I hereby advise the public that I have established a Gymna-ium Institute at Calle Florida 406 where I also apply the MASSAGE SYSTEM as studied and practiced at Dr. KELLGREN'S well known institute in London. This system has given the most surprising results in curing chest and lung complaints, and all maladies caused by the kidneys and

joints, and in any way connected with the nervous system. Thus the celebrated SYSTEM of MASSAGE is recommended as a certain cure for rheurcatism, asthma, undeve loped muscles, paralysis, disorders in the digestion and in the circulation of the blood, moda, class buena, colores firmes.

For Ladies 12½ to 2 p.m. Consultation hours—11,30 a.m. to 12.30. Patients can also make arrangements for the application of the Massage System at their A. M. Stenbaeck z171 s19 o 19

(Ex Army Medical Staff) IS THE ORIGINAL AND ONLY GENUINE. GAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the de-fendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's—See Times, July 12th 1864.

The Public, therefore, are cautioned against using any other than Dr J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extolits virtues most extensive. CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually cheeks and arrests too often fatal diseases Diphtheria Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhose, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout Cancer Toothache, Meningites, &c.

From Symes & Co., Pharmaceutical Chemist, Mcdical Hall, Simla, Jan-5th 1880. To J. T. Davernport, Esq., 22, Great Russell Street, Bloomsbury, London—"Dear Sir, we embrace this opportunity of congralulating you upon the wide-spread reputation this justly-esteemed medicine, DR COLLIS BROWNE'S CHLORODYNE has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances ad infinitum of the extraordinary efficacy of DR. COLLIS BROWNE S CHLORODYNE in Diarrhoea, and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choloraic Diarrhoea, and aven in the more ferrible forms of Cholora itself, we In Choleraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."
