ANNUAL REPORT OF THE POST MASTER-GENERAL.

We have reviewed the above Report for 1867, already sent in to the Minister of the Interior. As usual, it shows more vigor and painstaking labor, as well as more real progress, than any other Department of the Government. New Post-offices have been established in San Lorenzo, province of Sta. Fé, Fraile Muerto, and Villanueva, Cordova, San Carles, and San Rafael, Mendoza, Colon, Entre Rios, Belen, and Andalgála, Catamarca, La Cruz, and Alvear, Corrientes; in Ayacuch, in the Province; and, finally, in the Boca, and Once de Setiembre,

in the city of Buenos Ayres. Along the lines of railway also letterboxes have been placed at all the stations, amounting to thirty-seven in Railway, by an arrangement with Mr. Wheelwright, the travelling railway post, the greatest of modern improvements, has already been inaugurated.

FOR THE DISEASES OF THE THROAT, CHEST, AND LUNGS

The true Mexican Anacahuita, from which our Pectoral is made, is a remedy for Pulmonary Discuses, which has been known and fully tested in that country for many generations. The native Indian tribes were probably the discoverers of its wonderful medicinal virtues, as it is among them where we first find it in use; later we find it prescribed by the leading College of Physicians in Berlin, and much prized by them as a site and reliable remedy for some of the worst forms of Pulmonary Affections. Our own experience since we first introduced our Pectoral of Anacahuita, now over ten years ago, has been of the most satisfactory and encouraging nature. From Cuba, Mexico, West Indies, Brazil, Buenos Ayres, Chile, Peru, Ecuador, New Granada, Venezuela, and Central America, we have many letters and certificates of cures effected by its use, especially in such diseases as
