ARGENTINE MINISTERS ABROAD. The nomination of General Panero, as Argentine Minister to the Court of San Cristobal, has electrified our political world.

For us there is a very deep significance in this appointment, and we gather from the new policy the decline of soldiering in the Argentine Republic.

There are two large steamers anchored at the bank, which serve as hospitals; these are quite full, but the sick are well attended to.

Although, since the conclusion of the American war, general officers are

Foreign Ministers have come greatly into fashion, and President Sarmiento, in sending General Panero to Rio, but follows the example of the Washington Cabinet.

If such be the real drift of this new policy, the great difficulty which President Sarmiento will find, will arise from the disproportion which exists between the number of Argentine Generals and the limited list of foreign courts.

- Urquiza to Paris. Mitre " London. Gelly " St. Petersburg. Mansilla " Madrid. Zapola " Vienna. E. Mitre " Berlin. Panero " Rio. Pedernera " Constantinople. Madarriga " Florence. Rojo " Brussels. Navarro " Hague. Conesa " Yokohama. Arredondo " Pekin. Rivas " Washington. Vedia " Sandw. Islands. Pacheco " Rome. Hornos " Teheran. Nazar " Berne. Lopez Jordan " Copenhagen. E. Martinez " Stockholm. Taboada " Lisbon.

And then if Congress will allow of resident Ministers to the sister South American States and Mexico, we could manage to strike another dozen from our military list.

No nation on the face of the habitable globe would make a finer show abroad than the Argentine Republic, if President Sarmiento can only carry out his program.

THE WAR IN THE NORTH.

INTENSE HEAT, TERRIBLE STORMS. Sixty-eight soldiers and some thirty persons attached to the army in commercial pursuits have died of cholera.

The weather, the country, the infernal mosquitos, the awful flies, the horrid heat are all excellent allies of Lopez.

There are two large steamers anchored at the bank, which serve as hospitals; these are quite full, but the sick are well attended to.

Notwithstanding however the improved state of the health of the army, at all the river ports the most rigorous quarantine should be established, as the danger is imminent.

All seem to agree that the army cannot remain much longer where it is. A move must be made, but where or how, that's the question.

The commander, on his return, gave a most favourable account of his trip, that the military executions at Tebencras and Berges are both alive and well—that all the Italians in Paraguay are well cared for and comfortable.

When the Arditia returned the Decidido went up, and remains there still, the commander having gone to Lopez's camp.

The late triumph over the Indians on the frontier is still spoken about here, but it is now believed to have been but a small affair; yet, nevertheless, it is looked upon as indicating a better state of things.

The soldiers and officers have all attentively read the Wasburn correspondence. A cavalry picket of about 100 men has just returned from a raiding excursion.

In the providencia department there is ever immense hurry flurry, and the army contractors find it difficult to keep up with the requirements.

It is more than probable when Rivas advances along the Chaco and occupies Asuncion, then the present position of Lopez will be untenable.

The weather, the country, the infernal mosquitos, the awful flies, the horrid heat are all excellent allies of Lopez.

LETTERS FROM CORDOBA.

Codoba, Oct. 1868. The National Government has ordered the release under fine of the political prisoners.

"El Progreso" quoting from the "Capital del Rosario" says, respecting the latest news from Corrientes, Gen. Don Emilio Mitre is in full retreat.

IMPORTANT CONCESSION.

The National Government has completed a contract with the Sores Rojo, by which these gentlemen bind themselves to construct a high road between the city of Cordoba and Los Papagayos.

THE CHOLERA.

The municipality are taking active and energetic measures to guard against any epidemic which may

when the hot weather sets in, be brought down to or from the army. A commission has been formed whose business it will be to visit Buenos Ayres, and examine and report on the best and most efficacious preventatives and remedies to be used in such cases.

GRAND CENTRAL RAILWAY. Dr. Garcia has been authorised by the National Government to appropriate 100,000 metres of land to the construction of the station in the city of the Grand Central Railway.

THE INDIANS. The late triumph over the Indians on the frontier is still spoken about here, but it is now believed to have been but a small affair; yet, nevertheless, it is looked upon as indicating a better state of things.

