TO MOTHERS.

In a ccuntry where the rearing of infants is attended with somewhat exceptional difficulties and risk owing partly to climatic reasons, and partly to the difficulty of getting medical assistance in the 'camp,' an apology is hardly needed for publishing a small hand-book on the subject for the use of mothers. In Dr. Pennel's book on Infant Feeding an attempt has been made to explain in simple terms the reasons on which apology is nardly needed for publishing a small hand-book on the subject for the use of mothers. In Dr. Pennel's book on Infant Feeding an attempt has been made to explain in simple terms the reasons on which the various rules and recommendations are based, in order that a mother in modificiant. based, in order that a mother in modifying her child's diet from time to time as required, may be guided by common sense and not by the hundred and one conflicting counsels, with which she will be assailed. Gold Premium. FIRST RING...... 216.20% SECOND RING...... 215.90%

The week opened this morning in adull mood, not much inclined for business of any description. The gold market was very quiet with a steady premium. About eight hundred thousand dollars gold changed hands during the first ring. Business for cash absorbed four hundred thousand dollars; the premium opened at 216.20%, rose to 216.50%, fell to 216%, and closed at 216.20%. Two hundred thousand dollars were sold for the end of the month; the premium opened at 219% and closed at 218.50%—say a contango of 2.30 which is pretty stiff for the 18 days. One hundred thousand dollars were sold for the 15th; the premium opened at 217% and closed at 216.20%. A small business was done for March at 222% and for April at 225%. The market closed steady

at closing rates. Affairs in stocks and shares were dead slow. National Cedulas F opened at 80 and closed at 80.30. La Plata Cedulas changed hands at 17.30. Internal Bonds of 1894 fell slightly to 74.50%. A small amount of Spanish Bank stock was sold

Cablegrams from Europe this morning announced Argentine Funding Loan at 78%, and a rise in wool. Shares of the London and River Plate Bank quoted at 37. We hear that the Board of the Anglo-Brazilian Bank have decided to call up in

London £2 sterling per share.

The exchange market continued in statu quo" to-day, banks out of the field, and rates at

48 % 5/16d. on London. 5.09 fcs. on France. 5.10 fcs. on Belgium 4.12 % marks on Germany.

The demand for paper money at all the banks is very sharp, and the rate of discount is steady at 8 % for paper, and 7 % for gold bills. Telegrams from Rio this afternoon

quoted the exchange rate on London at There is a loud growl in the market owing to the decision of the Mihanovich Co. to stop Sunday sailings from the Mount. We are going back to the old times with the old tune—"no steamer from the Mount this morning, no mails!" We think that Post Master General Dr. Carles ought to urge the Government to use a little persuasion to induce the steamer company to put on a daily steamer from the Mount to Buenos Ayres. All the bankers and merchants were in their offices early this morning expecting letters by the fast Italian steamer Nord America; imagine the general annoyance when it was known that at the last moment the departure of the Venus from the Mount was put off till Monday; several parties actually went down to the Darsena to meet friends expected by the Venus. In England this kind of thing would not be tolerated, and the Buenos Ayres public are entitled to a little more consideration, and the Government should

take steps in the matter. Advices from Governor Tello of the Chubut Territory announce that H. E. by forced marches surprised the Indian soothsayer Cayupil, and Salpu, to whom the latter had delegated the chief command to the exclusion of Sakamate, who was amicably disposed towards the whites and Government. Cayupil on being interrogated held stoutly to his yarn of being commissioned by Divine command to regenerate the tribes, giving it pretty clearly to be understood that he intended to begin the task of regeneration with the whites-Luckily he had not had time to begin and the Governor ordered him to pack his valise for the coast, to which he reluctantly acceded after protest, this timely measure averting any danger of Indian disturbances. These local Mahdis are very obstreperous subjects indeed, and until the Governor put in an appearance with a stout body guard there was considerable anxiety in the district menaced. The Italian Packet Nord America, which arrived in the Mount vesterday brings

rrived in the Mount yesterday, brings nearly a thousand immigrants for this country, whilst in the Orcana, Pacific packet, Mr. Lessa, the Uruguayan financial agent, whose mission in London caused so much conjecture and com-ment, has arrived.
