Yesterday the Aunis arrived at he usual hour. The passengers got ashore at 9.30 a.m., the mails at the Post office at the same hour, and the letters were delivered at four o'clock p.m. precisely thirty minutes after the closing of the supplementary mail for the Arno. We suppose, as this ar rangement is so persistently adhered to, that it must be a convenience on the other side. Merchants, however will have an opportunity to answe their letters by Mr. Bonnemason' splendid steamer, the Poitou, which leaves on Saturday. One of our most esteemed foreign

merchants, Mr. Henry Camman, lef last night for Montevideo en route for Europe. We cannot allow this gen tleman, who has played such a con spicuous part in the commercial affair of the Plate for so many years, t depart without a valedictory. Both as merchant and as director of the Government Bank his position was one of the highest in Buenos Ayres but he carries with him a'documen which will ever endear his name to the River Plate public. We refer to the draft proposal for the creation o the exchange office, which was firs drawn up by Mr. Camman. Others more pretentious than our esteemed German friend, have claimed the honour which we, as impartial writers testify solely belongs to him; he i was who first gave creation to the idea which has realised for this place so much good; and, although he takes with him neither gold medal nor silver service as a tribute from his fellow citizens, he bears with him the highest reward for a conscientious good man the cherished respect and esteem of the entire River Plate public.

We hear from a reliable source that the National Government has negoiated a loan of two millions with the Provincial Bank, payable in monthly instalments of 200,000 patacons, des tined to pay the national debt of the nation, and enable the Government after paying off all liabilities to hand over a handsome balance to the new administration of Sr. Sarmiento.

There is a very general wish to know what about Mr. Robinson's comprehensive sewerage scheme. It is at present on the Municipal shelf, and unless the Governor takes the matter up it will never be passed.

We confess our surprise that the Naional Government did not think proper to send an officer to attend the funeral of Mrs. Admiral Brown. We believe had President Mitre been acquainted of the hour of the funeral, he would have gladly paid this tribute of respect to the widow of the greatest naval officer Buenos Ayres ever boasted of: and still furthermore, the relict of the only foreign Governor that ever ruled in Buenos Ayres. A few pious friends attended the funeral, which was of the most unostentatious character. Many parties complained that in the notice the address was

GREAT AUCTION SALE, RAMBOUILLET IMPERIAL RAMS.

On TUESDAY, the 11th day of August, at Eleven o'Clock precisely, Messrs. BALBIN and PLOWES will Sell by Auction, without Reserve, at their Auction Rooms, No. 19 CALLE PERU. 40 Magnificent Rambouillet Imperial Rams, bred by Wilfred Latham, Esq., at his celebrated Ca-bana de los Alamos. These Rams, at the day of Sale, will be 15 or 16 months' old, with a growth of wool corresponding to that age, less the lambe' points, which were shown last Spring, so that, n effect, they will have on them from 13 to 14 conths' growth of wool.

The unrivalled Breed of Mr. Latham's Rambouillet Imperial possesses, as will be seen on inspection of the Rams, in the highest degree a ombination of all the most desirable qualities viz., closeness of pile, length, strength, and firm-ness of shape, and remarkable weight of fleece; tegether with a well-defined and beautiful type, neat, broad-fronted, and well-woolled heads, with ell-set horns; handsome neck folds and collars; wool thickly covering the belies and down the legs; deep, weighty, and level carcases en short legs; broad and strong over the loins,—in fact. very condition of beauty, vigour, and profitable-

these Rams, which possess those qualities and characteristics that mark them as the only type in the country—the true Rambouillet Imperial which present suitable conditions for crossing on Negrette, or fine Negrette-Mestiza Ewes. Such breeders will obtain from this stock progeny reaining trueness of type and compactness, while attaining to much greater bulk of carcase, very much greater length of staple and weight of fleece, and remarkable brightness and soundness of wool. Also the attention of those Gentlemen who have been breeding from the various French Merino races, which pass in this country under the name of Rambouillets, such as the Gilberts. Cugnots, and others, is especially called to these Rams. They will find in them that be outy and trueness of type which is the specialité of the Imperial Rambouillet, par excellence. Those Gentlemen will obtain by the use of these Rams great advantage in quality and length of wool, as well as in compactness of form and levelness.

