LIVER COMPLAINT. Among civilised mankind there is no complaint so prevalent as the above, late medical statistics showing that fully one-half of nearly all the communities are to a greater or less degree afficted with it. Prepared in our own laboratory, under our personal supervision, they insure the unvarying uniformity of operation for which Bristol's Pills have become so justly celebrated. But the powerful anti-bilious properties of these Pills are not their only virtue, they are besides a splendid tonic, a thorough yet safe cathartic, a sure cure for indigestion and dyspepsia; safe for the weakest, yet strong enough for the most robust. FOREIGN PROPERTY.

The case of Day versus Flores, which is now before the Supreme Federal Court, is one of the most important that has ever been brought before that tribunal, and one which interests every foreigner in the country. The facts of this case we gave our readers in our last issue. Hitherto the claims of for reigners for damages caused by civil disturbance have been arranged by a committee named by the Government, and we are at a loss to know why in the present case the British Minister departed from this rule. All the coupons of the foreign debt have been created to liquidate those claims; and to the credit of the Mitre Administration it must be said that every facility was afforded by that Government for

their settlement. It would appear now that a new precedent is sought to be established, and foreigners who have their properties sequestrated or confiscated by the authorities during civil disturbance must for relief; thus eliminating in toto the by the following forts: Guevara or recur to the Supreme Federal Court duties and responsibilities of a foreign

Minister. It is right to remark that the evils of civil war are immensely enhanced, and the guarantees for property less Fletcher, Quinequi, Pichicarwel, Mesened, when impediments are created, dano Jagueles, towards the Pampa. which in a measure go to establish

impapity. The act of treaty celebrated between the Argentine Confederation and Great Britain and Ireland guarantees to British subjects resident in these countries the fullest enjoyment and the most complete protection for property and commerce. Governor Flores of San Juan, the defendant in this suit, to Tapalqueu. pe.petrated a direct and absolute viorily seized and confiscated the pro-

garded as a dead letter.

Day's right to damages or to ex-Governor Flores' liability. The Argentine law passed in September, 1863, expressly provides for the case in question, and points to the personal liability of public men who, in the exercise of authority, intreuch on private rights risoned. and properties. The English and property of the subjects of an enemy. Judge Kent says-

" It property should have been wrongfully taken by the State before the war, and oe in the country at the opening of the war, such property cannot be seized, but must be restored, because to confiscate such property would be for the Government to take advantage of its own wrong." But here in this suit the case is far more flagrant. Declaration of war, there was none. Mr Day could, under no circumstances, be regarded as an enemy: he was simply a foreigner resident in these countries, carrying on trade and business by virtue of a public treaty,-by virtue of the very laws of the land. To protect his property against robbers, he could at least in- who rendered me every assistance in man who was de facto Governor, who line, which has been achieved in a lithad the complete administration of the more than two months.
