ANOTHER CIVIL WAR.

The battle of the tramways is a strife that has just commenced, and threatens to involve the peace, happiness, and convenience of the citizens. Already we have our streets torn up in every direction, and rival lines vieing with each other as to the number of squares they are able to place in the most hopeless and intransitable condition. Calles San Martin, Cangallo, Cuyo, Cerrito, and Florida are at this moment hors de combat,' aud, at the rate things are going on, half the streets in town will be impassable in another fortnight, for no later than yesterday rails were thrown along Calles Tucuman, Reconquista, Temple, and Artes; in fact the whole city is this moment one vast buttle-field for contending tramway concession aires. Messrs. La Crosse in Calle Cangallo, and Rodriguez in Calle Cuyo, appear to have stolen a march on their adversaries, and, if the weather keeps fine and the navvies do their work, in all probability we shall have

these two rival Once de Setiembre

lines running in less than a week.

The great inconvenience of tramways in our narrow streets, and running into the very heart of the city, is now beginning to be felt. Yesterday at the corners of Florida and Cuyo there was a most hopeless confusion caused by the bursting of one of Sir John Coghlan's water pipes right at the crossing; the sleepers and tramway rails had to be taken up in order to repair the pipes, whilst long processions of milkmen, bakers, and carts were brought to a stand-still in front of M. Brunet's new house. Again in Calle Cuyo, between Florida and Maipu, some unfortunate house pros prietor is pulling down his premises, and finds himself and his workmen had the same right to live in the land besieged in the very street, owing to where Providence had placed them, the tramway. It seems superfluous to offer any remarks as to the necessity of cheap fares, since owing to the uumber of lines running in the same direction the probabilities are that for one paper dollar the citizens can travel from one end of town to the other, and possibly even to the

suburbs. But the advantages of tramways are now generally admitted. Even in England where the copposition was so steadfast for years, we read that of late in all the cities and towns tramways are being constructed. CROSS-BRED

Messers. GIBSON, BROTHERS,
Of "Los Ingleses." Port and Partido of Ajo,
Beg to cell the attention of Sheepfarmers to
their Cross-bred Rams now on Sale there.

The advantages of this Breed are to increase
the length of the staple and value of the wool,
the size of the carease, and the hardness of the
sheep, including greater freedem from foot ret,
to which the Rambouillet breed is so subject.

The Messers. Gibson have been crossing their
Flexis for the last twelve years with some of the
best English long-woolled sheep, having imported
during this time Romney Marsh (a Kentish
Sheep), Cotawold, Lincoln, Leicester, and Cheviot
Cross, pure 'Cheviot and Shrophire Down
Rams.

From these they now offer for Sale Cross Rams
From superior Mestiza and Rambouillet Cross
In addition to the advantages of the Breed
above enumerated, they would draw attention to

Ewes.

In addition to the advantages of the Breed above enumerated, they would draw attention to the fattening properties of the 'cross' an object of great importance at present, when, owing to the low price of all wool, it is necessary to breed for fat as well as wool. As a proof of the value of the broed in producing fat, they have known instances of capones yielding upwards of 50 lbs. of raw grease and tallow.

From the long time that Messrs. Gibson have been engaged in crossing their flocks with English-bred Rams, it will be evident that nowhere can Sheep Frimers expect to find Cross-bred

can Sheep Firmers expect to find Cross-bred Rams, with so much English blocd, as those they now offer for sale.

For further information apply to Mr. John Smith, 23 Callo Solis, where fleeces of the Cross-Wool may be seen.
