The Standard.

WEDNESDAY, JUNE 12, 1867.

NEWS FROM EUROPE.

THE ARNO'S MAILS ANTICIPATED.

PEACE.

June 11, 1867.

San Jose arrived from Rio. Packet news. Conferences held in London about Luxemburg. Probability of speedy and satisfactory termination.

(TRIBUNA TELEGRAM.)

Montevideo, June 11, 1867.

The most important news by the La Place from Liverpool is the holding of a conference in London for the amicable arrangement of the Luxemburg difficulty.

FURTHER PARTICULARS.

On 7th May a conference took place in London to treat on the situation of Europe in the Luxemburg question.

It is to be regretted that in the circle of German amateurs of Argentine literature we have recently lost the most distinguished and erudite of all.

As regards Your Excellency, I flatter myself that you abound in like friendly sentiments, and that you will accede with good-will to the arrangement I propose.

With this motive, I salute Your Excellency with the highest esteem.

EDITOR'S TABLE. The frost on Monday night was even more severe than that of last week.

CONGRESS—SENATE. DEBATE ABOUT GENERAL ROJO AND Sr. ROJO.

RETIREMENT OF D. MARCOS PAZ. The Senate sat yesterday and wasted much time in a futile discussion about General Rojo and Senators Blanco.

LETTER OF GENERAL MITRE. Paso la Patria, April 9th 1867.

After the conference I had with Your Excellency, and after conferring with the Allied Generals, I have the honor to confirm what I stated to Your Excellency when you did me the honor to visit me in my encampment.

Another hay contract, we hear, was concluded yesterday for 2,000 tons, at \$950, baled and delivered on the banks of the Riachuelo.

Parties requiring medianeros with or without money would do well to at once send their address to this office, as there are several strong, able, and respectable home farmers arrived per Mendoza, in town.

There is no country on the face of the habitable globe where the country people pay less attention to sleeping comforts than this, and a story is told of a well-known and wealthy native

ARGENTINE LITERATURE IN GERMANY.

We are indebted to an esteemed German friend in Montevideo for the following interesting article, which we have no doubt our colleagues will gladly reproduce.

The works of Argentine writers have been frequently mentioned in the literary circles of Great Britain, and during the last ten years they have also begun to be known in Germany.

In the Literary Annals published at Leipzig we find very interesting 'critiques' on the works of Marmol, Juan Maria Gutierrez, and Daniel (Mme. Eduarda Garcia). A novel by Dr. V. F. Lopez, entitled 'La novia del herceje' has been translated into German by Colonel Seubert.

The Geographical Society of Berlin counts among its honorary members Messrs. Sarmiento, Juan Maria Gutierrez, Mitre and other distinguished Argentines.

In this manner the circumstances are completely altered, and the grounds on which Your Excellency's voyage to Paraguay was arranged have become so modified that it seems to me most advisable to consult again the Argentine Government on this emergency.

In this sense Admiral Tamandare conferred with the U. States Admiral, explaining to the latter that if the Minister arrived at Corrientes before the Allied Fleet should ascend the river to undertake military operations there would be no objection to his passing up; but if naval operations were once begun against the enemy and a line of war established, the thing would be impossible.

As Your Excellency, therefore, has not been able to arrive before the occasion specified, the basis of the arrangement falls through, and we find ourselves in the position foreseen by Admiral Tamandare and accepted by the U. States Admiral.

In view of all this, I think it most proper and prudent for all parties, as I already advised Your Excellency, to consult again the Argentine Government, so that placing itself in accord with its allies, it may indicate what seems most expedient in this emergency.

As regards Your Excellency, I flatter myself that you abound in like friendly sentiments, and that you will accede with good-will to the arrangement I propose.

With this motive, I salute Your Excellency with the highest esteem.

EDITOR'S TABLE. The frost on Monday night was even more severe than that of last week.

CONGRESS—SENATE. DEBATE ABOUT GENERAL ROJO AND Sr. ROJO.

RETIREMENT OF D. MARCOS PAZ. The Senate sat yesterday and wasted much time in a futile discussion about General Rojo and Senators Blanco.

LETTER OF GENERAL MITRE. Paso la Patria, April 9th 1867.

After the conference I had with Your Excellency, and after conferring with the Allied Generals, I have the honor to confirm what I stated to Your Excellency when you did me the honor to visit me in my encampment.

