Monday, January 20th 1896. Gold Premium.

FIRST RING...... 226.00% SECOND RING..... 227.00%

The blasting heat did not interfere with he gold speculation this morning; on the contrary, the volcanic temperature inreased the vigor of the bears, who banged gold away with a light heart and in such mounts as to concentrate the attention f perspiring outsiders. There is evidentty a tremendous push in some circles to drive down gold and, the Landwehr and Landsturm and the British phalanx are battering away in grand style against the premium. The market at large bends slightly under the heavy pressure, but it can be seen at a glance that the premium

stubbornly resists the fall. There was less talk to-day about the supposed London advances to the Treasary, but the conviction is becoming general that our Financial Sphinx has succeeded n obtaining all the money needed for 1896. With such a conviction, it may be argued, aow does the gold market hold out at present comparatively high premium! The answer is simple enough—the whole market is alarmed at the state of international affairs, and those who hold gold refuse to let go, or they sell to buy back at a shave. The majority in the market are confident that a settlement of the Chilian different and the chilian diff the Chilian difficulty would cause a fall of

one hundred points in the premium. Grand at 226 50%, rase to 227%, and opened at 226.50% rose to 227% and closed at 226.50%—50 cents contango. One hundred and fifty thousand dollars were sold for Saturday, the premium closing nominally at 225.80%. Business for end of February was pretty active, over two hundred thousand dollars were sold; he premium opened at 229%, fell to 228 %. and closed at 229 % three points conango. One hundred thousand dollars were sold for the end of March at 231,50 and 231%. The market closed with a hard tendency in spite of the efforts of the bears. The turn-over of the morning was much above the average, amount to 1% million dollars.

National Cedulas F were steady at 78, out La Plata Cedulas fell away to 17.20. Internal Bonds of 1891 and 1892 fell also. to 75.50 and 75.60. Business in stocks and hares was of the dullest description.

to day with exchange quotations.

We see by the speech of the Chairman at the general meeting of shareholders

of Bieckert's Brewery Company, held in London, last month, that the working of the company has been fairly satisfactory during the year. The anticipations entertained a year ago have not been fulfilled owing to cold weather in summer and fluctuations in exchange. The Board are of opinion that expenses in advertising must be increased, as competition is very severe. The recent fall in the gold premium augurs favorably for the company

The news of the arrival of gold from the Neuquen mines has excited much interest on 'Change, and it is suggested that the samples, with the stamp of the Argentine Mint, be exhibited in the hall. All the brokers want to see and feel the gold bars, and we have no doubt that Mr. Gilderdale will give the brokers an opportunity of seeing the Neuquen gold. Holders of shares in the Neuquen Companies are in good humour since the arrival of

the samples. Bankers and merchants Mr. Mariano Blomberg has been named who had shares stowed away in their Inspector of live-stock for export at La safes with Credito Real, Sociedad Terri-Plata, and Mr. G. Gettino his assistant.

country, if we are to judge from what has occurred to us, as a minute fraction in its common wealth, during the year that has expired, and the hopeful advent of the new ene on which we have entered.

If we take our branch of trade, and instance our business in particular, we have to admit that the prospects as regards the country at large are not at all exaggerated in the transcript we have made us of, as the increase in our concern has been beyond our most sanguine expectations dur-ing the old year, and, on the eve of the Steamer Shipper w one, promise is given of a very satis-

To keep pace, therefore, with this hopeful state of affairs we have made ampeprovision, and our stock, which is always kept in adequate supply, will be periodically increased with every novelty to meet the increasing requirements of the year.
