SUNDAY, OCTOBER, 29, 1871. THE ARGENTINE DORKING.

It is a long story, my son, the sorrows of this country, and the singular events which led to the annihilation of the once great Argentine Republic. The capture of Buenos Ayres by the Germans, the conquest of Entre Rios and Corrientes by the Russians, and the creation of the present monarchy on the ruins of one of the most prosperous republics of the last century. Slaves we are, and slaves we must

be, because our ancestors were fools. It was towards the close of the 19th century when the Argentine nation stood first in South America, her ships spanned the world, that the last Presidential election over held in the Argentine Republic took place: For some time previously bitter political discussions had been going on respecting the removal of the capital from the city of Buenos Ayres to a more central part. The Prince accepted the offer, and sent out German vessels to load the manure. When they arrived off Patagonia, they found that a tidal wave had invaded the coast and washed the guano away, leaving nothing for the German ships to load. Supreme Courts of Santa Fe upon the subject o. gold payments. We will publis it on Tuesday Tc-day one of the sweetest places in this he The Provincial Chambers will close misphere will be sold by auction on the Flores on the 1st prox., and there will be no road, by Mr. Nazar. We have seen the place it reminds us of the most beautiful scenery in Ireland, but of course on'a small scale-say, a littlpographical Department, permits for Devil's Glen without the proprietor. Had the crection of 1,504 houses in this we the money not even Anchorens should out city were issued in the year 1870, bid us. There is a bower of roses in one of the while in the previous year the number gardens where the finest leading articles that was only 886. It is supposed the re- ever appeared in type could be written. But such paradises are not for us. Dry hides and turn for the current year will not wool rule the land, a wink from a tailow broker would pay for the whole place, roses and all whilst we poor mortals toil on "tied to the oar," pulling for the bare pittance of two paper dollars. and three for the weekly.

One of our mercantile subscribers complain Yesterday there were only six deaths of the extraordinary prominence givent to earth from small pox in the city; the evil closets at some of the principal public establishappears to be abating in a decided ments in town. Last week for instance two carth closets were iplaced in front of the Bolsa, where hundreds were passing in and out all day. Even at the Standard office jour tenants Messrs Bullrich have lined our front patio with these new and necessary commodities. We repeat such prominence is repugnant; many of our subscribers coming into our effice are shocked at such an exhibition, of which we are every way in

The sale of from eight to nine thousand sheep belonging to the estate of the late Robert Nugent will take place on Tuesday next at the Juzgado of Giles, and not at the Cabildo of Buenos Ayres, as erroncously stated.

There was not much done in the produce markets owing to the weather and few arrivals. Everything that came into market has been, however, sold. Mr. Bernechea sold 3,000 ar. geod wool at from 83 to 89. In sheet skins 121 doz. at 23 reals; 400 doz. at from 260 to 295. Up to the closing hour of the Bolsa there was no telegram from Montevideo.

Mr. Coghlan's very luminous paper on the saladero question was the subject of much comment, and we hope at our leisure to be able to give it to our readers.

Mr. Ernest Roquaud, so well known in Barraces, has hit on a new and most promising business-the manufacture of oil from fishes. The National Government have given a concession of seventy leagues of land on both banks of the river Santa Cruz, Patagonia, and it is the intention of M. Roquaud to form a company here or in England for the proper working of the business. The river abounds in fish, which this enterprising Frenchman confidently hopes to be able to convert, at a large gain, into oil, glue and guano. M. Roquoud is freighting a vessel with the necessary machinery; in a few days he and family leaves for the new settlement.

Freights-We close this month the shipping cason of 1870-71, having exported only 327,981 ons against 397,722 last year and 358,864 the year before, the saladeros having stopped working on account of the fever ; nevertheless the average rate of bales to Antworp by sailing vessels has been 2319 against 1713 last year and 2311 the The Bond market ruled flat to-day. 1000 sold year before. During the last five years freights The beautiful QUINTA, situated on the high cash at 69½, and 5200 for the end of the month at have been very much depressed owing to the road to Flores, with the Billinghurst Tramway number of sea going vessels detained in the river, as many as 150 at one time, transporting horses, hay, coal &c. to the seat of war in Paraguay; these have now disappeared, and our import of coal, salt, and lumber is on a very much maller scale; many ships now come out chartered to load on the West Coast and in the East owing to the long continued depression of our blice en general y nuestros amigos en particular market and the fear of the fever returning. We pudiendo segnrar que en nuestros procederes close the month with 10 vessels or 3,859 register tons disengaged, against 111 or 58,770 tons same time last year, so that there is every reason to
