To the proprietors of horses. As the winter season has now set in and the camp is improving I beg to advise horse-owners that I am ready to take charge of horses at so much per month for pasturage, at the same time making myself responsible for the value of any horses lost (not including such as may die a natural death), on the following conditions: 1st. Horses not exceeding \$600 in value will pay 80\$ per month.

2nd. Horses worth from 600 to 1,000\$ will pay
100\$ and horses worth over 1000\$ shall be charged
10 per cent., on their value for monthly pas-

turage.
3rd. Horse-owners will have to send for their horses to the estancia, and when delivering them will get a receipt from the Mayordomo; but signed will send to take them or return them to town at 60\$ a head. 4th. Horse-owners may leave their animals as long as they like, but cannot take them away until first paying whatever is due for them.

5th. After 4 months of pasturage the owner will be required to pay the cost of same, and if this be not satisfied within a further term of 2 months the horses will be confiscated as property of the estancia and branded with the estan-

DROPSY

DROPSY.

This fearful disease often makes its appearance between the ages of forty and fifty, and might generally be prevented by attending regularly to the proper act in of the liver and stomach; these organs, at this time of bit, have a great tendency to derangements, when astimas, dropsy, or disease of the heart often sets in. The blood requires frequent elimination which no other medicines can so effectually perform as these purifying Pills, as they purge gently, and act immediately upon the liver and stomach, and thus remove all obstructions which at the turning point of life always occur. This dangerous period should be closely watched; two doses a week of about six Fills will wand off all dangerous diseases. But in all cases of dropsy the Ointment is a wonderful and sorereign remedy and must be effectually rubbed twice a day into the suffering parts. ng parts: Holloway's Pills are the best remedy known in the

To the proprietors of horses. As the winter season has now set in and the camp is improving I beg to advise horse-owners that I am ready to take charge of horses at so much per month for pasturage, at the same time making myself responsible for the value of any horses lost (not including such as may die a na-tural death), on the following conditions: 1st. Horses not exceeding \$600 in value will pay 80\$ per month.

2nd. Horses worth from 600 to 1,000\$ will pay

100\$ and horses worth over 1000\$ shall be charge 10 per cent., on their value for monthly pasturage.
3rd. Horse-owners will have to send for their

norses to the estancia, and when delivering them will get a receipt from the Mayordomo; but when there are more than 4 horses the undersigned will send to take them or return them to town at 605 a head.

4th. Horse-owners may leave their animals as long as they like, but cannot take them away until first paying whatever is due for them. oth. After 4 months of pasturage the owner will be required to pay the cost of same, and if this be not satisfied within a further term of 2 months the horses will be confiscated as pro-perty of the estancia and branded with the estan-

ia-mark.
6th. Every horse-owner will receive a ticket bearing my signature, expressing the value of the horses left for pasture, the date and con-7th. Every horse-owner shall deliver to me the 'boletos' of the horses or a copy of same, to prevent the horses being seized as stray animals. Sth. In case of a horse dying, a piece of his hide with the mark will be returned to the owner.

Obtained the SILVER MEDAL fort their Improved Emery's American Cotton Gins, at the Turin Exhibition.

The R*port states that "the two Gins exhibited by Burgess & Key were found capable of ginning a greater quantity of Cotton than all the other Gins of different systems."

The many improvements made in these Gins by Burgess & Key, have been the result of experiments made on every variety of Cotton, and also from experiences in Egypt, India, Italy, Greece, Smyrna, Anstralia, &c., &c. where many of the largest Ginning Establishments, have adopted these Gins, and in one case twenty-one of them are used in one establishment, each of which will turn out \$60 lbs. of clean cotton per "hour."

The capacity of the Gins varies from 26 to 300 lbs. of clean Cotton per hour, according to the size.

The crisis in question resembles more the crisis of 1825 than any other; that great financial datastrophe was attributed to the reaction in trade, the great drain on the Bank of England, and last, not least, the immense amount of capital exported to South America to help her revolutions and to work her mines, which proved, after the expenditure of 24 millions of British capital, to be exhausted and useless. count of the greater facilities afforded paid. The Treasurer gives a receipt to them by this reunion of National for the Bonds and lays them away in Guards. The commandants are in the a strong vault: he also delivers habit of improving this opportunity for to the Bank ninety per cent of the raising their contingents, and every amount of the Bouds in 'national gaucho who presents himself in compli- currency' notes, which the bank may ance with his orders, does so with the loan on interest. If the Bank refuse fear that there and then he may be to pay any of these notes on demand, called upon to lend his services on the the treasurer of the United States will frontier. Many, therefore, who have no pay them, and the deposited bonds other influence upon which to rely, except their right of obedient citizens, prefer to remain away rather than run the risk.

There is still another reason, a partial one I trust, but in the partidos on the frontiers it affects a large portion of the inhabitants. The number of National Guards who have committed the error of desertion, crime I cannot call it, considering their just causes of complaint, is enormous, and every day is on the increase. These men, deserters, cannot present themselves, for should they be recognised they would be sent for a period of some years to a corps of the line, instead of a few months service on the frontiers.

