EXTRAORDINARY MEETING.

On the 31st ult. a large and influential meeting was held at the Tres Es quinas, Barracas; to consider the propriety of calling public attention to the awful and lamentable condition of the Calle Larga, and of devising some remedy either in the form of a petition to the Municipality or an address to the foreign ministers, demanding instant relief.

The chair was taken by D. Natal Barnachea, supported by a number of and other interested parties. Among the by-standers were several persons connected with the G. Southern railway, some German residents of the locality, and a large sprinkling of Basques and Italians.

At the suggestion of the chairman the preliminary proceedings consisted in the election of the following parties to compose a Mud Committee into by those who were killed or wounded whose hands all ulterior and active in accidents on the road. proceedings would be entrusted: Bie-

bestes, when the religion is designated and opened will no doult be worth four times as much. The reality and importance of the Central Argentific Railroad, is beyond all manner of doubt, therefore it is mades for us to dwell on the advantages the province of Cordova will reap from the working of such read, or of those that the parties extiling now on the borders of the same will obtain from a locality so admirably adapted for sheep brodding, and from whence they can export the wool of their flocks dried to Europe, if they should so desire it. But we wish to call their attention, especially to the fact that may have escaped their notice, that Mr. Wheelwright is already working his way for the continuation of the same road unto Salta and Tucuman, and he has already very flattering answers to that effect the same road unto saits and Tucuman, and he has already very flattering answers to that effect from the present Governor of Salts whose sample cooperation is liberally offered, with promise to be it rady to grant privileges and all sort of concessions. The day is not far distant in our opinion when sugar, brandy, rice, coffee, tobacco, and splendid timbers, the natural productions of the fertile and picturesque province of Tucuman will or German preferred. BUENOS AYRES.

The immense advantages of Acounts Current ere now so generally felt and appreciated in the two great emperiums of the River Plate. Montevides and Buenes Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mand and Cu. in Montevides has already provided for the working classes in that city a safe and profitched expositionary for their assings.

The sums deposited in that most important ignituation are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servents of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, citchness, or old age, instead of spending them in the immeral gambling, in lutteries, and other fricolities.

in case of need, eickness, or old age, instead of spenning some or the latteries, and other frivolities.

The Bank of Maua and Co. of this city, following the noble example of their firm in Montevideo, now after the same facilities in this city, and will open a Sawings Bank at No. 103 Calle Cangallo, from Nine am till Three p.n on Week Days, and on Sundays and Holidays from Ten a.n. to Tivelve m., for the veception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a pass book, in which will be entered the amount demosited and withdrawn.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The wank of Maun and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood.
