RAMS.

Rambouillet Rams, of unrivalled qualities, can be had at the Cabaña de los Alamos, Callada de Gaiti, Quilmes. These rams, bred by Mr. Latham with careful attention to physiological laws, and with a view to condiliate every desirable quality, i.e., pariect type, length of fleece, size of carcase and fatting properties, together with hardiness and procreative rigor, have no equals in the country as regenerators of the existing breed of sheep, the degenerate and inithriffy qualities of which operate to the palpable prejudice of the sheepfarming interest. The principle which Mr. Latham adopts in breeding those rams—which is distinct from that generally and miversally adopted by the breeders in the River Plate—gives to his stock a power of transmitting type, which none other presence in so high a degree, and from the want of which so much disappointment and degeneracy stiess.

#### FIGHTING MADE BASY.

For the last three or four months every steamer from head-quarters has brought us a crowd of officers, some wounded, a few sick, but a large proportion on leave of absence: the streets, places of public amusement, the 'cafes,' the roads about town, the 'quintas,' are crowded with gay uniforms. This matter, to our mind, has become such an abuse, that we feel

bound to direct public attention to it. The unfortunate Commander-in-Chief of the Allied army is left alone in the Estero Bellaco to manage his men and fight the Paraguayans, whilst threefourths of his officers are, for one cause or another, on furlough in B. Ayres; and we believe, if the truth be be told, President Mitre finds it an easier job to fight Lopez and his legions than to manage his own officers. We take it upon ourself to say that in no other country in the world would this 'fighting-made-easy' system be allowed.

We well recollect, during the Crimean war, when Lord Paget, on some pretext or other, obtained leave of sheence and returned to London, the sensation which it caused throughout Regland: from Queen Victoria to the very cabmen, all snubbed him. He had scarcely landed from the steamer when her Majesty sent for him, and called him to Windsor. The young rades; but public morality cries out Lord, Colonel of a crack regiment, against their drawing their pay unand belonging to one of the first families in England, instantly obeyed the system. merceons, and prepared a long list of Crimean anecdotes to interest her Majesty, but when he arrived at the Palace he was saved the trouble, for the Lucio-The Chillian badget-Latest from the very first question her Majesty put to him was "Well, my Lord George, where is your regiment?" We showed our readers the land. other day the very dangerous import ance which this procrastinated campaign is giving to Paraguay, and the period is fast approaching when the

interests of the country at large will require that the antithesis should also be demonstrated. By the last mails received from Cor-

rientes, we learn that a small picquet of Paraguayans made a dash into Corrientes, and swept into Paraguay five hundred fat tame horses. Our advices give no details as to the whereabout of the guard which was left in charge of these horses; and it being barely possible that the soldiers, imitating the officers, were casually amusing themselves in the streets of Corrientes. As Lopez has found this stroke signally successful, it is no way improbable that his next dash will be against a couple of unofficered regiments, and possibly attended with si-

We put it to the gentlemen who wear the uniform and enjoy the grades of Argentine officers, whether they think it right or proper that whilst their regiments are quartered in the swamps of Paraguay, they should be amusing themselves in the 'cafes' and billiardrooms of Buenos Ayres. #### EDITOR'S TABLE.

There was a good deal of news yes terday. 1st. The resignation of Messrs. Haedo and Obligado as Directors of the Western Railway: they are succeeded by Messrs. Gorostioga, Castro, and Juan Martin Estrada; the correspondence on the subject is very amusing. 2nd. The arrival of La Zingara with 80 passengers, who could not land owing to the bad weather. 3rd. The mails from Chile and Montevideo, and other items which will be found in the proper column.

The Arno takes a number of passengers, but very little gold: in fact as the best bills can be had now at 491 there is no inducement to ship specie, and as the export season has now commenced in real earnest exchange must go up: it is therefore extremely improbable that any more gold will be shipped from the River Plate for at least six months: the packet yesterday took a trifle over £2000 sterling, and some silver.

On Friday, at 1 o'clock, the Archbishop of Buenos Ayres, Dr. Escalada, attended at the office of the Minister of Education and Instruction, and in the presence of the sub-secretary (H.E. the Minister being up the river) took the customary oaths of office. Dr. Escalada is the first archbishop we have ever had in the River Plate.