On the same Day Messrs, Balbin and Plowes will Sell by Auction, and without reserve, 10 two-ye-r-old Rambouillet Rams from the same

Also, by Private Contract, two beautiful Type Sires, two and three years' old, with nine to ten months' growth of wool, which Mr. Latham is enabled to dispose of in consequence of a redistribution of families, and a classification which h has deemed it advisable to make so as to provide against all possible danger of incestuous breeding It will be remembered that one of these sires wa exhibited last season, and was pronounced by th most competent judges to be marvellously perfect They have only served a few picked ewes, and are models of vigour and compactness. The Rams will be on View at the Auction-cooms on and after Wednesday, the 10th day of

PERFECT PURGATIVE PILLS
COATED WITH SWEET GUM.
1st Principle—A vegetable substitute for Calomel or Mercury is secured.
2d. A cathartic that cleanses the alimentary

Canal and its neighboring Viscera as, thoroughly as Lobelia does the stomach. 3d. Functional Harmony is secured to the secreting vessels of all the organs and glands in the system.

4th. Purification and equalization of the circu-

lation of the blood.

5th. The properties of these Pills communicate a nutritious principle to the blood and reparative

secretions

6th. A great want is supplied in their soothing, healing and expulsive power in cases of intestinal ulceration, as in Eruptive Fevers, where a cure depends upon free evacuations.

7th. The aged and persons suffering from paralysis of the bowels, by the use of one pill per day, secures require it.

cures regularity.

Persons suffering with any disturbance of the secretary organs, or that have difficulty in disharging the contents of the bowels, or that are in the habi: of taking Pills or opening medicines, should try one box of these truly excellent Pills. The happiness of their effects on the system, and the satisfactory evidence one box will give you of their wonderful curative powers, will convince you that your faith and trust in them will become firmly established.

REGULATING PILLS.

A newly discovered principle in vegetable medication is securred in Radway's Regulating Pill, that places them far in ad ance of all other Pill, that places them far in ad ance of all other Purgative or Cathartic, Aparient or Sodative, and Anti-Bilious Medicine. They are the only vegetable substitute for Calomel or mercury known; the only Medicine that, during their process of purging, imparts nutriment to the debilitated system, and strengh, vigor and purity to the blood, and impaired secretions; the only purgative that will cleaner the Alimentary Canal and obstructed intestine as quickly and thoroughly, without weakening or neauscating the paand obstructed intestine as quickly and thoroughly, without weakening or neauscating the patient, as Lobelia (the most active and thorough emetic of the herbist) will the stomach, and the only purgative at present known safe to administer in case of Small Pox, Yellow Fever, Erysipelas, and other Malignant Fevers, that inflame and ulcerate the mucuous membranes of the Bornels Stometh for Bowels, Stomach, &c.

THE PROPERTIES OF DR. RADWAY'S PILLS.
They equalize the circulation, Purify the Blood, and Purge Corrupt and Aerimonious Humors,

and retained deposits from the system in six hours.
AS A CATHARTIC, the increase, when sus-

pended, the peroitaltic movement of the bowels, and promote a quick evacuation of its contents. Their influence is extended throughout the system, purging the retained deposits in the stomach, into the duodenum, stimulating the secretory, ducts of the pancreas and liver, in the promotion and increase of the flow of bile and pancreatic fluids.

PURGATIVES of common aloes exert their action on the colon and rectum by irritation of the mucuos membrane, without influencing the liver or its secretions. Such catharties are unsafe in pills for general use. The common Cathertic Pills, that induce drastic liquid discharges, should never be given in cases of inflammation, or when there is ulceration of the intestinal canal.
