CERTIFICATES

Proveo completamente que la MANTICA DE GRASA Offered by the manufacturer to the public is an account of its small, taste, purity and other fine qualities superior and infinitely preferable to the hog's lard and finest French oil.

Letis M. Drago. Certificate of Dr. Christiani. You have placed a remedy to a great evil existing for a long time back in the country as I have been convinced that your prepared Grasso is really preferable on account of purity and fine taste to hog's lard or any oil.

Certificate of Dr. Duchesnois. The undersigned certifies having used the Manteca de Grasa prepared by Messrs. which on account of its purity is the most advantageous for family use.

Certificate of Dr. Juan J. Montec de Oca. I have tried the Manteca de Grasa which I find excellent from the analysis of Sor Puiguerri it is clearly proved that it contains nothing deleterious to health.

Certificate of Dr. Evaristo and Felix N. Pineda. We certify that we have carefully examined the Manteca de Grasa, prepared by Messrs. and found it of the best quality and free from any mixture pure as proved by its physico chemical qualities and consequently very useful to the public.

Certificate of the Doctor and Surgeon, Director of the Vicente Hospital, Calle Independencia No. 281. I certify having used the Manteca de Grasa prepared by Messrs. which I consider should be highly recommended on account of its small, condition and agreeable taste.

Certificate of the Doctor and Surgeon, Director of the Italian Druggist, corner of Corrientes and San Martin Streets. I have tried the Manteca de Grasa which you kindly sent me and I certify to having found it such as you describe it to me.

Italian Druggist, in front of San Francisco Church. The undersigned certifies that the Manteca de Grasa recently prepared in this country is superior to all we have used up to the present and as free from any mixture, being on account of its excellent quality preferable to hog's lard and superior for family use to the best oils.

We have tried the Manteca de Grasa which has been sent to us and we have great pleasure in assuring you that we have found it of excellent taste and very convenient for family use, observing at the same time that we have never allowed our cooks to use the grease of any of the grocers' stores, but that we have had no reluctance to make use of your manufacture.

Cranwell Druggist, Calle Reconquista. I certify that the Manteca de Grasa is a Grease which may be substituted with advantage to the best oil and hog's lard and even better for family use as it has an agreeable smell and excellent taste.

The undersigned certifies that the Manteca de Grasa recently introduced for kitchen use after trying it in several dishes at my house has been adapted on account of its healthy qualities and fine taste with preference to the French oil which has been employed up to the present.

I have also submitted it to a chemical analysis and I have not found any heterogeneous mixture on which account I consider it preferable to all the greases and oils up to the present.

Imperial Druggist, Corner of Calle Cuyo & Florida. I am convinced that the Manteca de Grasa is a superior preparation to any other of its kind sold in the country and therefore very useful or family use.

Certificate of Dr. Toribio de Ayra. Dear Sir, From its first appearance I have used in my house your Manteca de Grasa, and was not superior to all those which are used in this city, you know I am sufficiently frank to call your attention to its defects, but as I have not found any I have now the pleasure of certifying you my congratulations which we reproduce, joins the excellent quality of a fine smell, good taste, and purity, which highly recommends it.

Having practically convinced myself that the Grease which you have prepared is pure and of excellent taste, I shall have the greatest pleasure in recommending it to you.

Letchford's Wax Vestas.

Hold themselves responsible for the quality of their Wax Vestas and having recently built an extensive Factory especially adapted to this peculiar manufacture, they can better prepare care on all the details which render their Vestas the best in the market.

MACHINERY.

