MAUA BANK,
101—103 CALLE CANGALLO

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of checques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency in which case forty-eight hours' previous notice is required to begiven to the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brasils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 10 a.m till 3 p.m.

MIXTURA PARA TERCIANAS
DE JAYNE,
A CERTAIN AND EFFECTUAL REMEDY
For Fever and Ague, Intermittent and Remittent Fevers, &c.

This class of diseases, so common in all part of the world, and especially prevalent in malarious districts and vicinage of water courses, are almost invariably accompanied by more or less derangement of the liver, and frequently by a defective action of the digestive organs.

The more breaking of the Chill is but a step towards completing a radical cure. The various organs of the body, especially the stomach and liver, must be brought to a healthy and vigorous condition before a permanent cure can be established, and this fact has been specially kept in view by Dr. Jayne in his treatment of these complaints. The use of Jayne's Ague Mixture in conjunction with the Sanative Pills, as prescribed in the directions which accompany each bottle, will not only

Break up the Chills,

But restore the system more particularly the liver and stomach, to a sound condition, and so prevent a relapse of Fever and Ague, by thoroughly

Eradicating the Disease,

And the best evidence of this is the invariable success which has always followed the administration of these remedies, as attested by the certificates published annually in Dr. Jayne's Almanac, and the wide-spread popularity of the Ague Mixture in those districts of the United States, where these diseases, for which it is adapted, most prevail.

All Dr. D. Jayne's Family Medicines are prepared only at 242 Chestnut-street, Philadelphia, and are sold by Druggists everywhere.

It being an admitted fact, that "Money makes money," the object of LA BIENHECHORA could not be better, since it opens a vast Savings Bank for the surplus or savings of the Public, so that, by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband their small means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHORA DEL PLATA—an Argentine Company, whose only investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Annum up to any amount in Weekly, Monthly, or Yearly Instalments.

LOUIS B. BRENNAN,

Consulate
OF THE
North German Confederation,
AT MONTEVIDEO.

All conditions, established by Charter Party which will be exhibited at this Office, 32 Calle Zavalla, Sealed Tenders will be received for contracting the Charter of one or two first-class Vessels, ready to take on board the cargo of the German ship TONI, Captain Kohler, condemned in this Port, consisting of 500 Tons, more or less, Peruvian Guano, and convey same to the Channel for orders, to Hamburg, Rotterdam, or Antwerp.

About one-fifth of said cargo, deposited on shore, is damaged, according to report of Surveyors, named by the Consulate, and the Tenders will have to comply with instructions contained in said Report, exhibited in this Consulate.

The Tenders will have to state rate of freight, the day, when the Vessel will be ready to take cargo, and the number of days she will require for this operation. The cargo will be put alongside the vessel in the Port of Montevideo.

The Tenders will be opened in my Office, and in the presence of the interested parties, on THURSDAY, 7th of September next, at Noon.

DR. RADWAY'S
Perfect
PURGATIVE PILLS,
Perfectly tasteless—Elegantly Coated.

'Materia Medica' contains, in its repertoire, many purgative and cathartic agents that, for ordinary purposes, opens the bowels, and through what is called a 'peristaltic' movement, purges from the alimentory canal the feces, and this is all. Such agents, for the purpose of cure, or removal of any settled cure, are perfectly useless.

Dr. Radway has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purpose of a Purgative, Aperant, Counter-Irritant, Alterative Pill, that can be taken or administered with the absolute certainty of securing thorough evpulsion of all decayed and decomposing element of the human body, and also safe to take in the most malignant of Eruptive Fevers. THE CALDERA MAILS.

LATEST FROM EUROPE.

London, 13th.

In the House of Lords, yesterday, Lord Redesdale contended that if the United States—since the reconciliation of the Southern with the Northern States—persevered in their demand for an indemnity on account of the Alabama claims it would be contrary to every principle of justice. Earl Granville promised that this and every other point which could be urged in favour of this country would be duly urged before the arbitrators.

In the House of Commons some discussion arose with reference to the late sittings of the house, Mr. Whalley, Mr. Graves, and others contending that the practice was detrimental to the transaction of public business. Nothing was done to remedy the grievance.—Mr. Ayrton informed the house that the model of a statue of Cromwell, which has been placed opposite Palace-yard, belonged to a statue that had beeen ordered for Liverpool. Mr. Forster referred to the steps taken to prevent the spread of cholera at the various ports. The motion for going into committee of supply elicited an attack by Mr. Corry on the policy of the Government with relation to the dockyards and the naval service generally. Mr. Goschen replied, contending that the position of the navy was one of which the country might well be proud. At the evening sitting the subject of the traffic in South Sea Islanders was brought forward by Mr. Taylor, who called on Government to take steps to put a stop to the traffic. Mr. Hugessen promised that next session the matter should be fully discussed, and in the meantime Government would not lose sight of it. Mr. Eastwick's motion that an address be presented for permission to British subjects to accept and wear foreign decorations, given as rewards for services to the sick and wounded in war, was carried by a majority of one.

Stowmarket, a thriving little town in the centre of Suffolk, was yesterday the scene of a terrible calamity. Among the other factories in the town are extensive works for the manufacture of gun cotton, owned by a limited liability company, and employing about 180 persons. Owing, it is believed, to the excessive heat of the weather, a frightful explosion occurred yesterday afternoon, followed at short intervals by two others. The latest accounts yet to hand represent that twenty persons have been killed, while the number of wounded was not known. The greater portion of the works are in ruins; the surrounding property has also been extensively damaged, and the shock was felt for miles around. The scenes witnessed in the streets were harrowing in the extreme.

A 'cordial greeting' marked the meeting of the Emperors of Germany and Austria yesterday at the railway station of Usels, Austria. Emperor William intends visiting the Imperial family of Austria.

Negotiations have been opened for the complete evacuation of French territory by the Prussians by the end of the year.

A travelling company of 40 Americans masons arrived at Rome, on foot and after visiting that city proceeded to Naples. Malaria fever was prevalent owing to the excessive heat; all the Ministers and public men had retired to their country-houses. Gasperoni and some other brigands have been set at liberty after 30 years' detention. Mount Vesuvius has begun to throw up stones and lava. Cardinal Bonnechose has arrived at Rome on a mission from Thiers, to protest against the seizure of the French convent of St. Sylvester, where Minister Lanza had installed his offices. Baron Kubeck has resigned the Austrian Legagation at Rome. The Mont Cenis railway will be opened to St. Michel in October.

The trial of French Communists is proceeding. An altercation occurred at Versailles between M. Thiers and Gen. Du Temple, the latter laying violent hands on the aged statesman, until a captain of Chasseurs interfered, knocking down the general. The Assembly is going to declare 3 months' vacation, during which M. Thiers will pay a visit to Algiers. General Faidherbe will probably be named commander-in-chief of that colony. The court-martial at Marseilles has condemned Roux to death and Lombard to 10 years servitude.

Frequent fires have occurred at Moscow in shops and stores, which are supposed to be the work of incendiaries of the socialist or international societies. Several boys have been taken up, who confess having received sums of money to set houses afire.

The building of the new Parliament-house at Berlin progresses, notwithstanding the recent strike among the builders: the hall of the Federal Council is finished. Twelve cases of cholera occurred at Koenigsberg, of which 7 proved fatal. The German residents in Moscow have bought 3 white horses, of the famous Surikoff breed, to present to Prince Bismark.

LATEST TELEGRAMS.

London 19th.

