THE MAIN PIPES for the supply of perfectly pure filtered water are now laid in the Calles Libertad, Lima, Rivadavia, Bolivar, Florida, and pa t of Santa Fé, and Tator will be supplied to the houses of the persons living in those streets,

It is as yet difficult to estimate with certainty

the amount, but as a general rule it will not exceed \$400 mpc. for a single cock in the first patio, to \$3,500 for a complete supply all through the house. For manufactures and special establishments of all kinds, the price will be according to agree-

Marquis de Caxias has been received with marked coolness both by the Emperor and by the public.

A gentleman of considerable influence in the commercial circles endeavoured to induce the Bolsa to make a demonstration in favour of the Marquis, but his proposal met with such a frigid reception that he was obliged to give it ap.

Another attempt was also made to organise an open air demonstration in one of the public squares, which also found so little support that it fell inst.

General Argolo is still an invalid, not so much from the effects of his wounds as from an attack of dysentery, which has bitherto defied all cure.

Admiral Ignacio Baron Inhauma is given over by the doctors. What Marquis de Caxias is greatly

criticised for is having brought away with 6,000 good sheep, sold to Mr. with him all his staff, and particularly the greatest portion of the medical staff of the Brazilian army.

His not having stopped in Buenos Ayres but gone to Montevideo, is also much censured.