PORTABLE AND STATIONARY STEAM ENGINES, - screw and Hydraulic Presses, Steam Mills, Pumps for Irrigation, and all classes of Machinery manufactured by A. J. YANNEY, Steam-Fitting and Boilermaker, and Patent-Artist, London Street, New York.

other sections of the country, added strength and indissolubility to the Union. (Cheers). If we turn to the Navy we shall find from the South, four names at least, which will be famous in history so long as floating batteries or men-of-war shall be found upon the water.

afflicted by the war; may they receive the generous protection of their grateful countrymen." Drank with all the honors. The Rev. Mr. Goodfellow rose to respond and said—

In the darkest hour of the American struggle Ireland were the strongest and most steadfast supporters of the old stars and stripes. Ohio may, and I doubt not is, a very fertile spot, and the birthplace of brave men, but let me differ with my friend the Honorable Mr. Kirk, and tell you that the great and heroic G.I. Sheridan was born in Killenny, not Ohio. (Tremendous cheering)

last year, is again on the brink of ruin. The Director must needs invent a new method of amalgamating Galena, [as if not every possible process had been tried in Europe a hundred years ago] and the results are, that on a Cajon of ore, the working of which he is paid 50 \$ for, the loss of Mercury is from 40 to 50 lbs.

Very unfavorable comments are being made on the apathy of the Brazilian movements in contrast to the energetic ones of the Argentine. Salto is becoming a large lazaret-house. I can inform you, on the most reliable authority and surest data, that there are at least 1500 Brazilians in hospital at the present moment. The sickness and mortality is very great, and is daily increasing, so much so, that the authorities are renting additional private houses for the conversion of them into hospitals.

We have received a splendid map of the seat of war from the Topographic Department, of which we will speak to-morrow. The steamer Victoria left yesterday for Esquina; this reminds us of an error in the 'Eco de Comercio' which states the Brazilian fleet to be in the Upper Paraná, whereas it is a very long distance this side of the Tres Bocas.

Of men of Northern birth, the meanest and most infamous of all who have served as generals in the rebel army, I am happy to be able to name but nine; but am truly sorry, at the same time, that even one man, whether from the North or from the South, should ever have been found disgracing himself and his country by service so ignoble and atrocious.

Whiting, Ruggles, and Blanchard, of Massachusetts, [groans]; Cooper, of New York, [groans]; Leadbeater, of Connecticut, [groans]; French, of New Jersey, [groans]; and Ripley, of Ohio, [groans, and immediately afterwards, hilarious joking of the American Minister Resident, Mr. Kirk, who hails from the State of Ohio.]

And of these contemptible fellows, and their chief accomplices in the crimes of treason, what shall be said? As for me, I hesitate not to say that, in my humble opinion, their memory ought either to be consigned to oblivion, or forever held in utter abhorrence.

Not the least among the seventy-odd names of distinguished army and navy commanders from the South who have heroically proved their devotion to the Union in the late terrible conflict—names which, in great measure, constitute the modern roll of Southern honor—is that of Andrew Johnson, formerly of North Carolina, (great applause) now President of the United States, who is, perhaps, in many particulars, more like Andrew Jackson than any other man in America.

The thirteenth toast was then given—"The ladies, God bless them," which was drunk amidst the most enthusiastic cheering. St. Dominguez, Minister of Finance for Buenos Ayres, then rose and in graceful complimentary terms proposed the "American commercial community of Buenos Ayres," which was drunk with great cheering.

Mr. Hopkins was loudly called for and in most eloquent terms responded. Professor Carey being called for then addressed the company, and proposed "Science and art." Mr. Polmar then proposed the "Press of Buenos Ayres, which was drunk with the greatest applause.

Mr. Eastcott and Mr. Brown, who sat immediately beneath the portrait of General Washington, melodiously intoned "John Brown" and "Viva la America."

Mr. Folmar next gave the old flag, the Stars and Stripes, which was drunk amidst the most uproarious cheering. "Rally round the old flag" was then sung.

Hon. Mr. Kirk next proposed the health of Dr. Bourse of Montevideo in the most complimentary manner, which was drunk amidst the greatest applause.

Dr. Bourse replied in an eloquent strain, and then proposed "The Oriental Government," which was drunk with three times three.

Mr. Vanderwyde entertained the company with an amusing negro melody. Three cheers were given for the Union, and the company then separated at eleven o'clock, delighted with the evening's entertainment.

Three cheers were given for the Union, and the company then separated at eleven o'clock, delighted with the evening's entertainment.