The *Nord Deutsch Zeitung* takes the interview of the Emperors of Germamany and Austria as a guarantee of future friendly relations. Bismark, Beust and Andrassy are expected at Gastein. The Vienna papers think the Roumanian question is at the bottom of the interview.

Geneva 16th.

An attempt was made to drown Napoleon, with cries of 'Death to the man who sold France': the ex-Emperor found refuge in a neighboring hotel.

Madrid 17th.

Cluseret and Cecilia have been seized at New York. Lullier confessed on his trial that he wished to make himself Dictator. Garibaldi is worse; Ricciotti has been telegraphed for to Caprera. The English parliament is prorogued till Monday.

London 18th.

Another project is to be laid before the Assembly with reference to prolonging Thier's powers for three years as President of the Republic. The news from Suwalki, Russia, says the cholera is declining.

Madrid 17th,

At Huesca one of the Communist leaders has been arrested; the authorities are going to hand him over to the French. A society is being formed in Spain against the International. It is said negotiations are broken off between the ex-Queen Isabella and the Duke de Montpensier.

LATEST FROM UNITED STATES.

The enquiry about the Ku-Klux continues; most of the leaders are found to be old slave holders: their signs, passwords, &c, are all discovered, and part of their programme was to burn down houses, churches and schools, besides assassinating their opponents and destroying the crops. Popular indignation against them is very strong. Another enquiry is going on in New York with reference to the recent Irish riots, which have given so much annoyance that the 'Know-nothing' movement is being revived, to refuse all employment to foreigners. Numerous agricultural colonies are being formed along the Pacific Railway in California, and towns and settlements are springing up.

Mexico is temporarily tranquil. Juarez is sure of re-election, although Diaz and Lerdo have united against him. It is not true that diplomatic relations have been renewed with France.

In Cuba the insurrection is virtually crushed. Alvarez, Hernandez and other leaders have been shot. Colonel Hall and others have submitted.

PARIS LETTER.

August 9th.

A general lassitude reigns in the city and exists in the provinces. There is a kind of vague sentiment of common distress. As time rolls on, the nation feels more bitterly the mutilation it has suffered, and burns secretly over a defeat, which is strongly estimated as a shame. Numbers are disgusted with the miserable conflicts of parties, of recurring invasions, and repeated revolutions. They leave, the better to forget, and many depart never to return. Not solitary houses are to be let, but whole streets; the most beautiful apartments furnished with that taste and completeness of which the French alone possess the secret, can be had at present for next to nothing when the prices under the empire are considered. There is a conspicuous absence of posters, usual at this period of the year, of circular tours to Italy and the North. Yet nothing is more calculated to ameliorate French character than travelling, to enable it to see that there are other great nations besides France in the world, and other peoples from whom many lessons can be profitably taken. It is observed also that tourists as a class have never political passions strongly developed. The advertisements from watering places modestly conceal themselves in the retired parts of the journals, and feel out of place on the walls and boardings.

That barometer of public well-being—places of amusement, does not indicate any high readings. The tendency is rather for a fall. Business does not appear to have a lively air. Shops are sadly in want of visitors as well as purchasers. The drapers have tried all the arts of puffing, but have seemingly sown without reaping. Their shop-fronts display more photographs of the edifices destroyed, of the execution of the hostages, of the Archbishop lying in state, all painfully exact, than goods. The sporting season is abou commencing, and the authorities are returning to depositors their fowling pieces. Sporting dogs are coming up to Paris, to exercise their skill in the suburbs; even they seem to find everything changed.

Provisions are plentiful but dear. Vegetables are very high priced, for Paris has few market gardens this season. Peaches and apricots are excellent and cheap, despite frosts, caterpillars and the Prussians. Grapes are being sold in the streets, as green as grass, and it would be a mercy to compel vendors to supply purchasers with a cholera mixture at the same time. Our old friends, the snails, have appeared, and are served like 'taties, 'all hot,' hissing in their shells, prepared with sweet herbs. It is a little too early for the coster-mongers to trundle these univalves about the streets in carts, where the crawling capabilities of the 'inland oyster,' constitute the test of freshness from the beds. Meat of every kind is dear, and will continue so, till the channels of communication are repaired. Why does America not ship us bacon, cheese, and beef, and other countries preserved food? These commodities had gained a footing in Parisian households. Condensed milk commands a place, and some dairy-men have become positive artists in working this preparation up, by the help of the pump, and selling it as a morning and evening arrival from the country. It is but just to state that the babies of Paris never looked more plump or blooming, and infantile maladies are rare. The sardine fisheries are not good this year—it is said that the bait forwarded from America has not been sound. As a breakfast campaign opens generally with only one sprat, diminished supplies cannot be sensibly felt.

For the benefit of acrobats, barrel-organ grinders, hurdy-gurdians, and mountebanks in general, on arriving in France they must, in addition to a passport, have a special permit on passing into a new department. For native 'artistes' the regulations are still more stringent: quite an awful process has to be gone through before a giant or a dwarf, a pretty mermaid, or a double-headed calf can change hands or be allowed to astonish the natives. Who knows but Felix Pyat might be among the strollers—or some of Bismarck's people, taking notes for the future? The enemy assumes as many shapes as Proteus himself.

A Prussian cattle dealer experienced the benefit of the treaty of Versailles by having to run for his life on being recognised on the boulevards. Some Prussian officers, on entering the city gates yesterday in mufti, were nearly stoned to death by the gamins, and the policeman who went to rescue them had suddenly all the firing concentrated on him, and lies for dead.

When will the Assembly give the nation the project for the reorganization of the army? It is not men that France is in want of to constitute an army, but to imbue them with ideas of practical science, forethought, and that organization which will make each man feel he is an important part in the whole machine. It has taken Germany since Jena to educate up to her present supremacy. What time will France require to gird up her loins for her revenge?

There is but little satisfaction felt at the arrangement for the French and German soldiery to mutually salute. The French soldier is respectful by instinct, but diminishes his courtesy when defeated. In ordinary times he has always a weakness not to salute his corporal. In the style—a Paddy-go-easy affair—of saluting his superior officers, the French soldier is far behind the German; the latter becomes as rigid as the statue of Hermione. I never witnessed greater, more chivalrous courtesy than that between French and German officers, as either side belonged to the wounded.

One Communist was tried this week and sentenced to five years imprisonment, for usurping the office of Commissary of Police. Among the first of his acts was to appropriate the carriage of the late Archbishop of Paris, and pay a visit of contempt to his wife, from whom he was separated. He never before rode a horse in his life, but this did not prevent him from getting daily into the saddle, and displaying his jack-boots and gold-lace to his neighbors. On one occasion this John Gilpin nearly made a forced ride to Versailles: in a moment of forgetfulness he used the spurs.

The number of decorations worn in Paris is surprising. There seems to be a mania for displaying a morsel of ribbon in a button-hole. Besides the Legion of Honor, there is the Star of the Brave for all who mounted guard on the ramparts, and the distinction for the 'honor of having taken part in the sortie.' To end the matter, it has been suggested to decorate everybody.

ROSARIO.

(From our own Correspondent.)

Sept. 8.

The sessions of the Provincial Legislature have been extended in order to discuss various projects, the most important of which are the following:

The Budget.

A contract with Mr. Percy Huertley for a railroad between Santa Fe and Rosario.

A law on burial grounds.

A law authorizing the Municipality of Santa Fe to emit bonds to the amount of 20,000 hard dollars.