Some there are who, while listening to music, quizzing passers-by or admiring the female productions of Rosario, like to promenade, others prefer going through the same operation in a sitting posture.

Both native papers have lately been advocating the formation of a Provincial Bank, indeed they say it is absolutely necessary.

There is but one way says the 'Eco', to preserve peace between Santa Fe and Cordoba, and that is, to insist at once on the Santa Fe government replacing this law assasin.

On Tuesday 6th instant the employees of the Central Argentine Railway Co., presented Mr Ogilvie, with a handsome gold watch and chain.

On Tuesday 6th instant the employees of the Central Argentine Railway Co., presented Mr Ogilvie, with a handsome gold watch and chain.

Prior to his departure, which took place on the 9th inst., Mr Ogilvie had a gold watch and chain presented to him by a number of employees of the company.

EDITOR'S TABLE.

The new wool is now beginning to come in pretty fast. We notice that it all comes by rail, and buyers are beginning to appreciate the great convenience of railway depots for the receipt of wool.

An American long resident in the Plate, and who has just returned from his travels, calls our attention to the truly awful state of the street and road about the Barracas Bridge.

Yesterday morning the city was visited with a terrible squall. As it took place before daylight, few people save editors and printers knew anything about it, but the squall was terrific.

We notice with pleasure the advertisement of that distinguished practitioner Dr. Fink. One cannot take too many precautions against that direful pest, the small pox, and within one month from this we expect to hear

lives ineffaceably in many a grateful heart. Of your abilities as a manager it would ill become us to speak; but we cannot but sympathize with your difficulties in conducting a new line of Railway, in a foreign country.

SARSAPARILLIAN, AND ITS ASSOCIATES.

POWERFUL CURE FOR ALL DISEASES. Prepared under a Newly-Discovered Process for Extracting the Curative Properties from Vegetable Substances, enters into the Composition of DR. R. D. W. A. Y. S. R E S O L V E N T.

A NEW PRINCIPLE DISCOVERED. One Bottle of Resolvent is better than ten large bottles of the advertised Sarsaparilla, or direct Diuretic Remedies.

Physicians wonder at the extraordinary power of Resolvent in curing the most obstinate forms of Scrophulous, Syphilitic, Chronic Skin Diseases, and its marvellous power in resolving calcareous concretions, affording immediate relief in the most distressing cases of the Kidney, Bladder, Liver, Lungs, Pancreas, Spleen, &c.

Sarsaparillian is only one of the ingredients that forms this truly wonderful medicine; and it is the only compensating remedy that comminates the purifying, clearing, and resolving properties through the Blood, Sweat, Urine, and other secretions, securing a harmonious functional action of every depraved organ and gland in the system.

Bear in mind that every drop of blood impregnated with the Resolvent and absorbed to supply the waste of the body, will make pure, sound, and healthy flesh and fibre.

THE GREAT REMEDY FOR HOME PURPOSES. Taken Internally—Half a Teaspoonful diluted in Water, is a pleasant Drink—stimulating and strengthening.

Applied Externally—When there is Pain or Inflammation, affords instant ease.

Radway's Ready Relief IN ITS SIMPLICITY AND GRANDEUR.

We will first consider in its capacity as a specialty our far-famed remedy Radway's Ready Relief, symbolized throughout the civilized world under the significant emblem of the Lion.

Its use in Asiatic Cholera, either as preventive or cure, is of more value to the world than all other discoveries of the age.

It instantly secures rest, stops the Cramps and Spasms, and holds the constituents of the blood together, equalizing the circulation, and preventing the escape of the watery constituent from the other portions of the blood, and arrests vomiting and purging.

In Rheumatism, Neuralgia, Gout, Tic Dolorosus, Sore Throat, Diphtheria, Influenza, in all cases of inflammation, the Ready Relief, assisted when required with its Resolvent and Pills, will afford a cure.

In Fever, and Ague, Typhoid, Bilious, Scarlet and other Fevers, its use will always insure a cure.

Official registration has been entered in the Register of the Republic in accordance with the existing laws of this Republic.

SAVINGS BANK. BANK MAU & CO. 101-Cangallo-103. BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mau & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mau & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has

thousand dollars silver, the depositor, if he wishes can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book he can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.
