gentlemen may ask, Why did you make the capital £50,000? Well, it is always wise in starting a company not to starve it with too small a capital; and beyond that, it is difficult to get a quotation for companies on the Stock Exchange when the capital is less than £50,000.

TEMPERATURE. Monday, 2 P.M. Fahrenheit, 60. ON CHANGE. June 16, 1869. Ounces 490, Sovereigns 122, Patagonas 25, National Bonds 58 3/4.

There was a very nervous feeling in the Bond market to-day—prices opened cash at 57 1/2; and although the market had a tendency to rise, were forced up by the bulls closing at 58 3/4.

Money was much looked for to-day by Bond speculators, and some large sums were taken up at 1 1/2 per cent. per annum, with the Bonds at a valuation of 40; but there is a growing dislike to advance more on Bonds, although in fact it is the most convenient way of investing money at present.