Another law presented by Mr. Cabal, fixing the value of Bolivian money, and some dozen more on uninteresting subjects. No mention is made of the project to entice the Buenos Ayres Bank to establish a branch in this province. This seems to indicate that the government still cling to the idea of a state bank; but I very much fear that Mr. Minister Velez has made it impossible to place a loan for any object on the London market.

You are aware probably that a London house took the one million sterling loan for the purpose of a state bank in this province, and that Congress has not yet given its sanction. Any province has power to negotiate a loan, but it cannot establish a bank of emission without leave from the National Congress.

The Governor will not leave the capital until the Legislature be definitively closed. He will then make a visit to this department, where his presence may be useful.

The question of the day in Rosario is the religious controversy between the Catholic Rector, Mr. Piñero, and a party composed of Catholics and Protestants, headed by the Rev. Mr. Woods, president also of the society for the prevention of cruelty to animals, who desire to get up a free school on the North American system.

Mr. Woods is a warm and talented missionary, and the extraordinary facility with which he speaks the Spanish language, and the sermons which he preaches in that language have alarmed the Catholicity of our clergy, headed by Mr. Piñero, a very clever and erudite scholar.

Canonigo Piñero bases all his arguments on the following *dictum*:—

"There is no analogy between the United States and the Argentine Republic, as in one country there is no state religion and in the other there is; ergo, no one in this country, who is not a Catholic, has a right to preach to, or teach the inhabitants that profess the state religion."

The opposite party, denying any intention of proseltyizing, argue that the constitution gives every inhabitant of the country the right to exercise his religion, and teach and be taught.

'Tis a pretty question as it stands, but really we could wish that clever men would put their talents to some use, and not waste them on subjects that all thoughtful and good men wish to see banished from public discussion.

If Canonigo Piñero, instead of wasting two or three days in writing a long theological document to prove that he is right, and the constitution wrong, had put on his hat and walked round the outskirts of the town, he would have found out plenty of his 'faithful' who have never received in their lives one single lesson in morality, which, he must acknowledge, is the corner stone of all religions. And if the gentlemen of the 'Opinion' instead of taking up the glove so gallantly thrown down by the Rev. Padre, were to turn their pens to the more useful purpose of writing on commerce, railways, roads, mines, etc., the public would be benefited thereby.

The project of the railway to Santa Fé is published. The track is to be the narrow gauge, one metre; the capital to be eight hundred thousand pounds; and the road to be finished in four years. The rails are to be of steel. The Government is to guarantee the interest of seven per cent., or six thousand five hundred pounds sterling per mile for the period of twenty-five years, and exemption of duties on all materials during the period of forty years. The concession is also asked of half a league of land on either side of the road.

There appears to be an inconsistency between the amount of the capital of the Company and the estimated cost per mile for the guarantee. The distance is about ninety miles, which would be nine thousand pounds per mile, while a guarantee is asked on six thousand five hundred pounds per mile, which for a narrow gauge road appears to be a very high figure of itself.

The road, of course, would not pay for a number of years, for the river would present always a very formidable competition, and it strikes me a seven per cent guarantee would be much better employed in opening up the interior, where the advantage of riverine facilities do not exist.

According to a Tucuman paper, the productions of that Province that may be termed commercial objects are as follows—

150,000 arr sugar,	value	$375,000
25,000 barrels rum,		375,000
200,000 arr tobacco,		300,000
50,000 tanned hides,		275,000
12,000 various hides,		48,000
95,000 arr rice,		75,000
10,000 saddle cloths,		50,000
Total,		$1,498,000

Besides which immense quantities of timber, maize wheat, sweet potatoes, oranges, &c. are produced. Tucuman may well be called the Garden of S. America.

The Committee of the Cordoba Legislature has advised the acceptance of Mr. Thomas Thomas's proposal for the construction of a railway from that city to the foot of the mountains, to the marble and limestone quarries.

It is rumored that the Cordoba Government has succeeded in making a loan of ten millions of dollars for the purpose of establishing a State Bank

The barque Charlotte has been despatched for England with—

5,694 salted hides.
15,000 caracues.
37 bordalesss tallow.
100 pipes do.

The commerce of Rosario has by no means weathered the crisis that threatened to overwhelm us after the Entre Riano war and the fever. The business done is transacted with fear and trembling, and as for the banks, their business is limited to transactions of undoubted security. Still it would be difficult to say where the dangerlies, The Custom House is doing a good business; large amounts of goods are despatched; but we notice everywhere a sordid spirit, economy, and suspicion, that indicate a general 'mal estar,' as the Spaniards say. House rent is comparatively low, and no lack of empty houses. I have not heard of a sale of land for an age, although there are plenty of sellers. The only land speculations I have heard of lately are in the colonies of Bernstadt and Carcarañá, and of course they must be on a limited scale. By the by, I have just heard of a sale of farming land at the first point, at 30 patacons the cuadra. If this be true, it offers an example of unprecedented rise in the value of lands; two or three years ago they were not worth more than ten. This is of course due to the flourishing colony there. Lands in Carcarañá have also risen greatly in value, as also in the colonies of Mr. Cullen and Mr. Casado.

The Foreign Club opened under the Presidency of the English Consul, Mr. Joel. The rooms presented a very handsome appearance, in fact, superior to that of Buenos Ayres. There are Library, Reading and Reception rooms, a card room and supper room, a Bar and a Billiard Saloon. All were brilliantly lighted up with gas, and about fifty members attended. The Reading room is very well supplied with foreign and native papers, and the whole house is quite elegantly furnished. What is still more satisfactory, I am told by one of the Directory that the Club commences without a shilling of debt.

It appears that there are two projects for a railway between Rosario and Santa Fé. That of which I have given the headings is presented by Galarraga and Co. The one presented by Mr. Huertley differs from the other by asking seven per cent guarantee on seven thousand pounds per mile, and a concession of 50 square leagues of land in the southern part of the Department of Rosario.

The weather is still dry and warm, with cold nights. The leaves of the peach trees are springing forth, so we may say that spring has set in.

Yours, &c.,

LATEST FROM CORRIENTES.

Land of Nandubay and other wood—
Land without mountain, but with
Plenty of mud—
Land of lawyers and Italian
Organ-grinders—
What mortal hand
Could *not* untie the no-matter-what bond
That nets me to this wretched land?

The city of 'San Juan de Vera de las Siete Corrientes,' situated on the banks of the majestic Paraná, and surrounded on all sides by muddy 'pantanos,' is again the same old three-and-fourpence as ever.

Judging by my last correspondence, you may form a very fair opinion of what it was then, what it is now, and what it will be for 'secula seculorum.'

I suppose, Messrs. Editors, you know that the yellow fever—that never-to-be-forgotten horrible scourge of mankind—after nearly an eight months' visit, left us completely some months ago; but to tell you the truth, and nothing but the truth, by —— we all expect a second visit of Yellow Jack when summer sets in.

The Municipality, your favourite Corporation, has done nothing whatsoever to cleanse the town. True it is that it issued an 'ordenanza' ordering all the houses in the city to be thoroughly whitewashed immediately, but half the people have not as yet obeyed the mighty 'ordenanza,' including the Municipality itself and the Government. Some, in place of whitewashing, as ordered, actually blue and green-washed.

Business is going ahead; there are plenty of ships in the port, but it has not rained in this quarter of the globe for the last three months, so we are suffering from a fearful 'seca,' and all the crops are totally dried up.

The only quinta in town that can boast of having vegetables in it is that of the National College. I have seen in it a splendid crop of potatoes and Havannah tobacco.

