This popular Establishment continues to maintain its well-earned reputation of being the first Photographic and Fine Art Gallery in the River Plate. Its Proprietor, during a recent visit to Europe and North America, has spared no effort or expense to secure the best artistic skill, and the latest and most approved inventions ap, licable to the art.

PHOTO-DRAWINGS.

This new style of picture, introduced by Mr. S. L. Reignolds, of London, makes the finest and most effective style of Portrait known at the present day. Their purity of colouring and delicacy of tone is such, that some of the first English satists have been unable to determine whether they are Photographs, or simply and purely Water Color Drawings. The process is peculiarly applicable to the reproduction and cultargement of Card Photographs, enabling the artist to introduce accessories and backgrounds, change dresses, or alter flaures; and, insfect to make a harmonious portrait, which will be a Picture' on which the eye rests with pleasure, as well as a feithful likeness.

The Establishment is conducted on the latest and most improved principles. The Instruments and Apparatus were selected with personal attention, and are of the modern manufacture, and its Proprietors spare no efforts or expense to give to their customers the most entire satisfaction. It makes a speciality of the beautiful Porcelain Pictures, and they were the first to successfully introduce them into this country; they have met with great success for the past year and ashalf, and still continue daily increasing in popularity. It is the only place where they are to be obtained in perfection. Other Establishments make what they call Porcelain Pictures, but the people of the River Plate are fast learning to apprecise a good stitled.

Pictures from life, or copies from old Carte de Visites, Amtrotypes, and Daguerrotypes, enlarged and painted on Porcelafn, making the most perfect and durable Picture yet introduced in Photography.

THE JORDAN WAR.

It is a rather amusing fact that the Khedive of Entre Rios, Mr. Richard L Jordan, although in the very infancy of a struggle, purely of his own creation, and before firing a shot or breaks ing a lance with Gen. Mitre, is admitted by all to be on his last legs.

Lopez appears to have declared war too soon and begun his revolution too late. Many are of opinion that we, here in Buenos Ayres, know, after all, little of what is going on in Entre Rios; that we see things through the prismatic glasses of the Government Honse; and that when we least exu pect it, some stunning news will come to destroy all our hopes. But what hension of the assassins. ever may be the strength of the enemy, whatever his secret movements, we have the fact before us, which cannot be contradicted. Gen. Mitre with but a handful of men has made his stand in the enemy's country, and Jordan, with all his boasted strength and prestige, has not dared to attack him. A fortnight has now elapsed since the national troops, 600 strong, landed in Gualeguaychu. During that time Jordan could have marched round the whole province and called out the

General Mitre has been reinforced, Parana and Diamante have been occupied and a banner hoisted around which all the Entre Riano chiefs who either fear or hate Jordan can gather. It is really a matter of surprise that an administration such as Mr. Sar-

COST OF LIVING IN FOREIGN CITIES.

A series of reports recently made to the Foreign Office by her Majesty's representatives abroad, in answer to a circular despatch from the Secretary of State making inquiries relating to the organization of the diplomatic service and the effect of change made in the system in force in the establishments; supplies, among other matter, a comparison of the cost of living at the present time and twenty years ago.

Beginning with Paris, we find Mr West, of the embassy to the court reporting that neither a diplomatist ficed in 1850. At that time the cost riage, but with economical habits for be taken at £330 a year, but now at general style of living among the society in which members of the diplois undoubtedly very much more expensive now than it was in 1850.

From Berlin Lord A. Loftus reports

He sends two statements he has obtained. In one, M. de Magnus, Consul-General, says-"I can well recollect when a man worth 100,000 thalers (£15,000) was considered a wealthy man; he is now only just able to maintain himself." M G. Bunsen a member of the Prussian Parliament, writes-"The cost of liv ing shows an increase of about 90 per cent. Lord Bloomfield reports an increase at Vienna of 70 or 80 per cent. in the last twenty years in the cost of living; and Sir A. Buchanan sends a similar report from St Petersburg.

From Stuttgart Mr. Gordon writes that the requirements of society in every branch of luxury have increased, in the last ten years even, very considerably indeed, and most especially since the accession to the throne of influence in this respect undoubtedly makes itself very strongly felt, and has introduced habits of expense and luxury among the native court society of this capital which were previously totally unknown.

It would be tedious to repeat the returns from all the European courts; Lord Bloomfield says that none of the junior members of his embassy can examining a collection of rich metals maintain their position in Vienna soand minerals from Australia, California ciety without largely exceeding their and Chile, in the drug store of our official salary; Sir A. He encloses a letter from Mr. Riggs, banker at Washington, who among the society in which the members of the diplomatic body are in the habit of mixing is much more expensive than it was 15 or 20 years ago. Other returns show that the change is very marked in South America. Mr. Mathew states the cost of living at Rio de Janeiro to be more than double and San Nicolas, with the exception of a few what it was 20 years ago. THE ISLAND OF BIMINI.—The fol-

lowers of Columbus traversed many this fabulous island in which they fancied the Fountain of Eternal Youth existed. One of them discovered, in stead of it, the peninsula of Florida, assured that those who go abroad grassia establishments, and which has given Erom this floral Eden are derived the fragrant basis of the finest perume in the world, viz., Marray & Lanman's It has to a great extent suspended all the once fushionable European perfumes. Nothing of its kind can compete with it in this market.

The immense advantages of Accounts Current we now so generally felt and appreciated in the two great emporiums of the River Plate, Montavideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank will deliver to each depositors a pass book, in which will be entered the amount desposited and withdrawn.

The Benk of Mana & Co. in Montevideo has already provided for the working classes in that city state and profitable depositary for their savings. The sums deposited in that very important in-stitution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enartisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immeral gambling, in lotteries, and other providing

The depositor is permitted at any time to with-draw the whole or part of the sum deposited; in the former case the interes will be calculated up

the former case the interes will be Catedana to date.

The Bank of Mana & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general wolfare.

The Bank of Mana & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.