Another hay contract, we hear, was concluded yesterday for 2,000 tons, at \$950, baled and delivered on the banks of the Riachuelo.

Parties requiring medianeros with or without money would do well to at once send their address to this office, as there are several strong, able, and respectable home farmers arrived per Mendoza, in town.

There is no country on the face of the habitable globe where the country people pay less attention to sleeping comforts than this, and a story is told of a well-known and wealthy native

Estanciero who owns several stately houses in Buenos Ayres, who invariably when he comes to town sleeps on his 'recado' in the 'zaguán' or hall of his house.

In consequence thereof Your Ex. resolved to undertake your voyage in the beginning of March (2nd March), and left B. Ayres in the steamer Paysandú, which got aground on the way and remained so over 20 days.

If the steamer in which Your Ex. travelled had arrived in proper time, that is, while it was simply a case of blockade, no difficulty would have been offered to Your Ex. continuing your voyage.

In this manner the circumstances are completely altered, and the grounds on which Your Excellency's voyage to Paraguay was arranged have become so modified that it seems to me most advisable to consult again the Argentine Government on this emergency.

In this sense Admiral Tamandare conferred with the U. States Admiral, explaining to the latter that if the Minister arrived at Corrientes before the Allied Fleet should ascend the river to undertake military operations there would be no objection to his passing up; but if naval operations were once begun against the enemy and a line of war established, the thing would be impossible.

As Your Excellency, therefore, has not been able to arrive before the occasion specified, the basis of the arrangement falls through, and we find ourselves in the position foreseen by Admiral Tamandare and accepted by the U. States Admiral.

ARGENTINE RAILWAYS.

(MR. FORD'S REPORT).

The average price of fares and freight, per mile, on Argentine railways is, for the first class, 3d.; second class, 1d.; and freight, 4d. per ton.

The average speed, sixteen miles an hour. Accidents are almost unknown, which may be accounted for, besides the fact of the 'slow rate' at which the trains are run.

The estimated cost of the construction of Argentine railways has been from £6,500 to £10,000 per mile, and the average general working expenses of them from sixty to seventy per cent. on the gross earnings.

The three lines of railway owned, exclusively, by English Companies have received a Government guarantee of 7 per cent.

On the Northern Railway 7 per cent. has been guaranteed on a sum of £150,000.

On the Southern Railway 7 per cent. on a sum of £700,000.

On the Central Argentine Railway 7 per cent. on a sum of £6,400 per mile, with a large grant of land.

The guarantee on the Northern line, the first established, and calling for it, has, however, not been made effective owing to difficulties raised by the Government of Buenos Ayres respecting the accounts presented by the Company.

It is, indeed, to be hoped, that the Government of Buenos Ayres will not lose sight of the paramount importance of encouraging railway enterprises, and of removing all obstacles in the way of their being properly carried out; should it act in a contrary spirit it cannot expect that foreign capital will be embarked in undertakings of such great utility to this country.

The works on the Central Argentine Railway were temporarily suspended in consequence of the Provincial Governments of Santa Fé and Cordoba having failed to fulfil their obligations by ceasing the land they had bound themselves to give up.

The only railway that has been constructed in this country by the Government, namely the Western line, is put up to sale for a sum of £700,000.

There are four lines of railway in contemplation; but it is probable that many years will elapse before they are constructed.

The following is an enumeration of them:— 1. The Eastern Argentine Railway, in the Provinces of Entre Rios and Corrientes, to be constructed with a view to connecting the navigation of the lower with the upper part of the River Uruguay, which is effectually

AN ENGLISH ESTANCIA ATTACKED BY INDIANS.

NARROW ESCAPE OF THE INMATES.

Mr. H.'s place was sacked by the Indians not very long since. He lives near Frayle Muerto. The Cacique and Indians marched right up to their 'rancho,' although he and his companions had their revolvers pointed at them from port-holes.

The Cacique very politely shook hands with them, and sarcastically remarked that they were 'muy amigos.'

Mr. H. says that if it were not for the Cacique they should certainly have been murdered, as several times the Indians wanted to make a rush on them, but were with difficulty prevented by him.

A CHAPTER OF GRIEVANCES.

To the Editors of the Standard.

Gentlemen, What have we gained by the Rural Code, printed in English, and published by the papers? Are any of its clauses carried out, or are any of its rules, and regulations abided by?