The mosquitos are returning already; and, though it is commonly said swallows are the sign of summer, I say that the coming of these innocent little insects, which take away and leave you nothing but the pain of their sting, is the real sign of summer.

The rumor about a revolution in some of the departments was a mere 'bola,' and got up, I believe, for a purpose.

The elections for Governor of the Province will take place in the month of November next. The 'Partido de los Liberales puros' has for its candidate the well-known Dr. Justo, but the opposition party does not intend to proclaim any candidate until the day when every citizen will come forward and give his vote for the man who in his conscience is the best to govern the Province of Corrientes; and when that day does come when every man is bound to do his duty, there will be a mighty struggle between both contending parties, a struggle which I do not intend witnessing.

Mr. William A. Fitzsimon, Professor in the National College here, has lately written a little work named 'Curso Elemental del Idioma Ingles,' and I understand that the Provincial Government has taken a large number of copies, and that it is the intention of the National Government to take a considerable number of same, and also to declare it text-book in all the Colleges and Universities of the Republic. The steamers come and go very irregularly here: for example, last week none at all came, whereas this week no less than four have come all together. The respective companies, consulting their own interests, should immediately put an end to this nuisance.

I suppose, Messrs. Editors, that you heard all about the battle of Naseuza, 'ergo' I shall say nothing about it more than that Governor Baibiene came back to us as a Colonel of the Nation, and with his fine intellectual-looking head groaning under the weight of his well-won laurels. Suffice it to say, that H.E. saved not alone the Province, but the whole Republic.

I will just give you an idea of the different prices of articles in the market at present, and by them you can easily imagine what it costs a person to live in Corrientes:

Sugar, refined, $1 5s. per ar.
Flour, 2s 2d per do.
Fideos, $1 per box.
Rice, 18s per fan.
Beef, 5s per ar.
Common grease candles, $1 per do.
Mutton not to be had at any price.
Thin buck goats, 16s each, very plentiful, but impossible to be eaten.
Bacon, 2s 6d per lb.
A tall hat, $2.
A frock coat, $8.
Trowsers and vest, $3 15s.
To get a tooth drawn out, $1.
Hair-cutting, 3s 6d per head.
Sherry wine, very bad, $4 6s per doz.
French do, that certainly never saw France, $3 per bordales.
Common day shirts, $7 per doz.
"Pigs through the country by the hundred do range,
And though they are thin they are thick with the mange."

Our first Justice of the Peace is a little man with one eye, who carries on a flourishing business as tinker; our second being a fellow about six feet high, with two of the queerest looking legs I ever saw in all my life.

I met a colonel's lady the other day and asked her if her 'caro mitad' had as yet arrived in town, and her answer to me was, that he came in every Sunday; having, she added, to attend to a cock-fighting pit of his, else the 'capitaz' would cheat him out of the cocks' fees.

Yours truly.

MANDIOCA.

LANUS RACES.

SECOND DAY.

Stewards:

Captain Christian,	A. H. Coaker,
J. T. Elliot,	E. Glover,
L. J. Isaac,	W. Kemble,
Frank Parish,	R. Von Strahlenau,
W. W. Welchman,	A. W. Smith, Esq.

The ill-advised selection of a Saturday was made apparent by the meagre attendance, a marked contrast to the previous day, and it is to be hoped this mistake will not be made in future. The card had only two events on it closed, the first race, the Merchant's Cup, for which Mr. Latham's Fairy Queen, owner up, and Mr. Barclay's Douglas, Mr. Moore, coming off about 1. Toujours Pret's rider was ready to go to scale, but the horse not getting into the enclosure in time, the race was run without him. Odds were laid on the mare, for which it looked a certainty, and past the Stand and round the top turn she was pulling double, Mr. Latham's tactics being evidently to make a waiting race of it. As they rounded the White House turn she ran up to Douglas as if he were standing still, and then a moment afterwards descending the dip, to the surprise of all she suddenly dropped back, and her jockey was seen to be riding her. From this point it was all one way, Douglas winning easily by three or four lengths. Fairy Queen's defeat can only be accounted for by her having shown symptoms after the race of being a little off, by which her temper was no doubt affected. Her defeat, amongst judges, was in no way a disgrace, and Mr. J. R. Lanus purchased this fine, slashing mare ten minutes after the race at a long price, as a mate for his thorough-bred Nil Desperandum.

The crack hurdle racer of the Province frightened away his opponents in the Tally Ho Stakes, for which he walked over; and two matches concluded a short afternoon's sport. By 4 o'clock the gay flags were taken down, scales, bell, and other appurtenances cleared away, and the first Lanus meeting was a thing of the past. We hear that on the Sunday there were a few native matches for small amounts among the 'paisanos' who had stopped near the course after the regular meeting had concluded the previous evening, resulting of course in the inevitable disputes and squabbles inseparable from such so-called sport.

It should be mentioned that on Saturday the protest against Duende was withdrawn in the most courteous manner by Captain Christian, so soon as he was informed that the Club rules had inadvertently omitted to state that penalties were to be carried for compromised matches. This oversight should be corrected in future, as Mr. Casares started his horse under the impression that no penalty was attached, he having previously taken the opinion of the Clerk of the Course, who, whilst stating it was a matter for the Stewards to decide, told Mr. C. that he believed under the circumstances the extra weight would not have to be carried; hence the mistake.

The great liberality and kind assistance of Don Anacharsis Lanus, who has aided the young club in every way, has earned the gratitude of all who participated in the sport; and the services volunteered and rendered at the scales, telegraph, and gates by Messrs, Forrest, Greenwood, Hugh

Wilson, Rich, and Donner alone enabled the Clerk of the Course to get through his duties.

EDITOR'S TABLE.

The steamship Caldera, of the Pacific and West Coast line, arrived at Montevideo on Saturday, and her mails were delivered here on Sunday. The latest dates of the Caldera are to the 19th ult. from Lisbon, but there is little or nothing to add to the intelligence by the Neva. The commercial advices continue favorable: the Argentine (Varela) loan is still increasing in value, and is now quoted at five to six premium. The only news of a disquieting nature is Russian ill-feeling towards Austria and England, and the enormous war preparations being carried out by order of the Muscovite Government, which continues on the most friendly terms with the Cabinet of Berlin. Extracts from the latest European papers will be found in another column.

The royal mail steamer Neva will sail for Southampton next Thursday. Our Packet Edition will appear to-morrow at noon.

The suburbs were crowded with pleasure seekers on Sunday, which was a charming day. The railways and tramways had an enormous traffic. The Bois de Palermo is now the chosen holiday rendezvous of the 'upper ten,' and on Sunday last presented a very animated and attractive scene; all the elegant equipages in town were to be seen there. A rather awkward accident occurred to a carriage occupied by two Porteña ladies. Another vehicle drove suddenly against it while drawn up in the Row, upsetting it, but fortunately inflicting no greater harm on the fair occupants than an unpleasant fright.

The auction sale of lands at San Martin on Friday was a great success. The plots soldwere nearly a mile from the railway station, yet fetched 24,000 currency per square—a very high figure, considering the situation, and the fact that last year they were purchased for a sixth of the sum. There is every day an increasing demand for building lots near the station at this charming village.

The London Correspondents of the leading provincial home papers lay stress on the fact that in the clubs of all political hues, in the streets, on 'Change, and in the 'salons' of the highest life, the possibility of a republican form of government being established in Great Britain at no distant day is openly and warmly discussed. The *Times* has been very severe lately on the persistent manner in which her Majesty the Queen still holds aloof from public life.