The music was admirable, amongst other musicians the services of an eminent pianist from Arceifes, having been secured. The dancing was kept up with unabated zeal until the sun's bright rays warned all that the "wee small hours" had fled too quickly.

In the promenade amid the interludes of dancing, I gazed upon many lovely faces, upon regal forms and half dreamed of those sweet lines of "Byron."

The supper room was thrown open at half past twelve (12½) and troupes of happy friends were continually passing and repassing until the finale: everyone seemed thoroughly to enjoy themselves, and on dit never was such a ball seen in San Pedro.

There is considerable war excitement and the latest news is anxiously looked for.

THE WAR IN THE NORTH. ADVANCE OF THE PARAGUAYANS. Salto, July 4. To the Editors of the 'Standard.'

Gentlemen, The Paraguayans are within forty leagues of Concordia up the Uruguay. The Uruguay has swollen so very much from the late rains, that Flores was enabled to send a thousand men to-day up the Uruguay, past the falls of Salto Grande, to encounter the Paraguayans; and considerable forces are expected to follow immediately in other steamers.

People here very shaky at this new move of the enemy. If the Paraguayans have advanced so far, and I see no cause to doubt it, the town of Restauracion must have fallen, for it lies on their march. But the strange thing here is, that no news has been actually received of its fall, or that of Uruguayana.

I must now close, being post-office time. Yours truly, IMPRIMATUR. SALTO.

MORTALITY AMONG THE BRAZILIANS. NEW STEAMER BUILDING. The arrival of the 'liberator' of his people' in the Rio de la Plata, called forth, although he has not entered Salto for some years, but faint demonstrations of welcome.

Since his arrival he has been in daily communication with President Mitre, going over to Concordia for that purpose.

A change has come over the spirit of the Brazilians at last. You will hardly believe it, but nevertheless it is a fact, they have passed over to Entre Rios. For several days they were busily engaged in transporting the troops across, and three days ago the last body left.

Very unfavorable comments are being made on the apathy of the Brazilian movements in contrast to the energetic ones of the Argentine.

Salto is becoming a large lazaret-house. I can inform you, on the most reliable authority and surest data, that there are at least 1500 Brazilians in hospital at the present moment.

The sickness and mortality is very great, and is daily increasing, so much so, that the authorities are renting additional private houses for the conversion of them into hospitals.

Small-pox is also beginning to be rife amongst families; and although a remonstrance was made by the inhabitants against this being made the head-quarters of the infirm, it was not attended to.

Many severe strictures are being passed on the medical officers of the army in reporting 'fit for duty' soldiers who really are not in a fit condition to march, and who cannot but succumb to the first bad weather they encounter.

With the exception of the murder of these inoffensive people, the troops have been well-conducted and orderly. Mr. Wallace, chief engineer of the Rio de la Plata, goes home in the next Liverpool steamer, to superintend the building of a new steamer for the Salteña Company.

The new steamer, we believe, is to be of the same tonnage as the late Villa del Salta, only longer, with less draught of water and increased passenger accommodation. This company has certainly proved itself most successful in its operations.

Propos, the new steamer Solis, in course of construction here, under the superintendence of Mr. Hardy, also for this company, and intended to ply between this port and Paysandú, is rapidly approaching completion, and will shortly be launched.

Of course they will send you an invitation to the champagne lunch. Business frightfully dull; nothing doing in anything. The camps in splendid condition, and a most favorable season for the lambing.

Two hundred fine rams from the partido, belonging and bred on Mr. Lawrie's estancia, were put up by auction the other day, but brought no bids.

I have just heard that the Paraguayans have taken Uruguayana, but do not believe it. It really is hard to sift the grain from the chaff as regards these rumors.

THE NEW AMERICAN CYCLOPEDIA. Popular Dictionary of General Knowledge. EDITED BY George Ripley and Charles A. Dana.

This beautiful work, in sixteen large volumes, and different styles of binding, is now offered at the 'Nueva Libreria Inglesa,' nearly opposite the Bolsa.
