operation. If the National Government, according to agreement, continues it as far as Rosario, an improvement of great material and political importance will have been effected.

On the 24th of December last you issued the law authorising the Executive to adopt measures to improve the hygienic condition within the municipal boundary. Believing at once that one of the most efficacious means to carry into effect the provisions of the law was an abundant supply of water.

But the Government has not stopped here, and, persuaded of the necessity to follow in the same path resolutely when material improvements were at issue, which it is a shame should not yet have been realised in a city like Buenos Ayres, has agreed to a contract to complete the water supply, make drains, and pave with adoquines 300 squares in five years.

I will at once submit to your approval the basis conditionally agreed upon, and all the various proposals that have reference to the same subject. If the above-mentioned projects meet with your approval, the legislative year that dawns to-day will form an epoch in our parliamentary annals.

Before concluding I consider it my duty to remind you, Hon. Senators and Representatives, that since the year '59, as I stated in my note of the 7th of June, the commission that should revise the accounts of the Administration has not even been appointed. I entreat you that in future you will not abandon one of your most precious prerogatives. I believe that I claim, to a certain point, the right to have the fulfilment of Art. 52 of the Constitution, because, as Administrator, I am anxious that your competent and deliberate verdict should proclaim whether the public funds have been employed with honesty and in strict compliance with your laws.

Having sketched broadly the more culminating points both in the administration and in politics, I deliver into the hands of the President of the Assembly the message and the Ministers' Reports.

THE BRAZILIAN WAR (House of Commons 27th March 1863.) Mr. Horsman asked the Secretary of State for Foreign Affairs whether Her Majesty's Government had alone, or in concert with the Government of the United States, made, or intended to make, any endeavours to bring about a peaceable settlement of the war between Brazil and its allies and the State of Paraguay.

Lord Stanley.—Sir, Her Majesty's Government sincerely regret the continuance of this war between Brazil and her allies on the one side, and Paraguay on the other. We believe that it is even more useless and purposeless than wars generally are (hear, hear): and we cannot but see that it is inflicting enormous injury upon the countries engaged in the conflict (hear, hear). At the same time, I doubt the expediency of offering mediation when it is not asked for, and I do not think that mediation would, if offered at the present time be likely to be accepted. But if at any time the mediation of Her Majesty's Government should be desired, or if our intervention should have any reasonable prospect of success, we should always, as a matter of course, do what is in our power to bring about a reconciliation, and we should be equally prepared to do that either acting singly or in concert with any Power that may be inclined to help us in doing a good work (hear, hear).

MURRAY & LAMMAN'S FLORIDA WATER.—Tastes as various in relation to perfumes as to wines. All perfumes, however, admire the Quif Champagne; and ladies of taste and refined perception admit that the fragrance of M. & L.'s Florida Water surpasses that of every other perfume. In South America it is the only perfume in use, and although recently introduced into this market, it is in equal favour with our fair countrywomen. It is prepared from fresh flowers, but, as the aromatic vegetation of Florida is more odoriferous than that of Europe, the Florida Water (bearing the above trade-mark) has decidedly a richer odour than any European extract.

On the Bolsa to-day the great topic was the Governor's speech. All, save some extreme politicians, are well pleased that his Excellency so clearly expressed the opinion of the public regarding the Paraguayan war. It is the hope of all that the war will be brought to an immediate termination.

The great estancia auction in the South, by Mr. Billinghurst, resulted in nothing. The place will now be disposed of by private sale. Messrs. Bradley and Freyre report the sale of 2000 sheep, near Chascomus; the flock, as it runs, at 416 mps.