The *Jewish Chronicle* of July 14 contains an interesting account of the laying of the foundation stone of a new synagogue and school in Belfast on the 7th of that month. The synagogue, school, and minister's residence is being erected at the sole expense of the generous president of the congregation, Mr. Jaffé, according to the plans of Mr N. S. Joseph, of London.

Count Sarsfieldkoff, our Bismarckian Minister of the Interior, continues to treat Congress and the public with characteristic airiness. During the debate on the National Bank project in the Senate on Saturday, the Count had some interesting parliamentary 'falls' with Srs Quintana, Oroño, Bazan, etc. H.E. came down to the House prepar to do battle for 'four National Banks' in as many favored provinces—Buenos Ayres excepted, as it already possesses a very flourishing banking institution. As for the capital, Villa Maria, the Count admitted that a bank in the moon would have a better chance of paying, and said that Art. 1 should not pass. Senator Oroño asked for fair play for all the provinces; all were entitled to and able to sustain banks as proposed. If the Chambers wished to fix the head office in any particular city, the Committee would consider it; but it was a constitutional question whether the Directory should not have its legal residence wherever the national authorities were located. Count Sarsfieldkoff asked the Hon. Senator what he meant by his last observation. Was it that the Government intended to meddle with the affairs of the Bank, or was so chronically 'hard up' that it required to have financial facilities always at its elbow? By constructing the railways on the narrow gauge principle four millions might be saved from the loan, and eight banks established instead of four; the provinces were rich, not poor, as Senator Benitez had insinuated. Senator Oroño replied that there would be the d—l to pay in the provinces if only eight banks were established, though the proposal was stamped with the generosity that so preeminently distinguishes the Minister of the Interior. In reply to some remarks by Senator Bazan, the Count said that he would not undertake the task of resolving the doubts experienced by the Hon. Senator. After some further discussion, Art. 1. was passed. Count S. immediately put on his 'castor,' and, confessing himself beaten, left the House. We must really henceforth disown the Minister of the Interior as a countryman: no true Irishman ever knows when he is beaten, so cannot confess defeat.

There are a number of false $10 currency bills in circulation, mostly of the old pattern.

A rural society, with the title of Hispano-Argentine Rural Society, is about to be established in Asuncion.

Tremendous excitement has been caused in Corumbá lately by the announcement that 1000 Bolivian troops, under Morales, were marching on the place. The rumor is probably a pure invention.

The members of the Amateur Race Club met at dinner on Saturday evening at Watson's Casino, Calle San Martin, to celebrate their first Race Meeting which had come off so successfully at Lanuz on the previous day. We were glad to perceive amongst those present many turf patrons from distant parts, showing that the love for genuine and legitimate sport is still strong amongst the English in the Plate. 'Mine host' had 'carte blanche' and excelled himself in producing a recherche dinner, to which about 35 members of the club and some invited guests sat down at ½ past 7 o'clock. The chair was occupied by Captain Christian, one of the Stewards. The usual loyal toasts, the Queen, Royal Family, and the Army and Navy were drunk with all the honours, as also the health of Governor Castro with great enthusiasm. The healths of the Chairman, the Hon.Sec., Mr. Lee-Smith, Mr. Welshman, Mr. Lowe, the gentlemen riders and others were proposed and responded to with the greatest cordiality, the Ladies and the STANDARD coming last, in accordance with the time honoured custom which has established a post-prandial 'entente cordiale' between the fair sex and the Fourth Estate, on the 'bonne bouche' principle. During the evening several charming songs were sung, "John Peel" by Mr. Gardom, "Her bright smile haunts me still" by Mr. Lewis, and others by Dr. Greenfield, Mr. Callander, &c. The party broke up about 11 o'clock after a most enjoyable evening.

A project to authorize the Municipality to build a Lazzaretto for patients of both sexes, to cost five millions currency, is before the Provincial Chambers. We should advise the Municipality to first get the five millions. Hare soup without hare is generally a failure.

It is said that the Provincial Government contemplates a loan of forty millions currency in bonds, to pay off its debt to the Provincial Bank.

The 'dejeuner' on board the splendid steamer Po on Friday passed off 'a merveille.' The river was so low that the guests had to go out in carts to the Cisne, which took them on board the Po. When the guests had been shown over this splendid steamer by her courteous commander and officers —who all speak English and Spanish —breakfast was served in the grand saloon, Mr. Llavallol taking the chair. 'The feast of reason and the flow of soul' lasted till 4 o'clock, when the party sailed for the mole, delighted with the day's enjoyment.

Considerable hubbub is now going on in Cordoba about the Caja de Depositos there. The Government, the Finance Minister, its own Board of Directors, and Lord knows how many more officials, have all been lately engaged in 'inspecting' this remarkable strong box. The result of such promiscuous inspection is not yet known, but a report of 'nothing in it' is considered not improbable.

In reference to a paragraph in our city article of Sunday, announcing that the *Weekly Telegraph* would in future be carried on by a joint stock company, we are requested to state that no change in the ownership of that paper has as yet taken place, nor will there be any until the shares are all subscribed for, and the intended company regularly formed. We may state that we took the substance of our remarks on Sunday from the *Telegraph* itself.

The heat in the States this summer is something terrific. Sunday, the 16th of July, was (up to that time at least), the hottest day of this summer in the United States. On that day the thermometer at St. Louis, Missouri, is said to have marked 105 degrees, and at Denver, Colorado, 110 degrees in the shade—the greatest heat ever known in Colorado. The official weather returns issued daily by the War-Office Signal Service show the great range of temperature in the extensive territory of the United States. At 11.47 p.m., on the 15th of July the thermometer marked 85 degrees, at Charleston, 81, at St. Louis, 84, at Corinne, Utah; but only 69 at Buffalo, New York, and only 61 at Portland, Maine.

A joint commission is now sitting in Hayti, composed of two Englishmen and two Haytians, to assess the indemnity to be paid to English subjects for injuries sustained by them during the late war. At the request of the Brazilian government a similar commission will be named, to consider the claims of Brazilian subjects for like compensation.

Another ten days grace has been allowed at the Patente office; licences can be taken out till the 20th inst.

The Argentine Tramway Co. commences paving Calle Rivadavia along its whole length this week, the engineer who is to superintend the work having arrived from Europe. The quantity of 'adoquines' now in port and to arrive is something astounding, yet the demand is in excess of the supply.

Mr. Huergo has introduced a project to the Municipality for shutting up the Recoleta and British Cemeteries, and it is thought generally that the measure is a good one and will pass.

A 'barber' in Frankfort has just made a small fortune in a singular way. Some time ago he had the honour of cutting Prince Bismarck's hair, and left that remarkable personage's poll so bear that the great statesman caught a violent cold in his clever head In a few days it became apparent why Figaro had plied his scissors so vigorously; he commenced selling the Chancellor's hair to the ladies of Frankfort for their lockets, in the smallest quantities and at such remunerative prices that he is now a millionaire, but Prince Bismarck now gives the shop a wide berth whenever he passes through Frankfort.

TRAMWAY ON THE BRAIN.

THE WHY AND BECAUSE.

Why are the streets of Buenos Ayres torn up, traffic stopped, and the surface left even worse than before the disease took root?

Because a few speculators started the tramway fever, and like the yellow fever, it has become contagious, others having become affected.

Why is the whole city torn up with those tramway cars running parallel with each other?

Because the Municipality grants concessions to all of them to run wherever they like.

Why grant concessions for tramway cars to run to towns where railways already run?

