The following are the preparations used by most eminent members of the Medical Profession, in every country in the world, for the cure of the

Pills of Hypophosphite of Magnese.

These valuable medicines have saved the lives of many consumptive patients. Even in the third stage their beneficial effects have been manifested frequently. In every instance, however far advanced in the disease, the patient will find a marked improvement, both in local and general symptoms. There will be observed a remarkable increase of nervous power, a better appointe, greater regularity of the bowels, better digestion, less cough, less expectoration, less susceptibility of catching cold, less perspiration at night, etc.

Dr. Churchill's Hypophosphites are sold, with directions for use, at four france per bottle, in France, by Swann, Pharmacien, 12, Rue Castiglione, Paris. rd stage their beneficial effects have been mani-

Writing Ink, although frequently considered to be of small importance, is really the article next to Paper, the quality of which will render the act of Writing one of pleasure or discomfort. The Public demand an Ink which at once Writes Black, i.e., "Black Writing Ink," a "Jet Black Ink," Messrs. Hyde & Co. of London have produced the article, and the Prize Medal of the International Exhibition, 1862, and Paris Exhibition, 1867, were awarded to Hyde & Co. for "Writing Inks of excellent quality," viz.

Black Writing Ink, India Writing Fluid, Machine Copying Ink, Scarlet or Red Ink, Marking Ink for Linen, Blue Black Writing-Fluid. These Inks, known as the British Empire Writing Inks, made by Hyde & Co., are the only Inks to which Two First-Class Medals have been awarded; they are manufactured on an improved principle from genuine articles only, so as to combine in the greatest possible degree those most research in requisites, viz., Fluidity in Writing, an intense and permanent Black, with a non-tendency to thicken.
