EDITOR'S TABLE.

Yesterday morning we received advices from Montevideo to the effect that a steamer had arrived at Bahin with news that England, France, and Russia had entered into an alliance offensive and defensive against Prussia.

The Triton, in her voyage back from Rio Janeiro, experienced terrible weather on the 15th and 16th inst.

The Antelope, which we heard was coming out to replace the Triton, was informed of the commission issued and ordered to the coast of Africa.

Another Brazilian transport, the Lanago, has come to grief. She left Montevideo the other day for Rio with the wounded, and was obliged to put back owing to some damage she received in the last storm.