Because the Government grants concessions to railways one year, and to tramways the next; and the concessionaires have tramway on the brain, their concessions eventually becoming a laughing stock.

Why do the inhabitants avail themselves of tramway cars?

Because the streets are impassable and in such a beastly condition in bad weather, and the footpaths so wretchedly constructed up and down, that ordinary locomotion becomes nearly impossible.

Why are the rails of tramway cars run from one side of the street to the other?

Because it is the way natives in B. Ayres usually do things, going all round for the nearest.

Why do they run alongside of a locomotive?

Because they are tramway-mad and suppose their horse power greater, and they intend to outrun the locomotive engine.

Why can they run their horses cheaper than an engine, in proportion to the weight drawn?

Because they suppose they can, and by never giving their horses corn or a rub down have set up a standard of horse power themselves, which horse power in Buenos Ayres amounts to little more than ass power.

Why construct tramways on such inclines as have a rise of one inch in twelve?

Because they have tramway on the brain and are tramway mad, simply because no locomotive of ordinrry construction can move at such a gradient.

Why is 33,000lbs considered in England equal to 1 horse power, and about 11,000lbs in B. Ayres?

Because it takes three B. A. horses to do the work of one in England.

Why do they have bells strung round the horses' necks?

Because the cars make such a rattle, and the bells drown the noise.

Why have they a trumpeter?

Because he helps them up the hill; and his horn is cracked, being afflicted with the mania.

Why have superintendents [or clerks of the course] on horseback?

Because, I suppose, they imagine two heads are better than one, even if they are sheeps' heads; and they can also put their shoulder to the wheel, coupled with six horses, and then just manage to pull a dozen passengers up 120 yards.

Why do they so frequently run off the rails and endanger the lives of passengers?

Because the lines have been laid down by men that scarcely ever saw a tramway before, and in many cases they are put down wrong; the tie-rods that are wedged in between the chairs are often bent one or two inches, thus showing that they are misplaced; and the second and principal cause of their leaving the track is that the four wheels are keyed on fast to the axles. This is a great blunder. At least the two wheels on the same side should be loose on the axles; they would then remain on the track, and would safely accomplish sharp curves. Those afflicted with the malady would do well to note this fact, as it may save them from disgrace and compensation in case of accidents.

TIDAL WAVE.

ON 'CHANGE.

September 11. 1872.

Ounces	400
Sovereigns	125
Patacons	25
National Bonds	71½

The Bond market ruled flat to-day. Prices opened for cash at 71½ and fell to 71½: only 6000 sold. For the end of the month 15,000 at 71¾. For October 31st 10,000 at 70½. For October 10 5000 at 70½. Before the closing hour prices ruled still weaker, but at after hours in the liquidation there were buyers for the end of the month at 71¼. Still, the Bond market ruled very depressed. In Argentine Bank shares there was a good deal done to-day: 50 sold for the 12th at 5 premium, 50 cash at 5 premium, and 50 for the 16th at 5 prem. The shares of this bank are now a very saleable security.

The gold from the Neva was landed to-day. The Government sent out two small steamers with the clerk from the Contaduria to receive the specie. It was landed at about half past two. Mr Simon, who was for many years chief engineer on board the Arno, is now chief engineer of the Neva, and was welcomed by his numerous friends on shore here to-day. The captain of the Neva did not come on shore to-day, but is expected to do so before the packet leaves.

The sale of Colonel Mateo Martinez's splendid estancia in the Banda Oriental was announced to-day—six suertes of prime land, with estancia house, puestos, etc, for the round sum of 50,000 pats., Mr. Jas. Lowry, of Montevideo, purchaser. The estancia is in the district of San Jose.

Exchange ruled to-day at 60¼ and 60. Nothing much done. Rates rather firm.

2,000 capones sold to-day, deliverable at a saladero in Tandeil before the 15th October, at $32 m|c each.

At M. Silveyro's saladero, Moron, the following sales:—

1,700 capones and sheep, 20 lbs, $46 m|c.		
1,500 do.	do.	40
2,000 do.	do.	42

Some large sales of sheep skins, at 23 per lb.

Several members of the Transandine Railway engineering party start for Chivilcoy in the morning, to begin the survey of the line to Bragado.

Money ruled to-day very easy, and a very large business was done in discounts at 7 per cent. The Government, however, took money to-day at 10 per cent. per annum.

Owing to this being a species of Government holiday, the Provincial and Argentine Banks closed to-day at two o'clock.

At the auction in Merlo on Sunday all the property offered was sold, realizing $400,000 m|c. The lots sold for from $950 m|c per vara front by 44 deep, to 70 m|c per vara front. In Belgrano Sr. Magalaens sold a sito in Calle General Paz, close to Calle San Martin, for 1850 per vara front with 50 depth. Another lot in the Plazaleta for 80,000, 50 x 25.

Mr. Cordero, of the old firm of Parker and Cordero, has sold his estancia, partido Carmen de Areco, for $320,000, one-third of a league of land, 2,000 varas x 600. Mr. Patrick O'Brien, purchaser.

The auctions on Sunday gave good results. In the town of San Fernando Mr. Ebbeke, the popular auctioneer, sold some very valuable property. The well known building with site, 30x 100, known as the Hotel Nacional, so many years tenanted by Mr. Monet, was sold at auction on Sunday by Mr. Ebbeke for the round sum of 241,000 m|c—Mr. Bletcher purchaser. The same auctioneer also sold two other sites, 16x50, for 12,700 m|c., and 50x50 for 25,000 m|c. All these prices, although apparently low, are fully 50 per cent. higher than those paid last year.

Private letters from Rio per Caldera give the following:—Exchange for the Sindh has closed flat 24½ for bank, and 24¼ for commercial paper. A large business has been done for the mail at 24¼, bank 24¾ commercial. Stock of coffee 70,000 to 80,000 bags. In Bahia and Pernambuco exchange has touched 27d—lower exchange rates are not looked for before November; then the present short crop will begin to be felt, and then perhaps exchange will run down to 22d. Very little business has been doing in gold—sovereigns are now and then dealt in at 10.150 and 10.180, buyers holding out for 10,000, and at this price there are buyers. There is some attention paid to the fact that sovereigns in the River Plate command a premium of 2 to 2½ over other gold, and but for the fact that large arrivals of sovereigns for the Argentine Government are looked to during the remainder of the year on account of the Murrietta loan, sovereigns would be shipped from Rio to the Plate in very large amounts to avail of the present premium down there. Mr. George Nathan is back again in Rio and doing well. Mr. Howden went home in Douro—he is still very stiff.

The London and Brazilian Bank has been reconstructed. Hereafter the capital will be one million sterling in 10,000 of £20, upon which £10 will be reckoned as paid. For the existing 100 shares, three £20 shares will be given with £10 paid, and one £20 with £10 paid will be given for two of the existing £20 shares. The motion for the change was seconded by Lord Lawrence, who as a successful administrator is a guarantee for his belief in these advantages.

Argentine Securities, money market rate, 5th August.—Steady demand and very firm market for all classes of Argentine Bonds. Murrietta's loan originally brought out at 88 is now quoted at 93 to 94, showing a premium of 5 to 6 per cent. on the issue price. 'Small' bonds—Bonds for small amounts are 94 to 95 i.e. 10 p|c. higher than those of a larger denomination, which argues the absorption of the stock by the best class of investors, the small monied public.

Vote of Censure passed in the House of Lords on the 31st July. For the resolution 162, against 82—majority against ministers 80.

