Montevideo. The Orientals interned at Rio presented themselves to the Minister of F.A., and requested to be allowed to return to their country. The Minister replied that not only would he not allow them to return, but that still other Orientals would be interned: they then addressed themselves to President Moraes who referred them back to the Minister.

Telegrams from London announce that Uruguayan Consols have risen from thirty seven to forty one and a half.

The results of Deputy Lacueva's mysterious trip to Gen. Villar are now seen in the renewed activity of that officer.

There is no truth in the story published in one of your colleagues that Borda had invested twenty thousand pounds in a speculation on the Stock Exchange for a rise in Consols.

Gen. Villar sent five thousand horses ahead, and with his own troops numbering about four thousand, proceeded by rail from Algerta station to try to catch Lamas between himself and Santos Arribio, or effect a junction with that officer. Last have been at Corrales for the past four

MESSAGE OF THE GOVERNOR OF ENTRE-RIOS

The message of the Governor of Entre-Rios amongst other things calls attention to the fact that only 814 immigrants arived in the Province during the year 896. The number is indeed very small when we consider the importance of Entre Rios, and its facilities for agriculture. The cultivation of 254.533 hectares of land under wheat and linseed show a loss of a little over seven millions of dollars. The Home Debt of the Province amounts o \$5,272,505, and the Foreign Debt to £3,487,293. The service on the latter is it present suspended, and its renewal depends on the National Government. The Province cannot entertain any idea of goods and mile of line have been calcumaking big sacrifices to regain her credit, lated excluding the produce of the Im-This is explained taking into account the was as follows:osses in agriculture and cattle. Owing o this, there is a deficit of close on \$300,000. This is due to the system of djusting the Expenditure List to the Proince's resources, without leaving any nargin for eventualities; thus, estimates are liable to be upset. A long chapter in the Message is devoted to Education, and reveals the necessity of carrying out reforms, which, put into practice would

The best means of prevention is to destroy the "garrapatas", by burning the camp if possible and by getting rid of them on the cattle where the more drastic remedy is not a very easy procedure.

OBITUARY

The wide circle of friends of the Revd Lennox Robertson, formerly Vicar of St. Peter's, Flores, will be sorry to learn through our obituary column to-day that he has met with a domestic bereavement, and will join us in sending him and Mrs. Robertson very sincere condolence on the sad event.

We offer our heartfelt condolence to Mrs Fahy, relict of our old and much esteemed friend the late Mr. David Fahy on her terrible bereavement by the death of her two daughters within a few days of each other. The blow is a sad one, and will cause a wide circle of friends to mourn with her.

The cable has been busy with telegrams from this city to Paris and vice-versa since the awful catastrophe in the Rue Gonjon. Only two persons connected with the River Plate perished: the Ba ronne de St. Didier, and Señora Carbonnel sister of the distinguished lawyer Dr Emilio Daireaux, with whom we most sincerely condole on the tragic event.

We offer our most sincere condolence to our esteemed friend Mr. Alfredo Fernandez on the tragic bereavement that has steeped his home in mourning. His little daughter of four years, on Wednes day ran into a room the floor of which bucket full of boiling water, and was so badly scalded that she died in two hours. A most lamentable accident.

TUESDAY

At last, yesterday, the lawmakers of the nation were whipped in to the quorum point, and 45 Deputies turned up in the venerable precincts of Congress Hall, and immediately took off their coats (metaphorically) gloves and hats, to tackle the preliminary business. Dr. M. Avellaneda was elected President; Sr. Canton 1st Vice President, and Sr. Indalecio Gomez 2d the days and hours for sitting during the tion and the severity of the Message session, rose at 3.50 p.m.

SATURDAY

Yesterday was a rousing day. Everyhing, or nearly everything hummed. The pening of Congress, the fresh defeat of he Greeks, the renewed fighting in Banda Oriental, the Lottery "y otras yerbas" contributed to keep the public steam going from bath-time in the morning till bedime at night. We have seen larger numbers in Congress Hall at the opening of a session. The Message did not excite any "entusiasmo frenetico" on the part of those who heard it read. Not to crush everything else out of our columns, we only give the exordium and financial chapter to-day, and will knock the windiness out of and publish the rest to-morrow. The poor Greeks are now driven to their third line of defence, and it is high time

It was a curious market that of to-day Fold began by shewing decided inclina tion towards a slump, and the price ac ually did run down for cash from 293.50 to 292.50; but at the latter point it seemed to ind a backbone again and rallied to close a the opening rate. Thus the market is really stationary, and if we except the resigna ion of the War Minister, which was a oregone conclusion, things are pretty much as they were, so that there was no reason to expect anything pronounced in the line of a new departure. But brokers report a significant change in the feeling the market, as it appears that there have been very good bnyers on time which would seem to point to a growing conviction that the fall has touched bot However that may be, the marke President Uriburu opens Congress to- is still weak. An absurd rumour was affoat that the Government had been offered or promised a loan of £10,000,000; the bears expected to find something about it in the Message. Our brother Editor, Mr. M.G. Mulhall, give out, but the piper has to be paid, and has just written a very interesting book the question is, who foots the bill? a "hasco," not a perch sold and not an offer made. The upset price ran from 20 to 40 dollars per vara, and as the lands are not only well situated but have valuable building materials thereon given in. it looks bad for the sale of the fiscal port land which will shortly be offered. And yet we see sites almost in the suburbs, you might say, selling at the prices asked for the adaptive of the British barque W. C. Gibbs (3. Mrs. Golding.

Ep. Note.—In the above table all figures of quantity and number are official, from the Custom House and Statistical Department of the Nation. All figures of value are also official, except those for the current year which are reckoned at market quotations.

we have computed the official values per monthly average of each quarter.

The quantities are expressed in tons of 1,000 kilograms, say 2,200 English pounds.

The values are expressed in dollars gold worth 47%d.

The above, being official quantities and numbers and official values, are the only reliable figures that can be supplied, and are the most approximately correct.

The figures of export of live-stock for 1896 and previous years include animals sent across frontier to Uruguay, Paraguay, Chile and Bolivia, whilst the figures for first quarter of 1897, are limited to shipments of live-stock by steamer beyond capes.