About next January we hope to receive the report of our late British Chargé d'Affaires on the River Plate: we understand that it will be a large book, as Mr. Ford goes very minutely into everything connected with the country, particularly sheep-farming and its results; he also treats very extensively on the Patagonian Colony.

Magnificent Camp. To be Sold, in the Partido of Carmen de Areco, One-third of a League of Land, known as the Posta

e Acuna, and bounded by the camps of Messrs. Molina and Uriosta. Approved bills will be taken for one-half the amount of purchase for such time as may b agreed upon. This is a splendid opportunity for a person of limited means to make himself a home, the land being of the best in the Province, the price moderate, and terms favorable.

For further particulars apply on the Estancia to Mr. T. Moore, 45 Reconquista; or to Mr. M. Duggan, 11 Setiembre.

To Sheep Breeders:

The Ram-breeding flocks on the above estancis will the sold chean and in lots to suit purchasers. No money required until the end of the year, and more time will be given to any person taking over

The original stock of Ewes from which these Sheep are descended were selected from the best breeds in this country; and the Rams, both Ram-

with fourteen Ewes, were purchased of and imported by Mr. Gregorio Lesama direct from the Imperial Establishment in France for his Estandia an Patricio in this Province, and the Negretcia San Patricio in this Province, and the Negretcian San Patricio in this Patricio in this Province, and the Negretcian San Patricio in this Patricio in thi Guiseppe Terrero, Sanderland, cargo of coals ti Rams were imported by Rick, Prange, Bunge, sold on private terms. One half re-sold at 111 and Co.; one of these animals cost the unprec d. nted price of \$26,500, another \$25,000, and mother \$18,000.

To obtain the object the breeder had in view, he necessarily had to select from the best and purest bred animals he could flud, regardless of price, as it is only such animals [with any degre of certainty] will transmit to their progeny their own type and quality. The result has been what was obvious and only natural to expect from such a course of breeding animals possessing in the highest degree the qualities sought to be imparted viz., a large and deep carcase, short legs well covered over with long and close wool and suffi-ciently fine to command the highest price in the market, and animals by many degrees adapted to the variable climate and camps of thi

country than either the Rambouillet or Small Sheepfarmers should avail themselve of so favorable an opportunity of providing then selves with the means) of breeding their own growth, quality, and condition of the new clip; and the prices hitherto paid are considered rather high. Next month large arrivals may be exexpenses or care beyond that of common Mestize Sheep. Apply as above. Buenos Ayres, Oct. 25, 1866.

# SAVINGS BANK.

# 101--Cangallo--103.

This centerated sheep wash possesses the following advantages:—

It completely cleanses the skin, thereby promoting the growth of the wool and improving its appearance, at the same time leaving no stain, a most desirable object to the sheep breeder. The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Monte-two and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Maua & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

The Bank of Maua & Co. is sufficiently known. It possesses remarkable healing properties and prevents contagion from skin diseases For the scab, either as an einement or wash, it is used with the best results.

It is soluble in water, and easy of application, and can be used without the slightest danger to sheep or lambs.

By the use of this material the farmer is relieved.

from the laborious and disagreeable preparation of the Wash on his own farm.

The South-Down Sheep Wash is now on Sale

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

To the Public by the benefit derived from the course of its operatious, which are regulated or the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauà & Co. are also persuaded that this new branch of their business will render that this new branch of their business of Buenos Ayres and its neighborhood. a very large amount.

These advantages have not hitherto been en-

The Bank of Maua & Co. of this city, following the noble example of their firm in Montevidee, now offer the same facilities in this city, and will

DROPSY.

This fearful disease often makes its appearance between the ages of forty and fifty, and might, generally be prevented by attending regularly to the proper action of the liver and stomach; these organs, at this time of lite, have a great tendency to derangus sents, when sathman, fittiply; or disease of the heart often sets in. The blood requires frequent elimination which no quher, medicines can be different ally perform as these purifying Fills, as they purice gently, and act immediately upon the liver and stomsoch, and thus remove all obstructions which at the turning point of life always occur. This dangerous period should, be closely withed; two doses a week of about air Fillwill ward off all dangerous diseases. But in all cases of dropy the Ointment is a wonderful and sovereign remedy and must be effectually rubbed twice a day into the suffering parts.
