HARVEY'S GUNPOWDER.

REPORT OF THE SPECIAL COMMITTEE OF PARLIAMENT.

The superiority of this Gunpowder, especially for military purposes, has just been established, beyond all dispute, by the Report of the Special Committee of the British Parliament, which thus accredits its unequalted abilities:

"The powder first tried by the Committee in the Boxer-Henry Cartridge, and of which they entirely approve, is known as ' Curtis and Harvey, No. 6.' Several other descriptions manufactured at the Government Factory, Waltham Abbey, have also been tried, but have not afforded the same uniform accuracy of shooting.

"There appear to be difficulties, confined, it is believed, to the question of expense, in producing a powder at Eltham Abbey, in all respects equal to 'Curtis and Harvey, No. 6;' but the Committee, keeping in view the importance of maintaining the great accuracy shooting of the Martini Henry Rifle, recommend that no powder should be used for its ammunition that does not give results at least equal to those obtained in the Committee's experiments, whether such powder be obtained from the Government Factory or from the

BETTS CAPSULE PATENT From A. F. Arnot, Esq., Masterton, near Wellington, New Zeahand.

"February 12—I received a large collection of Garden Seeds from you, and it may be some slight attraction to you to know that they have given the screatest satisfaction.

"It is my opinion no ordinary testimonial to a seed merchant that he should despatch to a colony some 16,00 miles distant two or three hundred different kinds of vegetable seeds, which arrive in good condition, and on being proved are found to be of such first-rate quality."

To provent INFRINGEMENTS NOTICE IS HEREBY GIVEN, that BETT'S NAME ON EVERY CAPSULE he makes for the principal morchants in England and France, thus enabling worth the consumer, not only to identify the genuineness of the Capsule, but like wire the contents of the vessel to which it is applied. The Lord Chancellor, in his judgment, said that the Capsules are not used nerely for the purpose of the ornamont, but that they are serviceable in protecting the wine from injury and insuring its genuineness.

To the presence of which invaluable resinolds the extraordinary success of Bristol's Pills may in a great measure be ascribed. It is necessary, however, that the sick should always remember hat in all diseases that have their origin in

the Palis, the two Medicines being prepared expressly to act in harmony together. When this is done faithfully, we have no hesitation in saying that great relief, and, in most cases, a cure, can be guaranteed when the patient is not alrea by beyond human help.