An English firm has applied to the Provincial Government for the right to introduce the asphaltic pavement in this city, and we understand will shortly commence work in one of the principal streets in this city.

Our correspondence from Rosario gives some very important items respecting new banking schemes, and also new railway schemes: It appears now, that throughout the cities of the interior there are numerous agents of London houses seeking concessions from the Provincial Governments for every manner of enterprize, whilst here in Buenos Ayres some of the most important purchases of real estate made during the month have been for account of parties who are living in England and on the Continent. Foreign capital keeps flowing into the country at present at a faster rate than was ever before known, this arises from the plethora of capital in every European market, the high credit of the River Plate abroad, and the impossibility of finding good and safe investment for money in Europe at any higher rate than 4 or 5 per cent. per annum.

The first amortization of the six million patacon loan, negotiated a few months ago by Messrs. Wanklyn & Co., comes due next month. The law specifies that one per cent. of the loan shall be amortized at bids: as there is only one holder of this stock, it is reasonable to suppose that the amortization will be at par. The amortization of this debt has, of course, nothing whatever to do with that of the fondos publicos selling on the Bolsa: although the security is in every sense the same, still one per cent. of the Wanklyn bonds must be amortized, and bids for the amortization of that debt cannot be mixed up with bids for the amortization of the other debt. We advert to the subject because it is much spoken of at present on the Bolsa.

All the property at the Boca advertised for sale on last Sunday by Messrs. Rodriguez and Larrazabal, was purchased by an English house on last Saturday for the round sum of 4¼ millions: the auction sale was, therefore, suspended. This is a highly important business, and shows that all really well situated property finds a ready sale and at good prices.

There is a sudden rise in the price of paving stones, the demand is so great that the Rio quarries are unable to supply them fast enough: freights have also risen 'desperately' from Rio to this port for stones.

The latest reports about the English wool market give the following:—

In the wool market prices keep going higher and higher, by slow gradations it is true, but so continuous has for some time been the progress of quotations upwards, that consumers are often doubtful as to whether the present dearness can much longer be sustained. From the aspect of affairs at this moment it would appear quite probable that such will be the reality for some time to come. There is scarcity to be struggled against for one thing, and there is an almost unparalled rate of consumption for another. The latest result is that since Monday wool is worse to buy, and staplers have the demeanour of men who think before long they can make larger profits on the stocks which they have by them. It is not to be wondered at that spinners have again sought an advance, and partly carried their point already. But some of them are so heavily under engagement for future delivery that they are refusing new orders except under very special circumstances. On the other hand, buyers for the foreign markets have frequently had to report to their principals that whenever they make overtures they are met by a new set of quotations, which are on a more adverse scale than those they had previously heard named. This is especially the case with regard to lustres, supers and mediums. In the piece department, business both home and foreign is large, but especially the latter, and prices are hardening every day.

South Plaza.

Heavy arrivals of sheepskins.

Sold—

Campo	130–170
Good matadero	200–290

Remarkable sale of dry hides—8000 from deposit, from the Azul, belonging to Sr. Predu, it is said sold for 160 pesada.

Circulars from Antwerp, give the following—

The 3rd series of auction sales ended to-day, viz—

Offered.	*Sold.*
17,320 bales B. A. wool	16,786
8,570 do M. Video and E. Rios	7,441
440 do Cape and Australia	383
766 do various	441

The sales began on the 1st, and were largely attended, the bidding being very animated; prices as compared with May shewed the following increase—

15 to 20 centimes on B. Ayres good condition.
10 " " with burr.
10 to 20 " M. Video.

There was brisk demand for 2nd, 3rd and 4th qualities of M. Video, at an advance of 25 centimes. The sales throughout were most spirited and closed with prices firmly maintained. In private sale, also, 1655 bales were sold, including 1,000 from La Plata. Stock much reduced, barely 4500 bales of B. Ayres and M. Video. The sales lasted from the 1st to the 12th, most of the buyers being French: there were few German bidders, and they seemed rather slow.

Prices ranged as follows—

B. Ayres merino	fr. 1.50	to 1.90
Do. mestiza	1.45	1.85
Do. do 2nd class	1.40	1.80
Do. lambs' wool	1.35	2.00
M. Video merino	1.90	2.35
Do. mestiza	1.85	2.30
Do. lambs' wool	1.65	2.60
Cape G. Hope	5.30	5.80
Do. greasy	2.30	
B. Ayres washed	3.55	5.80

One of the most important sales recently made in real estate is that of the Boca lands to Messrs' Best Bros. the day previous (Saturday) to that fixed for the auction. It seems the property is situate between the Boca road and the Barracas and Ensenada line of railway, a little below the Yellow House, covering 14½ manzanas of 140x100 varas, say 203,000 square varas or about 9 cuadras, price $4,200,000, m|c. or 20½ per square vara, equal to $461,000 per cuadra. This land with about three squares more was purchased by Sr. Garcia about 8 months ago for the round sum of three millions currency from Sr Araga. Sr. Garcia sold 3 squares of this land at auction some months ago for $750,000 m|c. per square and now sold the remainder on Saturday to Messrs Best Bros. for $4,200,000, thus realizing $6,300,000 for what 8 months ago was bought for 3 millions.

THE ONE THING NEEDFUL the traveler furnished with BRISTOL'S SUGAR COATED PILLS, is armed against those diseases of the stomach, liver, and bowels, common to all climates. The first thing to be done, in case of a bilious attack, is to empty the bowels. BRISTOL'S SUGAR COATED PILLS do this rapidly, but not rudely. As they cleanse, they soothe and heal. None of the sharp, cutting spasmodic pains, which accompany the action of mineral cathartics, are ever experienced during operation. For dyspepsia, piles, liver complaint, sick headache, suppression, vertigo, colic, and heartburn, they are the one thing needful, and no other medicine can supply their place. In all cases arising from, or aggravated by impure blood or humors, BRISTOL'S SARSAPARILLA should be used in connection with the Pills.

ROYAL VICTORIA
LAUNDRY BLUE.
Manufactured by
EHRENSPERGER AND CO.,
London,
And Sold by their Agents in
BUENOS AYRES
To all the Retail Grocers and Store Dealers in this City.

This excellent Blue is made in balls for the convenience of those who use it. There is thus no waste in broken pieces, and for this reason, as well as owing to its superior strength, it is acknowledged to be really the most economica and best Blue ever sold.
It is used, to the exclusion of all other marks by her Majesty's Laundress.
It imparts the most delicate white to Linen, Lawn, Cambric, Muslin, Lace, &c., and it is so entirely free from all impurities, that the most delicate fabrics are not injured by its use, but on the contrary, are vastly improved in appearance.
Every British Storedealer has supplies of this very superior article.
Ladies are respectfully requested to ask for the
Victoria Blue.

SAVINGS BANK
BANK MAUA AND Co.
101--Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current we now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Maná & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in he immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. p. ⅋) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds Twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishe can open an account current, according to the rules estabished by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

NOTICE TO SHIPOWNERS AND SHIPMASTERS.

The Marine Railway at Colonia being in working order, public attention is called to the following Tariff of Charges, a deduction of 25 per cent. having been made since the 1st of July, 1871:—

Sailing Vessels and Steamers of over one hundred [100] tons, English or American builder's measurement, will pay a rate of seventy-five (0.75) cents per ton gold, for being taken up. Each nominal horse power of engine in steamers, will be charged for as an additional ton of measurement.

Sailing Vessels or Steamers, whose entire registered tonnage and horse power of engine does not equal one hundred (100) tons, will pay the rate of one hundred [100] tons.

