Commercial College of Santa Lucia

FOUNDED BY MR. PONGERARD.
The undersigned, director of the above College, begs to call the attention of Parents and Guardians to the programme of education peculiar to the Establishment.
INSTRUCTION.
The method of education may be considered three-fold: Literary and Physical.
The object of the instruction being to prepare youths for commercial pursuits, our system is after the model of the best colleges of Europe. The programme of studies included in the ordinary pension course is—
English, French, Spanish, German, Latin; Arithmetic, Algebra, Geometry; Penmanship, Book-keeping; Ancient and Modern History and Geography; and Religious instruction.
Extra—Music, Singing, and Drawing.
We spare no pains by theory and practice to attain the great end of a mercantile education, viz., a perfect knowledge of the languages, as well as arithmetic, keeping of books, writing letters, acquiring the various currencies of the country and accurate ideas of its history and natural features.
As regards physical advantages, the situation of the College is favorably known for pureness and salubrity of air over all other city schools. The spacious buildings are judiciously distributed, with a view to convenience. The dormitories, study and recreation halls, class-rooms, refectory, library, &c., are admirably adapted for the comfort and well-being of the pupils.
The moral and application of the children, and their conduct is always under close surveillance. Simple and easy their minds, to lead them up in the love and practice of every moral and social virtue.
