Capital subscribed during the first ten months of existence, 1,100,000 hard dollars.

Number of Policies, 820.
Bonds purchased, 88,000 hard dollars.
The Bienhechora offers three various modes of Insurance to its subscribers: 1st, with the loss of capital by the death of the Insured party; 2nd, without loss of capital in said event; 3rd, with mere compound interest.

In the first form the Insured party has a right to:
1 To compound interest on the bonds purchased by the capitals received by the Company.
2 To a proportionate share of the capitals and interest of those who die in their respective sections.
3 To a proportionate share of the Capitals and Interests of forfeited subscriptions.

In the second form the Insured claims 1. Compound Interest on the National Bonds purchased by the Association.
2. A proportionate share of the Interest due on the Capitals of those who die in the respective sections, which capitals are returned to the subscribers.
3. A proportion of the interest due on forfeited shares.
4. A proportionate share of the profits arising from the increased value of the National Bonds, acquired by inversion of funds.

Finally, in the third form, gives a right to the corresponding interest produced by the Bonds purchased with their subscriptions, and the successive reinvestment of such interest, effected quarterly, when the coupons are paid up by the public treasury.

So marvellous are the benefits arising from the employment of Capitals in Public Funds, verified by the Mortality Tables of Dependants, and the interest produced by the 6 per cent Consolidated Bonds, that taking for a model, the result given by other companies established precisely in the same form and basis, but with an accumulative interest much inferior to that gained by the "Bienhechora," that it is enabled to present as positive the following tables showing the gradual progression of capitals for a subscription of:

Table showing the progression of capital for a subscription of 100 Silver Dollars annually, with loss of capital through the death of the Insured. Columns include years (In 5, In 10, In 15, In 20, In 25) and values.

Table showing the progression of capital for a subscription of 100 Silver Dollars annually without loss of capital in any event. Columns include years (In 5, In 10, In 15, In 20, In 25) and values.