All cargo will pay one dollar, twelve and a-half (112½) cents in gold, per ton, for being taken up, and the regular rates for laying on.

For laying on the Rail way, from the hour the Vessel or Steamer is properly up, for each twenty-four (24) hours, fifty-six and a-quarter (56¼) cents. per ton, in gold, and any twenty-four (24) hours entered upon will be charged as a full day.

Vessels and Steamers must be provided with ufficient crew and lines while being moved into or out of the cradle.

Wrocked Vessels or Steamers, whose bottoms are broken, will not be taken at the regular rates, but must make an especial agreement with the Company's Agent at Colonia.

No charge will be made while laying on, for Sundays or stormy days, when no work can be done below the load line of the Vessel or steamer.

Railway Bills must be cashed, or acceptably provided for, before the Vessel or Steamer will be launched, and any detention of the Railway for the settlement of Bills will be charged at full rates.

A fine Machine Shop, Blacksmith Shop, and Brass Foundry connected with the Establishment. Machinists, Boiler-makers, and Shipcarpenters always on hand; and Shipowners will find it to their advantage to have all their work contracted for at the Dock.

The Company have immense Barracas ready for the storage of cargoes, with Wharves, Launches, &c.

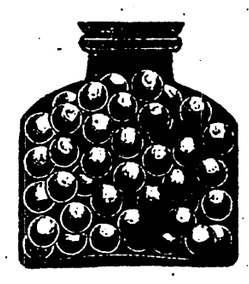
HEALTH AND HAPPINESS,
BY THE USE OF
BRISTOL'S SUGAR COATED VEGETABLE PILLS.

These Pills have justly acquired a widely extended reputation for their wonderful cures of severe cases of sickness—cases in which all other Medicines had failed, and which had been given up by Physicians as beyond help—such as confirmed and long-standing Liver Complaints, obstinate cases of Piles, Dropsy, &c. But while admitting their wonderful curative powers in difficult cases, we wish to call attention to their great value in the every-day diseases of life, such as Costiveness, for which they are a perfect specifid; Headache relieved and cured by one dose; Indigestion always removed by them, and the stomach so toned and strengthened as to prevent a return. Bad Breath cannot exist when the stomach is cleansed by

BRISTOL'S SUGAR-COATED PILLS.



Purely Vegtable.

For Loss of Appetito they are the only sure remedy, as they never fail in carrying off the depraved bilious secretions that float in the stomach and destroy the healthy, natural craving for food. Sour Stomach, Heartburn, Flatulency, and all Derangements of the Digestive and excretory Organs, are promptly relieved and cured by them. The public should always bear in mind that Bristol's are the only Pills made of

Podophyllin and Leptandrin,

The only vegetable substances yet discovered that are really

Antibilious,

To the presence of which invaluable resinolds the extraordinary success of Bristol's Pills may in a great measure be ascribed. It is necessary, however, that the sick should always remember that in all diseases that have their origin in the blood.

BRISTOL'S SARSAPARILLA,

That best of blood purifiers, should be used with the Pills, the two Medicines being prepared expressly to act in harmony together. When this is done faithfully, we have no hesitation in saying that great relief, and, in most cases, a cure, can be guaranteed when the patient is not already beyond human help.

For general directions and table of doses, see the wrapper around each phial of Pills; but as different constitutions requirre different doses to produce the same effect, it is better that each person ascertain, by trial, the dose that suits their system, and take that dose, instead of following any general rule.

5° Lote 16 id id 40 a la misma calle, un lindo gallinero y arboles frutales.
6° Lote 16 id id 40.
7° Lote 41 vs. por 40.

La casa que forma esquina a la Calle Cerrito y Pavon, y que con justic a esta su propetario orgulloso de poserla y que solo por el mal estado de su salud puede desasrse de ella, la que consiste en 9 hermosas piezas, buena socina. letrina moderna, zaguan, lindo corredor, buen pozo parrales en zarsos de fierro, glorieta, jardin, arboles de fruta esquisita, con buen porton de fierro que comunica con la quinta.

La casa esta rebocada en cal por dentro y fuera, empapelada y con pizos de tabla algunas piezas, con veredas a las calles y arbóles, lista para entrar a vivir y todas sus maderas fuertes, construccion moderna, dista como el todo una cuadra de la plaza y 4 de la estacion y por donde va a pasar el Tramway despachado ayer por el Gobierno.

Es inutil el bombo respecto de la propiedad, su posicion despues de dejarla espuesta olvidando que esta contratado el gas con que se va a mejoras el buen alumbrado que tenemos, que se trata ya con una empresa para aguas corrientes, que empiezan a formar grandes parques sobre la pintoresca barranca que mira a la estacion, punto de reunion de los encantos que encierra este pueblo chiche, que se construye ya una recoba en la plaza que la municipalida no descansa, y que los vecinos la atropellan pidiendo siempre adelantos. El Rematador esta autorizado para vender el todo o parte en venta parsicular.

La propiedad se puede ver a toda hora alli esta su dueño bastante amable a quien lo puoden pedir los detalles que se necesiten.

BALBIN Y FLOWES.

De veinte lotes de terrenos en el laudo pueblo de Flores pertenecientes a la Sra. Da. Fidela D. de Mackinlay.

El Domingo 17 del corrient a la una en punis y dinero de contado se rematarán los 20 lotes de terrenos arriba espresados que forman 2½ manzanas completas de 120 varas de frente por 104 varas de fondo subdivididos del modo siguiente:

16 lotes de 30 vs. de frente por 52 vs. de fondo.
4 id id 30 id id id 54 id id.

Previniendose que 10 de estos lotes forman angulo esquina como puede verse de un mas demostrado en el plano.

Lindan por sus varios vientos con terrenos de les Srcs. Moore, Nield Wilson, Thompson y Crowther, estan situados a tres cuadras al Sud de la Quinta Gotica del Sr. Terrero y a tres cuadras tambiem del Tramway del Señor Billinghurst.

El terreno es alte y fértil, poblado de gran cantidad de arboles frutales siendo esplotado al mismo tiempo en el cultivo de legumbres, el paisage por su elevacion es estenso y muy pintoresco.

Estos terrenos por su situacion, por la salubridad del local, y per lo comodo. cerca, y barato transporte a la ciudad, no dejan nada que desear ni a las personas mas descontentadizas, en la eleccion de solares de campo, para la construccion de casas de recreo que les pongan a salud de las terribles epidemias que con sobrada razon tememos se reproduzcan previniendoles que estamos autorizados por la Senora propietaria venderlos al mas alto precio sin reserva alguna.

Por planos y otros detalles a la Calle Peru No. 19.

Los interesados pueden ir por el tren que sale de la estacion Oarque a las 18 en punto.

A new and certain cure of all Diseases of the
CHEST and LUNGS.

The Pectoral to be given in a little cold or tepid water, and the dose repeated every two, three, or four hours, according to the nature and urgency of the complaint

Dr. JACKSON'S
BALSAMIC PECTOBAL,

Is a remedy long employed by the eminent Physician whose name it bears, and is carefully prepared from the original recipe by the present proprietors.

It is composed entirely of vegetable products, and combines valuable expectorant qualities with those of a soothing and curative nature. It has already won golden opinions in Europe by its wondrous effect in allaying pulmonary irritation, and its promoting a healthy action of the membranes lining the throat and lungs, arresting the progress of disease and decay, and even, when used at an early stage, arresting that most terrible of chest diseases—Pulmonary Consumption.
