#### REVIEW FOR EUROPE.

The past fortnight presents the most gloomy retrospect. Cholera, although happily somewhat diminished in this city, has extended to the country districts, where it at present rages, whilst in the Provinces it has desolated cities and carried mourning over avoid. We shudder as we run over assuage the anxious fears of those at home who have friends and relatives in this country, we are free to confess we should allow the mail to leave without our customary review.

Under the proper heading will be found the names of our fellow-country men stricken down by the epidemic. We have to deplore the loss of Mr. Daniel Mackinlay, who stood first in the ranks of British merchants in the Plate. The Vice-President of the Argentine Republic, Dr. Marcos Paz, has also succumbed; and two of the judges of our superior courts, and many other distinguished native gentlemen. DR. RUBINI'S

CONCENTRATED

CONCENTRATED

ALCOHOLIC CAMPHORATED DROPS

According to the experience of this distinguishd and humane Physician, nothing yet discovered or invented surpasses Concentrated Cam-phorated Alcoholic Drops, in cases of Cholera or Analogous Diseases. When the Cholera was raging in South Italy,

and whole villages were swept away by its ravages, when the people fled with panic terrors to the woods and mountains, and science was of no avail. Dr. Rubini, fortunately for mankind, hit upon this great discovery, and according to the testimonies of the Governor of Naples, General Ricci, and others equally trustworthy, cured six hundred cases by the plain simple remedy here advertised.

advertised.

The preventive mode of treatment is the following:—Take Morning and Evening 5 Drops, in a lump of sugar—this will prevent it precipitating and losing its special virtues. Tea, Coffee, and other excitable beverages should be avoided. On Sale at CRANWELL'S, 155,1m,d18 30 Rivadavia.

## IMPERIAL PETROLEUM, BRILLIANCY, ECONOMY, SAFETY!

The undersigned beg to inform the public that they have received direct from the proprietors, Messrs, LANMAN & KEMP, NEW YORK, a shipment of the above celebrated Petroleum Oil which has established for itself a reputation for excellence surpussing all others petroleums. The

following are some of the qualities possessed by it—

1st. By a great improvement in refining it is freed from the gaseous Napta and will therefore stand a higher degree of heat than other petroleums before igniting, thus making it much safer,

n fact, alfacst,

NONEXPLOSIVE

2d. It is pure white in color, has scarcely any smell and is clean and pleasant to handle.

3d. It has a much greater density or heaviness of body than ordinary petroleum, a large part of which latter passes off in gas, the Imperial Petroleum being pure oil will therefore, with rare exception,

BURN 25 PER CENT. LONGER

than other petroleums. than other petroleums.

4th. The flame from the Imperial Petroleum is a pure white, while nearly all other petroleums give a yellow opaque flame, on this account, two lames burning the Imperial Petroleum will give as much light as THREE lamps burning ordinary petroleum.

5th. It burns clear and steady without flickering, which is a great relief and saving to the

eyesignt.
6th. CIt does not crust the wick and therefore requires trimming but seldom.
7th. The Imperial Petroleum is shipped in patent tin cans, not liable to leak, thus avoiding the loss so often entailed upon the buyer, and being from one vein of oil it is always uniform in color and qualities.

We respectfully ask the attention of families, storekeepers, and those who have in charge the lighting of Schools, Churches, Public Holls, and Street Lamps to this very superior oil, which from its SAFETY, ECONOMY and BRILLIANCY, they will find admirably suited for their various purposes.