I do not pretend to apply the remedy, but I am convinced that these difficulties might in a great measure be obviated.

1st. By extending the period of time allotted in the distant partides to the enrollment of the National Guard.

2nd. By ordering that no National Guard be detained or called upon to lend his services when presenting himself to comply with the decree of Government; and

3rd and lastly, By granting a free pardon to all deserters from the National Guard up to the present time.

I am well aware that all the above difficulties arise from the abuses of the commandants, but probably the superior authorities have no knowledge that such abuses actually exist, and I trust that through your columns they may be informed of same.

I have the honor to be, Gentlemen, Your obdt. servant,

THE DIFFERENCE BETWEEN NATIONAL

BANKS AND STATE BANKS. A bank is an association of individuals who have clubbed a portion of their capital in a joint stock Company, in order to loan it with less liability of losing the whole.

When such an association has provided itself with strong iron boxes and der, far excelling any salt beef that we stone vaults, for keeping the money it have ever eaten. In the boiling it has on hand safely, various individuals plumped up and got very tender, and in the community who chance to have as far as we can judge, can honestly sums of money in their possession which they do not wish to use at present, take them to the bank for safe keeping. Experience has shown that there is no dauger that all of these deposits will be called for at the same time, and that consequently the banks may venture to loan a portion of them and pocket the interest.

Experience has also shown that when a bank has established its credit, its own notes will pass from hand to hand in the community as money. Banks accordingly exchange their notes not on interest for the notes of businessmen drawing interest.

These are the two principal sources of profit to Banks—the interest which they obtain by loaning their deposits and their circulation. If a bank be shrewdly managed these profits will usually more than pay the rents, salaries, and other expenses of the establishment. Many banks be loaning their means at 6 per cent interest have devided more than 8 per cent to their stock-holders.

The temptation to make these profits as large as possible frequently seduces directors of banks to loan a larger portion of their deposits than is prudent, and if circumstances cause a more than usual demand for payment by depositors, the banks find themselves unable to comply, and are forced to suspend payment. The banks hav- stake. ing paid away their cash on hand to depositors, are without means to face the call for payments of their own notes in circulation, and then the community finds a large portion of its money suddenly changed from notes worth their amount in gold into a mass of irredeemable paper.

The great loss and inconvenience resulting from the frequent failure of Banks to pay their own notes have led to many attempts by the legislatures of different States to provide a remedy for the evil. The plan finally adopted by the State of New York seems to be the most effectual of any yet suggested. By this plan, all Banks are prohibited from issuing any notes for circulation as money until they have deposited with an officer appointed by the State the full amount of the notes and something more, in mortgages, State Bonds and other valuables and saleable property. Then if the Bank fail to pay its notes, the State officer holding these securities belonging to the Bank is directed to sell them immediately, and apply the proceeds to

pay the notes. The National Bank law is simply the application of the New York Banking law to the whole country, with a few modifications. A National Bank delivers to the Treasurer of the United States a certain amount of United Sta- day 6 p.m.

Our state banks are gradually entering upon the national system, and we think before many months have elapsed, that the whole state banking system of the country will be based upon national securities, a result which we regard as very desirable for the community .- [Extract from 'Scientifie American,' May 27, 1865.]

MORGAN BEEF IN AUSTRALIA. Saladero de Paysandú,

June 9, 1866.

To the Editors of the 'Standard.'

Gentlemen. Thinking that you or some of your very numerous readers, would like to know what our "Morgan System" of curing meat, is doing in Australia, I enclose you a copy of certificate from Australian Exploring Expedition to

the Northern territory. The beef was purchased and sent by the Australian Government. And remain.

Gentlemen, Yours very truly, LOUIS A. FLEURY.

Adam Bay, Nov. 29, 1865. John Morgan, Esq., M.D., Dublin,

The beef cured under the new saltting process received from Mr. Malcolm Davis, Adelaide, and shipped on board the Ellen Lewis, 23rd Sept. 1865, for the Southern territory, arrived safe on the 5th Nov. following, and after an exposure of two days on sandy beach, under tropical and vertical sun, was found to be in capital orrecommend its universal usage, either for ship, bush, or family consumption.

SAVINGS BANK. BANK MAUA AND GO.

No. 103 Calle de Cangallo,

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres that there are very few Merchants who fail to keep one at the bank in which they place the most confidence. The Bank of Mauá and Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The same deposited in that most important institution are daily increasing, and already week a very locar amount.

reach a very large amount. resect a very large amount.

These advantages have not hitherts been enjoyed in this city by an immense number of clarks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in

the case of need, sickness, or out age, instead of spending the notice in the standard generally the testines, and other frivolities.

The Bonk of Maud and Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cangallo, from Nine am till Three p.m on Weck Days, and on Sundays and Holidays from Tenam. to Twelve no, for the reception of the savings of the classes already mentioned. The Bank will deliver to each depositor a pass book, in which will be entered the amount

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Maun and Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The nank of Maua and Co. are also persuaded that this new branch of their business will sender immense service to the working classes of Buenos Ayres and its neighbourhood.
